PUBLISHED WEEKLY BY C. W. SWEET & CO., ROOM B, WORLD BUILDING, No. 37 PARK ROW. TERMS.

Six months, payable in advance \$3 00 One year in advance 5 50

A HINT TO CAPITALISTS.

WE want steam roads to utilize all the land on this island for business and residence purposes, but, as these will take years to build, why do not our large capitalists make the most of the land below Fifty-ninth street? It is well known that there is surface enough to house three million people comfortably-nay sumptuously-on that part of the island which Hes below the lower end of the Central Park. Not only so, but at the same time accommodation could be afforded for ten times the amount of wholesale and retail business now transacted. The land is not utilized. Look at the Eighth and Ninth Wards, most of which is within a gunshot of the costliest property on the island, yet which is to-day cumbered with wretched two-story tenements, unfit for decent human beings to live in, and now wholly useless for purposes of commerce. If it were possible for a huge corporation to buy up those two wards just as they stand, and improve them as they could be improved, the money invested would increase tenfold in ten years. As it is not possible, with our property laws, to buy up whole wards, the next best thing would be to get sections of wards or streets. What a splendid speculation it would be, for instance, for some company to buy the whole length of Hudson and Varick Streets, with the streets running between. This section could be made some of the choicest property in the city.

OUR MORTGAGES.

On the 1st of October we will recommence, for New York city, the publication of the mortgages simultaneously with the transfers, thereby enabling our readers at a glance to see the whole history of any real estate recorded transaction. We will endeavor, at an early day, to print in pamphlet form and present to our subscribers those mortgages which we at present leave out. In the mean time, should any of our patrons desire any information about any particular mortgage connected with any recorded transfer which has appeared in our columns, we will furnish it to them gratis. We have but one improvement, which we can think of, that it will be possible to make in the conveyances 25r New York city, and that we will have short-We hope soon to have, also, the Kings

23 we hope soon to have, also, the Kings 23 unty transfers as complete as New York. We 29 st our real estate friends will appreciate the 25 orts we are making in their behalf, as we

intend making their organ the very best of its kind in the world. We should be glad at any time to have any little errata noticed, as that will be for the benefit of all.

DESPOTIC governments are generally bad governments, but when one hears of the marvels Napoleon has accomplished in Paris, in the way of street improvements, it makes us wish that he, or some one like him, could be made Emperor of New York for about ten years. What a superb city we could have if re-planned and re-built aright! In view of the imperial destiny of the metropolis, is it not a shame that its buildings and streets should be left to chance?

THE astonishing demand for houses in this city and vicinity still continues. We are assured by competent real estate agents that if one thousand good houses could be built within the coming month they could all be rented in ten days' time after being made habitable. New York, great as she is, is, after all, a baby compared with what she will be.

THE eight-hours strike among the bricklayers is substantially over. The masters have fought a good fight, and have won. Would not this be a good time for the master masons to take in hand the absurd apprentice regulations of the Bricklayers' Union? They are utterly indefensible. Even the so-called Labor Congress which met in this city recently did not pretend to endorse anything so monstrously unjust as those apprentice laws. Let the master masons settle this matter now. The men are cowed and beaten, and cannot afford any effectual opposition.

PERSONAL SKETCHES.

REAL ESTATE BROKERS AND AUCTIONEERS.

NO. III.—A. D. MELLICK, JR. (A. D. MELLICK, JR., & BROS.)

