ADRIAN H. MULLER, P. R. WILKINS & CO.,

WILL SELL AT AUCTION,

On Tuesday, March 2, 1869, at 12 o'clock,

At the Exchange Salesroom, 111 Broadway,

By order of LEWIS B. BROWN, and CLARENCE S. BROWN, Esqrs., the above described
Block, situate at the junction of the

Grand Boulevard and Ninth Avenue,

ONLY 800 FEET DISTANT FROM THE

CENTRAL PARK.

On high commanding ground: is the most eligibly located property in that section of the city. The great improvements now in progress and contemplated, together with the natural advantages of position, &c., combine to render it very desirable, either as an investment, or for improvement. The property will be sold with restrictions as against nuisances, similar to those contained in the deeds given by the Harsen estate; like restrictions will also cover the block of land lying north of it, thus effectually securing this property for first-class improvements. The sellers pledge themselves that this sale shall be

OPEN AND FREE IN EVERY RESPECT,

and that there shall be no bidding in their behalf; their object being to multiply the number of interests in the neighborhood, and by selling with the proper restrictions as against nuisance, and on unusually liberal terms, to encourage the erection of first-class improvements, thereby enhancing the value of other property owned by them in the immediate vicinity.

The terms of sale will be such as will enable every one to secure a lot for a future home (while prices are yet low), in what must become in an incredibly short space of time the most fashionable and desirable quarter of the city.

The title to the property is indisputable, and printed abstracts will be furnished to purchasers free of charge. The assessments for the Boulevard and Circle are all paid.

TERMS:—Ten per cent. of the purchase money and the Auctioneers' fee to be paid to the Auctioneers on the day of sale. Twenty per cent. on the 6th day of May, 1869, at the office of Messrs. ANDERSON, ADAMS & YOUNG, No. 49 Nassau Street, New York. The balance, 70 per cent. may, at the option of the purchaser, remain on bond and mortgage of the premises for three or five years. Parties desirous of completing their purchase before the 6th day of May, will have the privilege of doing so, and will be allowed interest from the time of taking their deeds up to the 6th of May, 1869. The buildings on the lots belong to the occupants, and are to be removed before or by the 1st day of May next.

Maps at the Office of the Auctioneers, No. 7 Pine Street, and at the Office of LEWIS B. BROWN, Esq., No. 58 Broadway.

Peremptory Sale at Auction!

WILL SELL, ON

Monday, March 15, '69,

At 12 o'clock, at Exchange Salesroom, 111 Broadway,

48 PARCELS OF LAND, CONTAINING ABOUT

181 LOTS!

Estate of Lewis G. Morris.

The demand for semi-rural residences must be considered not only a prominent characteristic of the present activity in real estate, but is also evidence that the increasing population of the City of New York will make its suburbs indispensable auxiliaries. It is not doubted that part of Westchester County embraced by the contemplated sale will become a part of the great and growing City of New York. The great feature of Westchester County at present in this connection, viewed from a city standpoint, is the

CENTRAL AVENUE,

Which is one of the broadest and finest avenues in the world for the general characteristics of dimensions, locality, and the beauty of surrounding and adjoining scenery. It commences on the northerly side of Harlem River, directly opposite the termination of the Seventh-ave. Grand Boulevard, and One Hundred and Fifty-fifth st., and is connected with this city by the Central Bridge, which spans the river at that point. The Commissioners of Central Park, when this track shall be placed under their control, will lay out several streets and avenues, and connect them by bridges with the Boulevards on New York side. The probable consolidation of this part of Westchester County with New York City; the popularity of Central-ave. as a drive; the proximity of the Harlem and Third-ave. cars, and the proposed Underground Railroad, make it at once desirable for building purposes or for investment. The location of this property is superb, and a fine view of Central-ave. is presented from all parts.

For Maps and further particulars, apply to the Auctioneer,

No. 28 PINE STREET.

A REAL ESTATE EXCHANGE PLAN.

