ADRIAN H. MULLER, P. R. WILKINS & CO.,

WILL SELL AT AUCTION,

On Tuesday, March 2, 1869, at 12 o'clock,

At the Exchange Salesroom, 111 Broadway,

By order of LEWIS B. BROWN, and CLARENCE S. BROWN, Esqrs., the above described Block, situate at the junction of the

Grand Boulevard and Ninth Avenue,

ONLY 800 FEET DISTANT FROM THE

CENTRAL PARK.

On high commanding ground: is the most eligibly located property in that section of the city. The great improvements now in progress and contemplated, together with the natural advantages of position, &c., combine to render it very desirable, either as an investment, or for improvement. The property will be sold with restrictions as against nuisances, similar to those contained in the deeds given by the Harsen estate; like restrictions will also cover the block of land lying north of it, thus effectually securing this property for first-class improvements. The sellers pledge themselves that this sale shall be

OPEN AND FREE IN EVERY RESPECT,

and that there shall be no bidding in their behalf; their object being to multiply the number of interests in the neighborhood, and by selling with the proper restrictions as against nuisance, and on unusually liberal terms, to encourage the erection of first-class improvements, thereby enhancing the value of other property owned by them in the immediate vicinity.

The terms of sale will be such as will enable every one to secure a lot for a future home (while prices are yet low), in what must become in an incredibly short space of time the most fashionable and desirable quarter of the city.

The title to the property is indisputable, and printed abstracts will be furnished to purchasers free of charge. The assessments for the Boulevard and Circle are all paid.

TERMS:—Ten per cent. of the purchase money and the Auctioneers' fee to be paid to the Auctioneers on the day of sale. Twenty per cent. on the 6th day of May, 1869, at the office of Messrs. ANDERSON, ADAMS & YOUNG, No. 49 Nassau Street, New York. The balance, 70 per cent., may, at the option of the purchaser, remain on bond and mortgage of the premises for three or five years. Parties desirous of completing their purchase before the 6th day of May, will have the privilege of doing so, and will be allowed interest from the time of taking their deeds up to the 6th of May, 1869. The buildings on the lots belong to the occupants, and are to be removed before or by the 1st day of May next.

Maps at the Office of the Auctioneers, No. 7 Pine Street, and at the Office of LEWIS B. BROWN, Esq., No. 58 Broadway.

THE PROGRESS OF NEW YORK.

COMMISSIONER GREEN'S COMMUNICATION.

We had purposed to present the readers of the RECORD with the interesting and highly important communication of Mr. Green of the Central Park, regarding the development of the city limits of New York in the direction of Westchester County and Long Island. Our space, owing to the crowding of advertisements and other matter, we regret will not admit of the publication. Its great interest has already secured it a wide circulation in pamphlet-form, however, and we will be glad to furnish copies in that shape to any of our subscribers, who will apply for them at our office. Mr. Green took a brief recess from his comprehensive labors last Fall, and visited the principal cities of Europe, gleaning, as will be evident from this communication, a harvest of observation and enlightened results, which must prove of great benefit here, if his suggestions are followed up. His review of the future destiny of this city, and the vast scope of its requirements for commerce and population, presents the prospect with a vigor and clearness, that is positively electrifying. When it is understood, also, that his former announcements of a like character, bearing upon the territory within the corporate limits of the city, have been so quickly followed up by practical work and more than their most sanguine aspects realized, the force of Mr. Green's pamphlet is felt even in the immediate prices and movements of the day in real property. It will give a life and activity to real estate movements, which within a year will double the area of marketable and speculative lots around the city. Public opinion is very little behind the scope of his essay, and the demand for a bridge at every avenue, from New York across the Harlem river, will compel such improvements at an early day. Indeed, the slow and stupid manner in which the grading and opening of the streets at the upper end of the island is conducted by the corporation authorities, if much longer persisted in, will force population into Westchester, and organize another new city outside of our corporate limits at that point, as extensive and solid as Brooklyn or the Jersey shore present.

MARKET REVIEW.