ALMOST simultaneously with the development of Brooklyn property by the Messrs. Johnson and Miller, an unprecedented activity took place in real estate in New Jersey, owing in no small measure to the enterprise of the very young though promising firm of A. D. Mellick, Jr., & Bros., who have only been in the business of real estate brokers and auctioneers for about three years. In that time they have been instrumental in adding very much to the growth of those beautifully located towns in New Jersey, that give the visitor so pleasing a sense of quiet domestic beauty, with its beautiful streams and greatly undulating country. It is astonishing that this beautiful State should have been so long neglected, when so many distinguished foreigners have made it their homes during exile. At Morristown Joseph Bonaparte, ex-King of Spain, spent many years, and General Moreau, the hero of Hohenlinden, made the beautiful peninsula of Bergen Point his home; and on the spot where the Latourette House now stands there was formerly a French chateau, owned by a refugee family from Martinique, in which he resided. A few years since, New Yorkers had little or no knowledge of the natural advantages of New Jersey as a place of residence. On questioning, one would have learned that their whole idea of the State had been gained by what they saw in going from New York to Philadelphia. and what they saw attractive was all lost in what they remembered of those mosquito haunts, the salt meadows. In those days, if a New Yorker decided to move to the country, his first thoughts were of the Hudson, Westchester county, and Connecticut, and had New Jersey been proposed, he would have ridiculed the idea. Within the last few years a great reaction of feeling in this respect has taken place. Gothamites have learned that this State, owing to its vicinity to the business portion of the city, presents very great advantages as a place of residence for business men, and that in beauty of scenery, soil, water, climate, and other advantages that one seeks for in a homestead, it has very few superiors, and certainly no equal in her railroad accommodation. The Messrs. Mellick, at considerable outlay, placed all these advantages before the public by issuing elaborately gotten up pamphlets containing maps and descriptions of property on the line of the Central Railroad, the distance from this city, and the rates of commutation. They have in connection with their real estate business a publication office, from which they issue their books, maps, pamphlets, time tables, &c., &c. If an enormous amount of advertising can make one's name a household word, surely that of Mellick ought to be known through the length and breadth of New Jersey. for on every available point they have placed placards. Having been early in the field, and prosecuting the task with vigor and industry, they must meet with greatly deserved success. for in the important items of the cost of land and the taxes thereon, the inducements to settlers are immeasurably greater than other suburbs of New York city can offer. Within the past few years many millions of dollars have been spent in the sister State by our citizens in the building up of what they considered out-of-the-way places, business men preferring to reside where they can have all the advantages of rapid and frequent communication, low taxes, a healthy country, and good society, rather than the high prices and taxes for land in Westchester and up the Hudson, to say nothing of the tedious journey up and down

the length of Manhattan Island, particularly During the past two years this firm have given to auctioneers many thousands of dollars as auction fees to the large establishments in Pine Street; but, finding this method was not satisfactory, they have determined this year to do their own auction business, and on Thursday made their first large sale of property, belonging to the Middlesex Land Company, at Perth Amboy, and sold under the hammer 1,200 building lots with as much success as if they had been veteran auctioneers of large experience. A sagacious writer has observed that a youth, though young in years, may be old in hours, if he has used his time well. So with this firm, the senior partner of which is only twenty-three years of age; having been thrown from early boyhood into real estate transactions, and using his time well, he has acquired a profound knowledge of a business which may almost be raised to the status of a profession, as it requires considerable study, a liberal education, and gentlemanly manners, especially in dealing with "be-reaved and wealthy widows," or maiden ladies of fastidious tastes. As we have before stated, they have materially contributed in bringing before the public a great number of improve-ments in localities which have grown under their care to be large settlements. others that may be mentioned are Cherry Hill, in Bergen county, and the suburbs of Hackensack, where a cluster of beautiful residences has been formed on an elevation overlooking all the surrounding country. They have sold a large amount of property on Bergen Neck, between Bergen Point and New York, and also on the line of the New Newark Road. Roselle, Crawford, Scotch Plains, Plainfield, and other points have felt the influence of their activity, for at each of these places they have made the largest and most important sales that have been as yet effected. They saw an opening in this field, for at the time they commenced business it was comparatively but little known, or rather but slightly represented by New York brokers; but for the past three years they have been working assiduously to place the advantages of New Jersey prominently before the public, and it is fair to state they have done more to induce settlement in New Jersey than any other two men in the State. A very humorous correspondence, in the way of polemical advertising, was started last winter between this firm and the Messrs. Johnson & Miller, respecting the merits of Brooklyn and New Jersey, as places of residence. This was carried on for places of residence. This was carried on for some time, and no doubt did a considerable amount of good in attracting public attention to the subject. Without making any invidious comparisons, New Jersey is certainly to-day one of the most economical States to reside in one of the most economical states to reside in, while, at the same time, in the perfection of the railway system, the prompt administration of the law, which so admirably preserves her high social condition, she is somewhat alread of this city, and in her educational system fully equal. It is because of these great ad-It is because of these great advantages that we find in every direction in New Jersey, within an hour's ride of the city, New Yorkers of means and taste building at tractive and costly residences, thus showing that wealthy men make New Jersey their home from choice, as well as the great middling class, who leave New York for economical rea-Our people must certainly find permanent homes somewhere else than on Manhattan Island, every foot of which will be required before many years for business purposes.