THE aspect of the Real Estate Exchange room in this city now presents a daily scene of activity unsurpassed either by the Gold room or the Stock Exchange. The crowd and the clamor appear, perhaps, a little more staid and sober, but the life and vigor manifested are proportioned to the fact that the greatest fortunes and the surest path to affluence may now be found in the legitimate operations of real property in this city. The fluctuating activity of former years appears to be well outgrown here, and real estate business, organized in the ablest hands, promises to present a permanent body of transactions quite as regular and settled as money or produce on 'change. There are certain disabilities, however, which obstruct the rapid transfer of real property. These mainly grow out of the two points, the embargo which the lawyers and their searchers make on every change of ownership, and the difficulty of fixing a positive value for rapid exchange on each parcel of property. Until something can be accomplished which will obviate these obstructions, the bulk of sales must remain greatly disproportioned to the vast body of values tied up in real estate. So far as the lawyers and their searchers are concerned, it would be very easy to suggest a change, but perhaps difficult to persuade so powerful a body to see that it would be for their interest. Our laws, modelled upon the old English common laws, inherit a great deal from that policy of the feudal time which contrived every obstruction to hamper the transfer and disintegration of estates. At this day even, it is at least a month's job and a *quasi* lawsuit for a person to transfer a piece of real property in the ordinary manner. The same amount of value in corn, or gold, or railway shares, could be sold a thousand times in that period, and can have a market as wide as from London to San Francisco. With the rising importance of real property as an article in our daily markets, it becomes a great question to solve whether any plan can be devised for releasing it and placing its movable value in some more convenient and marketable form than the usual deed. As we have observed this effort, successfully put into shape lately in the case of certain large bodies of real property, and in a form which it seems to us could be extensively applied, we will submit it here for the examination of our real estate men.

There is owned in this city a property worth over a million of dollars in the hands of one of the most active business concerns. The use of this property is indispensable to the business of the house in question, yet to have so large an amount of their capital tied up had always hampered their business operations. Lately they hit upon a plan, the practical result of which has released at least half a million of this capital, and has placed the whole amount in their hands for current business purposes, yet leaving them the free control of the estate. They selected two or three of the most responsible and best known men in the city, and made a mortgage to them in trust of the entire real estate for a sum safely within its value. This mortgage they divided and issued in bonds of one thousand dollars each in the manner of railroad bonds, and holding these in their safe with title searched and certified, they had their real estate capital as readily at their disposal as if it were ordinary railway collateral. Calling it in, they had no interest to pay; putting it out as security, they only paid interest on their loans, which they could borrow at low rates on a "first class real estate security." Why should not this plan be more generally adopted? Why can it not be elaborated and brought to bear in a general manner, so as to enable owners of real property and business men to mobilize their capital? Look at the result! It would place a thousand millions of solid securities in the market at an early day, in addition to the credit facilities now available. It would relieve the operations of real estate dealers of the incubus which now bears them to the wall and ties up their enterprise by the red tape litigating obstructions of the lawyers. It would effect ten transactions in this business where one is now made. The demands of the time indicate the necessity for releasing real property from the unnecessary disabilities which affect it at present. When this can be accomplished, one of the grandest strides which the material interests of the country can make will be realized. We will recur to this topic again and at an early day we will have the satisfaction to announce a practical organized plan for testing these suggestions.

Each week greater interest seems to be attached to the movements in Real Estate, and people seem to be just beginning to realize the vast growth of New York and vicinity. Quite a variety of property was offered this week, consisting of Broadway property, Boulevard lots, Water fronts, Westchester County, Brooklyn, New Jersey, and Staten Island property. The most valuable piece sold was the land and buildings, Nos. 1299, 1301, and 1303 Broadway, having a front on Broadway of 13.8, on 35th street, of 103.10, and runs back on Broadway on the North line 191 feet. This property was sold by Mr. JAMES M. MILLER for \$219,000. Mr. CHAS. JOHNSON was the purchaser. The property on which St. Thomas' church formerly stood, now occupied by a clothing store, on the north-west corner of Houston and Broadway, subject to a lease of \$35,000 per annum, lot 51.10x125 was sold by Messrs. E. H. LUDLOW & Co. to Mr. J. S. Rice for \$290,000. Mr. JAMES M. MILLER also disposed of a large amount of improved New York and Brooklyn property.