BRICKS.—The market for hard brick continues com-
paratively dull and devoid of interest, up to the close of
this report, though indications point to some changes
within a few days, and the probabilities are that the turn
will be in buyers' favor. The demand though fair is not
by any means brisk, the supply from the Jersey yards
comes forward in a regular manner, and the recent warm,
spring-like weather has so cleared the river that many
sailing vessels are loading, and some have already arrived,
each captain naturally anxious to make the run as quickly
as possible. Thus the stock is suddenly increased, and in
order to secure an outlet, some inducements must be of-
fered buyers. The demand at present comes mostly from
masons requiring odd lots to complete jobs, and for vari-
ous other styles of irregular work, no contracts being
made for large parcels, most of the builders who would be
likely to want a liberal supply having piled up enough
brick to carry them through the early portion of the sea-
son. We quote per cargo a little nominally at \$14.00@
\$15.50 per M. for Long Island; \$12.00@\$14.00 for New
Jersey, and \$15.00@\$16.00 for North River, the outside fig-
ures only to be obtained on very choice quality, of which
but few arrive, though the general average condition of
the stock is very good. Pale brick continue in good
steady demand, cargoes finding customers upon arrival
and realizing former rates, viz. \$10.00@\$11.00 per M. We
are informed that in some sections of the city it is hardly
possible to fully meet the call for pale brick, so well do
they pay speculators, who run them in as a back to a re-
markably thin veneer of brown stone, and thus turn out
row upon row of fashionable residences, so-called. In front
brick the trade is fair, and dealers are obtaining former
quotations without difficulty.

CEMENT.—Supplies are still slowly but surely working
down under a continued good demand, and some dealers
find it necessary to use considerable discrimination in the
reception of orders, to prevent running entirely out of
stock, and thus disappoint regular customers. Near-by
country buyers, coastwise shippers, and a few exporters
are represented to some extent, but the city trade, as
before, still take the major part of the goods sold. Prices
rule strong and buoyant, with a few sellers to be found at
\$2.75@\$2.90, but not many below \$2.00 per bbl. Some
barges are entertained that the production will commence
earlier this season than usual, in view of the probable
quick disappearance of the ice from the river.

FOREIGN WOODS.—A few shippers have found a bare
margin for profit on certain grades of mahogany, and one
or two lots are about going forward on receiver's account,
but the general export demand is still light, and stocks de-
crease slowly. Jobbers are not buying except occasional-

ly through necessity, for a special style of goods, while
the retail consumptive demand continues small and un-
certain. lignumvitæ is in ample supply for all immedi-
ate wants, and good quality wood only reaches quoted
rates. Cedar has sold to a moderate extent, in one or two
instances, both on local and shipping account, and at prices
said to be much in buyers' favor, though most holders
remain firm and appear to gain confidence from the con-
tinued unfavorable condition of political affairs in Cuba.
Foreign orders are still very difficult to execute at current
values of the wood and of freight-room, but it is intimated
that exports will be made direct from owners' hands, if
the full prices asked cannot be obtained in this market.
The returns show no shipments this week, but about 500
logs mahogany are going aboard for Liverpool. Receipts
as follows: from St. Jago, 37 pes. cedar; from Havana,
271 logs do.; from Wanks River, Nic., 104 logs and 35
logs mahogany; from Minatitlan, 440 logs mahogany;
from Jacmel, 30 logs and 178 pes. do., and from St. Do-
mingo City, \$36 pes. lignumvitæ.

GLASS.—We find no improvement in this market, im-
porters of both French and English reporting a very dull
trade in all kinds of window glass, and some irregularity
in values. The small sizes are not abundant but in ample
supply for immediate wants, and in one or two instances a
slight accumulation has taken place. American window
is plenty and dull. We quote at 50 per cent. off on Ameri-
can; 40@50 per cent. on French, and 35@40 per cent. on
English.

HARDWARE.—The business in builder's hardware con-
tinues quite active, all the leading articles going out in quanti-
ties nearly equal to the receipts from manufacturers, and
prices are still quoted very firm. Out-of-town orders or
are dropping in to a fair extent; the export trade is good
for the season, and local jobbers are commencing to stock
up. Cast Butts have recently been advanced 10 per cent.
A larger supply of strap and T Hinges has come to hand
during the week, but wrought Butts are still in very
short stock, and additions are wanted.