PROJECTED BUILDINGS.

The following plans and specifications were sent to the Office for the Survey and Inspection of Public Buildings, since Sept. 24th.

40TH ST.—One first-class dwelling, s. s., 165.6 ft. w. of Fifth av.; owner, Mrs. Edward Bayard; architect. Russel Sturgis, Jr.; plan No. 719, submitted Sept. 24; cost, \$33,000; lot, 20.6x98.9; building, 19.6x70; height, 62 ft.; four stories; Philadelphia brick; freestone trimmings; slate on Mansard roof, tin on flat;

occupied as dwelling and physician's office; Warner's steam furnace.

29TH ST.—Paper hanging manufactory, s. s., 29TH ST.—Paper hanging manufactory, s. s., 101 ft. w. of 7th av.; owner, Frederick Beck; architects, D. & J. Jardine; plan No. 720, submitted Sept. 24; cost, \$55,000; lot, 50x 123; building, 50x117; height 73 ft.; basement and six stories; hard brick front; flat roof; felt, cement, and gravel; brick cornices.

51sr sr.—One first-class house, s. s., 643 ft. w. of Fifth av.; owner, Asher Rosenblatt; architect, Wm. T. Beer; plan No. 721, submitted Sept. 24; cost, \$22,000; lot, 22x100.5; building, 22x52; height, 53 ft.; four stories, basement, and sub-cellar; front brown stone ashler, 5 and 6 in, thick; flat tin roof; galvanized iron; hot air farmers ized iron; hot air furnace.

60TH ST.—One 1st class dwelling, s. s., 115 ft. w. of 2d av; owner, Wm. H. Belden; architect, John Sexton; plan No. 722, submitted Sept. 24; cost, \$20,000; lot, 20x100.5; building, 20x55; height, 55 ft.; four stories; brown stone front; flat tin roof; galvanized iron cornices; hot air furnace.

nices; hot air furnace.

EAST 15TH ST.—One workshop, No. 21 (rear); owner, Isaac Hermann; architect, August Meyers; plan No. 723, submitted Sept. 24; cost, \$1,000; lot, 30x100; building, 12x40.6; height, 12.6 ft.; one story; brick; shed roof.

EAST 15TH ST.—One building for stores and offices, No. 19; cost \$7,000; lot, 27.7x34.1; building, 24.7x34.1; height, 44 feet; three stories; brick front; flat tin roof; 1st stepy occupied as store, 2d and 3d as offices; plan No. 724; submitted Sept. 24; owner, J. Herman; architect, August Meyers. man; architect, August Meyers.

EAST 15TH ST.—One building for stores and offices, No. 23; owner, Mrs. H. Migill; architect, August Meyers; plan No. 725, submitted Sept. 24; cost, \$8,000; lot, 27.10 x 51.2; building, 24.10x45; height, 44 feet; three stories; brick front; flat tin roof; galvanized iron comices; 1st story to be occupied as a store, the 2d and 3d as offices.

118TH ST.—One first-class dwelling, 100 w. of 1st av; owner, George Lane; architect, Louis Burger; plan No. 726; lot, 21x10); building, 21x36; height, 35 ft.; two stories, basement and sub-cellar; flat tin roof; wood

STH AV.—A feed store. n. e. c., and 141st st., (rear); owner, F. Schroder; architect, Henry Smith; plan No. 727, submitted Sept. 25; cost, \$500; lot, 25x100; building, 18x25; height, 20 feet; two stories; wood front; flat tin roof.

2D AV.—Tenement, s. w. c., and 80th st. owner, John D. Heins; architect, Henry Olsan; plan No. 728, submitted Sept. 26; cost, \$12,000; lot, 25.6½x100.8; building, 25.6½x50; height, 45 feet; four stories; front brick; flat tin roof.

Mangin st. - Manufactory, No. 89; owner, Andrew Christian; architect, Geo. Nassur; plan No. 729, submitted Sept. 26; cost, \$25,000; lot, 20x100; building, 20x40; height, 30 feet; three stories; North River brick, with blue stone lintel; flat Warren felt and gravel roof.