MARKET REVIEW.

BRICKS.—Hard brick have been in very good demand, mostly in small parcels, but the aggregate business has not been large enough to counteract the increasing arrivals, and as we anticipated last week, stock has materially accumulated. Receivers, in consequence, have found it necessary to offer more favorable terms, and values are reduced \$1.00 per M, closing somewhat unsettled, with the tendency if anything still slightly in buyers' favor. The supply is now coming in almost exclusively from the North River, the Jersey and Long Island brick having become exhausted, or near enough so to render their wholesale market value merely nominal, and we omit quotations as simply useless. North River stock, according to latest sales, is worth \$14.00@\$15.00 per M, the general average of quality running very good. The trade as a rule hold to the opinion that the present depression is merely temporary, and attributable solely to the early rush of stock upon the market, consequent upon the opening of navigation, when manufacturers, and captains, are naturally anxious to be on hand among the first, and secure top prices. The unusual facilities afforded for transportation during the past winter, has brought down the river a great many brick, all of which were sold, so that now we have little or no old goods on hand, and many of the up-river yards are already nearly cleaned out. This position, with the impression that builders will commence early, leads to the belief that a reaction will eventually take place, or that a material falling off in price at least can be prevented until the new crop makes its appearance. Much depends on the weather, however, and should we have a continuation of storms postponing building operations, as was the case last spring, there will probably be more sellers than buyers, at any where near ruling rates. A number of new brick yards are to be started during the coming season, and manufacturing preparations are extensive, which, if not over-done, will undoubtedly result favorably. Pale brick are still selling with great rapidity, in fact, the demand is in excess of the arrivals, and dealers frequently find an accumulation of orders, with no stock to fill them. Priers have advanced 50c@\$1.00 per M, and are firm, buyers not complaining of the price as much as they do at their inability to secure a sufficient supply to meet pressing wants. Rather more have been wanted of late in the lower section of the city, but Yorkville, Harlem, and the suburban towns still call for the largest quantities. We quote at \$10.50@\$11.50 per M, nothing but very inferior selling at the inside rate. Front bricks are not very plenty, and though the demand is moderate, holders are pretty steady, and have not as yet made any quotable modifications in prices.

CEMENT.—We still find a very strong market for all the best brands of Rosendale, and not many dealers are now to be found who are willing to operate, except at full outside figures. The demand to be sure is not remarkably active, and calls for only just such parcels as the immediate wants of buyers require, but the stocks in all quarters are greatly reduced, and the owners of the remaining stock, naturally take advantage of the position to obtain high figures. About \$3.00 per bbl. may be considered as the average price, with a few sales made above this, and occasionally some slight modification to accommodate regular customers, &c. We note shipments of 100 bbls. to New Granada.

FOREIGN WOODS.—The wholesale market for mahogany remains quite dull, jobbers requiring no additional stock at the moment, and the export demand still footing up too small to infuse any life into trade. Prices are quoted nominally as before, but are barely maintained, the outside figures seldom being reached except on very choice grades. The arrivals at the moment are not large, but there is an ample supply here. The distributive demand from yard is fair and values steady. Lignumvitae has met with some export inquiry and a moderate home demand at previous quotations. Rosewood is firm and the stock has recently been somewhat increased. The internal troubles of the Cuban government and the consequent prostration of all or nearly all industry has of course prevented any very large receipts of cedar from that direction, and dealers in this class of wood continue to ask about 25c. or thereabouts, though sellers can be found at 23c. and even lower. These rates, however, nearly cut off the demand in all directions, and at the same time have a tendency to draw out supplies from other points, and buyers are in the meantime operating from hand to mouth with the hope of an early decline. A few lots have gone abroad, but as a general rule, there is no margin for export, except on direct shipment from first hands. The exports for week are as follows: To Rotterdam, 1,000 logs cedar, valued at \$875; to Liverpool, 1,321 pcs. lignumvitae, valued at \$2,000, and to Oporto, 99 logs mahogany, valued at \$639.00. Receipts as follows: From Rio Janeiro, 594 logs rosewood; and from Bahia, 409 logs do.