LATH.—Since our last report a cargo of 700,000 Eastern
arrived, and as we have previously intimated would be the
result of such an offering, they quickly changed hands at a
material advance, realizing to the seller \$3.80 per M., the only
dissatisfaction expressed being by those buyers who were
unable to secure the parcel. A few more just such lots
could be sold to advantage, as many dealers are nearly and
a few entirely out of lath, and in order to meet their regu-
lar trade would gladly re-stock even at the advanced fig-
ures. Too heavy a supply, however, is not wanted, and
would soon break down the market. City dealers report
a good consumptive trade and occasionally an out-of-town
order to supply some jobber whose stock is running low,
and on all retail lots values have been advanced to \$3.50@
\$3.60 per M., and in certain cases even as high as \$3.75
per M.

LIME.—Finding the weather fair and open and a num-
ber of vessels lying idle, with the captains anxious to
make a trip, Eastern manufacturers started up their
fires, and turned out a considerable quantity of stock
which was immediately loaded, and shipped to this point.
A few cargoes would have done well enough, and in all
probability sold at full previous figures, but as we noted
last week, dealers were not over anxious for a supply, and
the fleet that came in was entirely too large for current
wants. Receivers, therefore, had but one course to pursue,
and that was to reduce the price sufficiently to draw out a
demand, and common lime, of which the bulk of the offering
was composed, fell off to \$1.25 per bbl., a decline of 35%.
Lump remaining steady at \$2.00 per bbl. It is estimated
that in the aggregate about twenty-five or thirty thousand
barrels arrived, pretty much all working off at the decline
and nothing of importance now remains afloat unsold.
Northern lime has, of course, been obliged to follow, but is
offered rather sparingly, owners being hopeful of a reaction.
The market for Rockland closes with more steadiness, the
result of the recent shipments having shut off the kilns,
and suspended the production for the present,
the rates obtained being anything but satisfactory to man-
ufacturers. Our city dealers have adjusted their prices to
conform to the wholesale market.

LUMBER.—Trade at the yards does not improve, in
fact in most sections of the city has rather fallen off dur-
ing the week under review, but this is attributed more to
temporary causes, than to any general withdrawal of buyers,
and dealers continue to express a fair amount of satis-
faction, with the result since the opening of the year. A
few Southern orders are being filled, and one or two lots
of desirable goods are wanted by near-by country dealers,
though the demand as before is mainly local. A few large
contractors and builders are reported as looking around
the market, with the intention of making preparations for
the coming spring and summer, but as yet have entered
into no engagements. In a few isolated cases we hear
of assortments being a little broken, but as a rule the stocks
are ample and well distributed, and held at former rates.
In many cases predictions are being made of an unusually
early opening of the Hudson to Albany; but, though the
recent weather has favored the idea, one or two sharp cold
days and nights—and it is not too late to expect them—
would soon shut off navigation until nearly, if not quite
the usual time for the final breaking up of the ice. At
wholesale we find the same stagnation heretofore noted,
buyers and sellers having nothing upon which to negoti-
ate, whatever may be their desires in regard to operations.
All accounts agree, however, that stock is wanted
to a certain extent, and if right here on the spot, could be
sold at full figures for choice goods. The demand is mainly
from local dealers and manufacturers, though shippers
appear to be buying with rather more freedom than last
season, and in many cases on direct orders, instead of for
the purpose of filling up freight-room as heretofore. East-
ern spruce remains nominally at \$20.00@\$25.00, the figures
based upon last sales, but they could, without doubt, be
again realized, were anything of respectable quality offered.
One small cargo we understand came in last week on
special order, and it is thought a few more may possibly
arrive should the weather continue encouraging, but from
the regular ports nothing can reasonably be looked for at
present. For delivery during the early spring some en-

OFICE OF THE COMMISSIONERS OF TAXES AND ASSESSMENTS, No. 32 Chambers street, New York, January 4, 1869. NOTICE TO TAXPAYERS.—Notice is hereby given that the assessment rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected." If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment, the assessment is erroneous, they shall cause the same to be corrected. If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if, in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

This splendid property is directly opposite the Park and Flatbush entrance. It has never before been offered at public sale. It commences at the southerly intersection of the Park and Flatbush avenue and runs southerly along the easterly side of the avenue 540 feet. Its location is unexceptionable and its future value for business purposes almost beyond computation. This property bears the same relation to Prospect Park that lots on the Eighth avenue, N.