PEARL ST.—Tenant house, No. 470; owner, Wm. H. Kennedy; architect, Edmund Waring; plan No. 730, submitted Sept. 26; cost, \$13,800; lot, 25x108; building, 25x52; extension, 53x25; height, 45 ft.; four stories for main building; extension, one story; front, iron and Philadelphia brick; flat tin roof, galvanized iron cornices; store on first floor, two families on each of the two upper floors, and one on second.

116TH ST.—Two buildings as one dwellings, n.s., 300 ft. w. of 2d av.; owner, Christophyr Keyes; architect, Mr. Devoe; plan No. 73, submitted Sept. 29; cost, \$14,000; lot, 20x-100; building, 20x45; height, 45 ft.; three stories and basement; flat tin roof; hot air furnace.

BEEKMAN ST.—Store No. 77; owner, Hayden; architect, John Kellum; plan No. 732, submitted Sept. 30; cost, \$36,000; lot, 125x25.9; building, 113x25.9; height, 70.9; five stories, basement and cellar; marlle front of 4 ashler; flat tin roof, galvanized iron coin cas.

REAL ESTATE MARKET.

THE following are the principal events of the week having a bearing on the prices, value, or improvement of real estate:

In the Board of Aldermen a resolution directing the Street Commissioner to compel the removal of the obstructions placed by the Elevated Railway Company on Cortlandt and Greenwich

streets, was adopted.

In the Board of Councilmen ordinances were adopted for the paving of several streets with Belgian pavement. A resolution increasing

Belgian pavement. A resolution increasing the salaries of the clerks and officers of the two Boards—the chief clerk's to \$7,000, and others in proportion—was adopted unanimously with-

out debate.

The immigration of foreigners into this country, while not decreasing in volume, has assumed some new features during the past year. Foremost is the fact that the Irish no longer bear the same overwhelming proportion to all other emigrants arriving on our shores that they did in former years. The Irish emigrants in 1867 were 65,134, Germans 117,591, English 33,712, and of other nations 26,294, making 242,731 in all. But a small proportion return, and of those the majority no doubt have earned a little competence during several years of work in America.

THE Mechanics' and Tradesmen's Permanent Benefit Building Association held their first meeting at their offices, No. 39 Nassau street, No. 39 Nassau street, No. 39 Nassau street, New York City, on the 17th inst., and elected the following officers as a Board of Management: John T. Fisher, President; Nelson I. Gates, Vice-President; William Miles, Treasurer; Henny P. Cooper (President Sixpenny Savings Bank), Secretary; William H. Duryea, Attorney, and six trustees. The object of the Association is to make tenants their own landlords by co-operation, to give permanent employment to its own member mechanics, and embraces the principles of a savings bank and life insurance.

The Jews are said to be the chief patrons of musical enterprises in this city. Pike, the proprietor of the opera house, is an Israelite. They are growing to be of wonderful importance in this city. The congregation of the new Fifth Avenue Synagogue bought seats in that temple to the amount of \$750,000 (this beats Plymouth Church), and it is said has property which will be eventually worth more than

that held by Trinity.

THE notable event of the coming winter season will be the opening of the New Empire Skating Rink, which is now being rapidly com-It has been erected on a vacant lot which its projectors have leased for a term of ars), fronting on Third avenue, and lying between Sixty-third and Sixty-fourth streets. The building, when finished, will be of enormous dimensions, affording nearly 60,000 square feet of skating surface. The roof being in the form of a huge arch, 50 feet high, and having clear span of 170 feet, permits the absence of Illars and other supports, which otherwise would obstruct the area for skating. terior measurements of the building are as follows: 350 feet in length, 170 feet in width, and 70 feet in height. The interior of the and 70 feet in height. rink (proper) will be handsomely decorated, and will be lighted at night by over seven hundred gas jets pendent from the roof alone. The novel feature of the Empire rink will consist in the use of ground glass in the windows. which it is supposed will delay the melting of the ice by obstructing the passage of the rays of sunlight. In the front of the building ample provision will be made for such promoters of comfort as dressing, reception, and waiting rooms, with a restaurant, cigar stand, bar, &c., attached - all heated by steam. The building has been erected by a Joint Stock Company, having \$75,000 cash capital, and the management of the rink for the approaching season has been wisely committed to the well known skatists, Messrs. McMillan and Post.