GLASS.—The general demand for foreign window glass continues quite moderate from all sections of the country, and though the arrivals at the moment run small, they exceed the sales, and supplies slightly accumulate, particularly of the undesirable large sizes. There is a few exceptions to the above, however, among which may be noted a quick sale at full rates for 8x10, and 16 inch, the latter nearly out of the market, and a fair number of orders for 9x12, 9x13, and 10x12, all the last three sizes in comparatively small stock. Discounts are unchanged, ranging at 40@50 per cent. off on French, and 35@40 per cent. off on English. American glass is not very active, but rather larger quantities of the small grades could probably be sold to advantage.

HARDWARE.—Most of the houses dealing largely in builders' hardware are doing a good steady business, not only on local account, but on increasing orders from both the West and South. Stocks, as a rule, are fair, but not liberal and prices rule quite firm. A few new price-lists have appeared, but the changes are unimportant.

LATH.—With nothing additional offering the wholesale market has remained dull and can only be quoted nominally, on the basis of the last sale, viz.: \$8.30 per

M. The demand, however, is good enough to consume a pretty large amount of stock, and were receivers in possession of cargoes they would unquestionably find a ready market. Jobbing dealers continue to find a good demand, and buyers willing to pay full prices, sales ranging at \$3.50 @ \$3.75 per M, according to circumstances. The orders are not unusually heavy but regular enough, and in sufficient number to cause a pretty rapid reduction of supplies.

Since writing the above, and as we go to press we learn of the recent arrival and sale of about 750,000 Eastern lath at \$3.87 per M, with this and even higher figures bid for more. A few cargoes are en route and wanted by several buyers, but receivers refuse to name a price until the goods come to hand.

LIME.—There has been no further arrivals of importance, and the market remains as last quoted, viz., \$1.25 per lb. for common, and \$2.00 for lump. There appears to be rather a firmer feeling, however, and while no additional decline is to be immediately anticipated, an improvement seems not improbable. Many dealers now begin to run out of stock, and finding a continued steady call from consumers, are anxious to fill up again, in order to keep trade moving along smoothly. A few more cargoes are due, but nearly all have been sold previous to arrival, at full rates. The Northern line is not offered with freedom, but regular first-class customers get all they want at market rates. The business doing from jobbers is comparatively active, and at proportionate prices.