THE Park National Bank, on Broadway, near Fulton street, is rapidly approaching completion. The main office of the Bank is now beng fitted up, and bids fair to be the most beautiful room devoted to that business in the city. The counter whereon the merchant princes of New York are expected to place their deposits, or from which they will receive the munitions for mercantile war in the shape of greenbacks, is composed of three kinds of marble. On the top is a highly polished black marble, the quarries of Vermont furnish the side pieces, while as an ornament the mottled, brown marble of Tennessee is liberally used. The sides of the room are also ornamented in the same manner, while the cornices and ceilings are elaborately gilded, the latter being adorned at each corner by medallion likenesss of historical characters. This room, together of historical characters. This room, together with some others in the building, will be ready for occupancy on the 1st of November, on which date the Bank will be moved from its present location in Beekman street. The first office on the left has already been rented to the National Life Insurance Company, of which Messrs. Jay Cooke & Co. are the general agents, and the whole of the second story front, comprising several large rooms, has been engaged by the Craftmen's Life Assurance Company. Messrs. Greenbaum, Chicago bankers, have also engaged an office. These offices are to be ready, we are assured by Messrs. Thomas & Sons, architects of the building, on the 1st of November, and the balance of the building on

or before the 1st of December.

THE Roselle Land Improvement Co. are developing this beautiful region, by throwing a quantity of eligible building sites on the market. Roselle is only 40 minutes distant from New York, on the Central Railroad of New Jersey, which is one of the best managed roads in the country, and has frequent communication with the city. It is 75 feet higher than Elizabeth, from which it is only two miles distant, and is one of the most thriving and rapidly increasing suburban towns. There are two churches, Episcopal and Presbyterian, and a large hotel or suburban resort, with fine stores on the first story, now in course of construction, and to be finished this fall.

GROWTH OF CHICAGO.

Building still goes on wonderfully in Chicago, though it is not so much for speculative purposes as in the spring. There are many houses of the more costly kind to rent, while men of moderate means are more generally erecting homes for themselves. The highest rent paid for a residence here, I think, is ten thousand dollars—the amount which one of our insurance men feels able to afford for a splendid brick mansion on Wabash avenue near the heart of the city, with spacious grounds and the luxuries of a conservatory, fountains, &c. Three thousand dollars is considered a high rent, however, and very few persons pay more. The great demand is for dwellings that are worth from six to ten hundred dollars a year —the figures which are supposed to indicate "decent circumstances." First class business houses readily bring large prices. The ten-dency of this city to extend southward is astonishing. Nintey-second street, some six miles south of the limits, has been duly christened, and speculators are planning suburbs, to which all desirable adjectives are to apply even farther beyond. It is said that a company of New York capitalists have purchased very large tracts in the region known as Calumet, still below (though I think not beyond the Illinois State line), with an eye to a magnificent future.

GOSSIP.—CITY.

A very peculiar city feature is the nest of shanties perched upon some high, smooth boulders in Forty-third street, close by Third avenue. A raid upon those dwellings would be a service of much difficulty were the inabitants to pull up the ladder or step by which access is had to the place... A very serious obstruction to the sidewalks in Mercer and some other streets is that caused by the delivery of planks at the plane factories. Surely some regulation might be made for having such work done during the least crowded hours of the day... The exterior of the College of New York, late the Free Academy, sadly needs repairs. The walls are patchy and mildewed, and