LUMBER.—The rather dull tone of the retail trade noted last week, still continues to some extent, but at nearly all the yards we find a little business doing, and some dealers report enough activity to require constant daily attendance. Our city manufacturers and builders constitute a large percentage of the buyers, though country orders are not by any means a rarity, and a number of odd parcels are still going Southward. Prices remain very firm, with a tendency in some cases to stiffen up from inside figures. Contractors are apparently willing to engage stuff to a moderate extent, and several parcels are in treaty with one or two already sold. The supplies as a rule hold out very well, and there will probably be enough to last the season through, though we occasionally hear complaints of a growing scarcity of nicely cured lumber of all grades. Spruce plank 14 inch is mentioned in particular as in small supply, and considerable quantities could easily be sold if offered. The prospects of an early opening of the river are still good, but our dealers appear to look upon this with indifference, or else express a wish that the event may be postponed, until they have sold out a little more stuff. At Albany trade has not as yet commenced, but preparations are being made, and the prospects are that the market will open at very full figures. The Albany dealers have had their views stiffened very materially, by the presence already of a great many Eastern buyers, and until this demand is satisfied we may look for extreme rates, particularly as the supplies on hand are not abundant. The wholesale market up to the present writing has remained comparatively quiet, but the prospects are decidedly more encouraging, and dealers generally are predicting a greater amount of life from this time forward. This does not arise from any particular increase in the number of buyers, as a great many have been in want of stock for several weeks, but from the fact that desirable supplies are known to be moving in this direction, and there will at last be something with which the demand can be met. The export inquiry has of late been less active, and mostly for parcels of less than 100,000 feet each, though a few quite liberal foreign orders are on hand, and will be filled whenever suitable assortments can be found. Eastern spruce is now eagerly sought after, and at very full figures, it having been discovered that quite a respectable amount is in transit for this port and may be expected in at any moment, in fact a portion is already at hand. This has not only raised the hopes of buyers who have for some time been regretting their inability to secure stock, but has drawn out a number of others and develops the fact that supplies of certain grades of timber have run down pretty low. There is a disposition to preserve as much secrecy as possible to the amount likely to arrive, and we are unable to glean full particulars, but have good reasons for stating that fourteen or fifteen cargoes at least may be expected, about one-third of which are already sold to local dealers. As to the prices paid no definite information is vouchsafed, though we know that \$22.00@\$23.00 per M. was refused on a very ordinary specification, and buyers express a willingness to pay \$25.00 quickly for the most desirable stock, such as 23@25 foot lengths, &c., the market closing with a buoyant feeling. This may be called the opening of the season, and the result fully verifies the predictions made in this column some five or six weeks ago. White pine is in good steady demand from dealers, hands on local account, and fair average taken for export, but the general market presents few important features at the moment. Prices steady, and we still quote at \$21.00@\$22.00 per M. feet, for inferior to fair box boards. \$26.00@\$30.00 for good to prime do., and \$31.00 for choice selections. Piling is merely a nominal article for the present. There has been a few irregular inquiries for pickets, but without resulting in sales as yet, and values are too uncertain to warrant quotations. For yellow pine quotations still stand at 36c@38c per foot for hewn timber; \$30.00@\$32.00 per M. for resawed; and \$38.00@\$40.00 do. for good to prime flooring boards, and within this range about 450,000 feet have sold on the spot, and 500,000 feet to arrive. The demand is active enough to exhaust about all the stock now offering, and sellers in consequence are enabled to sustain the market with comparative ease, particularly as the advices from the South are stiff. The supply in yard, however, is pretty liberal, and it would not require a very heavy accumulation to overstock our market, with ordinary schedules, though choice grades are scarce and wanted. Black walnut logs for shipment quiet owing to high freight room, but still firmly held at 7½c@7¾c. Pine shingles selling in small lots at \$4.50@\$5.00 per M. for No. 1 Eastern. Cypress shingles have met with a little inquiry from yard, at \$16.00@\$20.00 per M, according to size.

The exports of lumber have been as follows:

We also notice shipments of 12 pieces oak, valued at \$175, to Oporto; 10,500 staves to Liverpool; 5,400 do. to London; 4,000 do. to Bristol; 2,400 do. to Glasgow; 4,630 to Bremen; 26,460 to Rotterdam; 19,080 to Gibraltar; 4,500 to British Guiana; 2,400 to French West Indies; 68,040 to Cete; 35,000 to Malaga; 6,000 to Vigo; 20,000 to Oporto; and 2,250 to Chili. The receipts reported are as follows: From Jacksonville, 52,000 feet lumber; from Savannah, 204,884 feet do.; from Brunswick, Ga., 140,000 feet do.; and from St. Mary's, Ga., 20,000 shingles.

The little information received from the West indicates a good healthy state of trade, and full prices on all grades. The demand has of late run largely on common lumber, and stocks are decreasing. A noticeable feature was the appearance of a few Eastern buyers, who were on the lookout for desirable assortments, in order to make their shipments as soon as the resumption of lake and canal navigation would permit. Nothing from the camps of interest.

Through the Canadian districts snow has fallen very plentiful of late, and, instead of a scarcity, lumbermen now find the depth rather too great to enable them to work to advantage. The Eastern markets, as a rule, are firm, and at some points, Portland in particular, there is more activity on coastwise account. Supplies hold out pretty well, but dealers hope to work off every thing of consequence before sawing commences.

From the South we hear of a continued good business at all points, and previous prices still insisted upon and obtained. Northern orders were not remarkably large, but with such as did come in, and the wants of the foreign trade, millers were using the supply of logs about as fast as received.

Savannah prices are as follows:

Timber \$8@\$12 per M. feet for mill timber, \$10@\$15 for small shipping do., and \$14@\$20 for large do. Lumber \$20@\$22 for ordinary sizes; \$25@\$30 for difficult sizes, and \$22@\$28 for flooring.

Mobile rates are as follows:

" 1½x2. 15 to 17 "

Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per M.

Timber.—17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 13 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

METALS.—Copper sheathing is still quoted at 38c. @ 85c.

for new, and 22c. @ 28c. for old, but there is not much activity, owing to the unsettled condition of the market for ingot. Manufacturers are producing fair amount, and at the moment the supply rather exceeds the demand.

Yellow metal quiet but steady at 27c. Scotch pig iron continues in moderate request, buyers taking only such lots as may be necessary to carry them along from day to day. The receipts and accumulated stock, however, are small, and former rates are maintained without much difficulty. We quote at \$40@\$42 per ton. American pig iron, immediately following our last, suddenly became quite active, and large amounts changed hands on spot and for future delivery at advancing rates. The demand, however, was mainly speculative, and regular dealers and consumers, not being drawn into free operations by the apparent excitement, the market has since quieted down materially, though the improved rates are still insisted upon, some manufacturers refusing to entertain bids except at outside figures. We quote at \$40@\$42 for No. 1, \$38@\$40 for No. 2, and \$36@\$37 for forge. Bar iron from store remains very dull, and prices nominally as before, though some dealers assert it a difficult matter to realize more than cost out of their goods, particularly foreign grades. We quote at \$55.00@\$57.50 per ton for common American and English bar; \$90.00@\$92.00 for refined do.; \$145.00 do. for Swedes, ordinary sizes; \$122.50@\$150.00 do. for ovals and half round; \$125.00@\$160.00 for scrolls and \$100.00@\$160.00 for rods ¾@16 inch. Common sheet iron is selling rather slowly and mostly in odd retail lots, as required by consumers. Prices unchanged but only rarely supported. We quote at 5½@7c. for shingles, doubles, and trebles. For Russia sheet there has been less demand, though the business is still very fair and prices are steady, with no pressure from holders, to realize we quote at 11½@13½@13c. gold according to number. Pig lead cannot be called active, but there is a good steady trade doing and the market has a stiff tone, closing at \$6.30@\$6.87½c. gold. Bar lead 10%, and pipe and sheet 12c. less 6 per cent. to the trade. Pig tin remains comparatively quiet, the high rates current checking the consumption, and no further inducements offering for speculation. A few modifications have been made in prices, but as a rule the disposition is to hold pretty stiffly. We quote in coin at 29½@30c. for English; 31@31½c. for Strait and 32c. for Banca. Tin plates in moderate demand and prices unchanged. Zinc is steady at 12½@13c. from store and in very good general demand. The latest importations are 51 tons hoop iron; 90 tons pig iron; 3,772 R. R. bars; 114 tons sheet iron; 1,447 iron tubes; 9,990 pigs of lead; 19,704 boxes tin; 11,202 lbs. do.

NAILS.—The demand for cut nails was pretty active early in the week, but latterly the market has become dull. For wholesale parcels some agents have reduced prices a trifle, while others ask former rates, and the close is rather unsettled at 5½@5½c. with retail lots still higher. Clinch are somewhat neglected and easy at 6½@6½c. according to quantity. Finishing nails unsettled at 5½@5½c. for 6d., 8d., 10d., and 12d.; 5½@5½c. for 6d. and 5½@5½c. for 4d. Other kinds steady at 15c. for zinc; 2½c. for yellow metal; and 4c. for copper. The exports are 1,186 packages, valued at \$7,025; against 64 packages, valued at \$521, same time last week.

PAINTS AND OILS.—The market for all kinds of paints, both wholesale and retail, has relapsed into a very

quiet condition, and the orders now coming in are only for small lots of goods for special purposes. The recent little spurt appears to have supplied the wants of both jobbers and shippers for the time being, and all are rather disposed to hold off for more favorable terms before laying in their spring stock. Glues dull and nominally unchanged. Linseed oil has been rather dull throughout the greater portion of the week, and buyers have in consequence been enabled to obtain rather easier terms, the continued absence of a stimulating speculative inquiry being also in their favor. Crushers, however, are in most cases unwilling to accept of any concession, and refuse to entertain a bid unless at extreme figures. The production is fair. We quote \$1@\$1.03 in casks, and \$1.04@\$1.05 in bbls., with sales for April at \$1.06. The exports are 54 pkgs. paint, valued at \$927, and 35 bbls. oxide zinc, valued at \$340.

PITCH.—The demand from all quarters has been moderate since our last, and a quite tone prevailed throughout the market. The supply, however, has been proportionately small, and dealers evince no inclination to reduce their views, particularly as few if any find it necessary to realize. We quote at \$2.75@\$3 per bbl for Southern, \$3@\$3.12½c. for city, and \$3.25 for jobbing parcels. We hear of no receipts or exports for the week. Since January 1st the exports are 584 bbls., and for same period last year, 638 bbls.

SPIRITS TURPENTINE.—The supply has not been unusually large, but has materially exceeded the continued moderate demand, and we note a further reduction in values of 1½c. per gallon on all grades. One or two very small positive export orders have been filled, but the business is mainly confined to the local and interior trade, buying to meet present requirements. The amount of stock on sale is very fair, but owners are not crowding the market, and at the close the feeling appears a little more steady. We quote at 55c. @ 55½c. for merchantable and shipping order, 56c. @ 56½c. for New York bbls., and 57c. in small parcels. Receipts for the week, 1,103 bbls. Exports for week, 12 bbls.; since January 1st, 2,771 bbls.

TAR.—The market continued quite active for a few days following our last report, and a large proportion of the desirable parcels were bought up, the arrivals in the meantime showing a gradual falling off. Latterly buyers have partially withdrawn, but holders are very indifferent operators, and having somewhat advanced values, they insist upon the full figures of the improvement in order to induce them to operate. The sales have been almost entirely on domestic account. We quote at \$8@\$8.50 per bbl. for North County; \$3.62½@4½ for Wilmington, as it runs; and \$4.12½@4½ for selected lots delivered. Exports for week, 12 bbls.; since January 1st, 411 bbls.; and for same period last year, 1,428 bbls. Receipts for week, 610 bbls.

TAXES AND ASSESSMENTS, No. 82 Chambers
street, New York, January 4, 1869. NOTICE TO
TAXPAYERS.—Notice is hereby given that the assessment**

rolls of the real and personal estate of the City and County of New York for the year 1869 will be open for inspection and revision on and after Monday, January 11, 1869, and will remain open till the 30th day of April, 1869, for the correction of errors and the equalization of the assessments of the aforesaid real and personal estate of the City and County of New York. All persons

believing themselves to be aggrieved must make application to the commissioners during the period above mentioned, in order to obtain the relief provided by law. The act of 1859 provides "during the time the books shall be open to public inspection, as hereinbefore provided, application may be made by any person considering himself aggrieved by the assessed valuation of his real or personal estate, to have the same corrected. If such application be made in relation to the assessed valuation of real estate it must be made in writing, stating the ground of objection thereto, and thereupon the Commissioners shall examine into the complaint, and if in their judgment, the assessment is erroneous, they shall cause the same to be corrected." If such application be made in relation to the assessed valuation of personal estate, the applicant shall be examined under oath by the said Commissioners, who shall be authorized to administer such oaths, or any of them; and if, in his or their judgment, the assessment is erroneous, they shall cause the same to be corrected, and fix the amount of such assessment as they may believe to be just, and declare their decision thereon within thirty days after such application shall have been made to them. No reduction shall be made by the Board of Supervisors of any assessment on real or personal estate imposed under this act, unless it shall appear, under oath or affirmation, that the party aggrieved was unable to attend within the period prescribed for the correction of taxes, by reason of sickness or absence from the city."

MONDAY, March 1,
At 12 o'clock, at Exchange Salesroom, No. 111 Broadway, New York.

GREAT SALE OF 250 LOTS ON THE DURYEA FARM, EAST NEW YORK.

THIS DESIRABLE PROPERTY HAS BEEN IN POSSESSION OF ONE FAMILY NEARLY 100 YEARS, AND IS NOW FOR THE FIRST

TIME TO BE OFFERED AT PUBLIC SALE. EVERY LOT WILL POSITIVELY BE SOLD, REGARDLESS OF PRICE, TO THE HIGHEST BIDDER. THE TITLE IS UNEXCEPTIONABLE. PRINTED ABSTRACTS WILL BE FURNISHED TO ALL PURCHASERS WITHOUT CHARGE, THEREBY SAVING EXPENSES OF SEARCHING. THE TERMS WILL BE EASY.

The location of the property is in every way desirable. It is situated in the most densely settled and thriving portion of EAST NEW YORK, on BROADWAY, BAY and UNION AVENUES, WASHINGTON, JOHN and BARBEY STREETS, within a few minutes walk of the great focal point of five different railroads, and in the immediate vicinity of churches and schools. As the sale will be positive, location and convenience considered, the opportunity will be one of the most favorable of the season for men of moderate means to invest.

Maps will be ready at the offices of the auctioneers, on Saturday, February 20.

WEDNESDAY, MARCH 3,

At 12 o'clock.

At the Exchange Salesroom, 111 Broadway
(By order of Messrs. A. C. Kingsland & Sons),
GREAT AND IMPORTANT SALE OF 245 VALUABLE LOTS,

SITUATE IN THE SEVENTEENTH WARD OF BROOKLYN.

BEING A PART OF THE KINGSLAND PROPERTY. This valuable property has never before been in the market. The title is indisputable. Printed abstracts will be furnished to all purchasers, without charge.

It will be sold on easy terms: 70 per cent. of the purchase money may remain on mortgage for five years, and paid off sooner if desired.

This sale will afford an excellent opportunity for men of moderate means to secure homes in a locality that will soon be one of the most desirable in Brooklyn. The property is very accessible; 40 of the lots front on MEEKER AVENUE, through which the horse cars are constantly running. The balance of the property is in the immediate vicinity of the above, on APOLLO, VARICK, VANDAM, NASSAU, BRIDGEWATER, MOORE, and LAKE STREETS, ALL WITHIN A SHORT DISTANCE OF SEVERAL FERRIES.

THE VALUABLE WHARF PROPERTY WILL BE INCLUDED IN THE SALE, TO THIS THE ATTENTION OF CAPITALISTS AND MANUFACTURERS IS PARTICULARLY DIRECTED. The dock has a front of 423 ft. on Newtown Creek, which is navigable for large sized vessels, thereby rendering it, with the 62 lots immediately adjacent, the most desirable and convenient situation for large manufacturing business in the vicinity of New York.

Maps on Wednesday, February 24, at 25 Nassau Street,