would be all the better for an application of plaster and paint: . Comptroller Connolly has been directed to issue market stock" to the amount of \$40,000; the amount when raised to be applied to the completion of the Eightcenth Ward Market Workmen are now engaged in putting the roof on Booth's new theatre, in Sixth avenue. ... The Prospect Park Commissioners announce that the extension of the east drive of the Park and the new roadway along the line of Franklin avenue, between the Park and the Parade Ground, connecting with the Coney Island road, are now opened to the public Some of the fine old button-wood trees in Fourth street, near Van Nest place, are falling to the axe of the destroyer....Subscriptions have been opened in Brooklyn, by residents on the "Hill," for the purchase of a plat of ground corner of Cumberland street and Greene avenue, where they propose to erect a large building for public purposes, to be known as Music Hall. Subscriptions amounting to \$20,000 have thus far been raised An ingenious engineer has published a plan for an elevated Broadway railroad, which has novelty, at least, for one of its merits. He proposes to suspend the trackway by means of suspension chains, depending from towers placed at proper intervals, on the same principle as that used in the construction of suspension bridges. He claims that this road can be built cheaper than any other....The pitch composition roadway has been much extended in Central Park. It is laid down chiefly upon slopes, where ordinary road material is always liable to be washed away by heavy rains, a contingency to which the composition referred to is not subject. ... The people down town, and especially below John street, complain bitterly of the meagre supply of gas they receive between the hours of four and seven P.M. Since the gasometer on New street, between Exchange place and Beaver street, has been abandoned by the company, there is not gas enough in hardly any office or establishment. Particularly in Maiden Lane, where the jewellers use gas for fuel, the complaints are severe, for at four P.M. they have to stop work....Judge Gilbert, of the Supreme Court, rendered a decision in the case of the people of Gravesend against the Quarantine Commissioners, denying the motion to continue the injunction restraining the Commissioners from occupying the west end of Coney Island for Quarantine purposes.... A large and valuable tract of property, over twenty acres in extent, called the Quarantine Grounds, given by a church in Richmond, Staten Island, some years ago to the State government on condition of its being returned when its use was no longer required, is one of the leading topics of private and public conversation in the society of Staten Island. It is asked everywhere on that insular continent, "Who has bought that property worth one million dollars?" Some answer, "A circle of Quarantine officials whose earnings are ample enough to embrace so vast a purchase."....The interest of the late Commodore Stevens in the Sca Shore Railroad, has peen purchased by the Hon. Nehemiah Perry and two other gentlemen, giving Mr. Perry a controlling interest. Arrangements have been made to extend the Sandy Hook terminus to the Horseshoe, and the Long Branch end to the Stetson House, materially reducing the time to the Branch....The new German Hospital building, situated in Seventy-seventh street at Fourth avenue, has just been completed and will pass into the hands of the Board of Direction to-day, when a formal inspection of the building will take place. Thus far \$160,000 has been spent, and \$80,000 more is needed to fit the building for use. The structure is very ornamental. The Northeast Sængerbund will soon give a grand concert in aid of the building fund... Much fuel is furnished to poor people by the debris of the numerous old houses that are continually being pulled down in many quarters of the city. From the ruins of these a large amount of dry wood is collected by small children....Business does not appear to be very lively at the sale stables in Twenty-fourth street. The portion of that street devoted to the horse business, by the by, is very filthy and badly kept, and might as well be a cul de sac for any chance of vehicles getting through it, so obstructed is it by wagons and buggles lying around loose. DOMESTIC.

A Boston architect has just completed a set of drawings for a new hotel at Jacksonville, Fla. It is to be built by northern capitalists, and a number of Boston mechanics have recently gone there to superintend the work.... There is a scarcity of houses in Troy, N. Y. The demand far exceeds the supply, and prices are enormous....The land damages already awarded on account of the new Capitol building at Albany, amounts to \$495.000! There is a very large financial elephant in that new Capitol....A tunnel on the Marietta and Cincinnati Raiiroad, which has been on fire for several days, caved in on Sunday, burying two men....John B. Gough offers to sell out his worldly

goods for \$75,000. His farm is worth \$52,000, and his library \$12,000 One hundred new boarding-houses are to be built before next season at Swampscott... The Central Railroad Company at Syracuse expect to finish the new depot building in about three months.... The streets of Hudson City are a disgrace to any civilized community. There is not a decent highway in the place, and even the flagways are in a most filthy and mutilated state. If, as somebody has said, the condition of the streets and churches of a locality can be taken as an idea of the civilization of the people resident therein, then we can only say that our neighbors on Bergen Hill are a most unchristian clan, and not far removed from savagery... San Francisco is to have a new \$300,000 theatre, to be inaugurated with the Pacific Railroad ball on Christmas eve.... More than 500 buildings are now being crected in New Haven. New houses are going up in every part of the city, and especially in the southern and western sections....The total valuation of real and personal property in the city of Fond du Lac is \$3,973,377.... Syracuse has built a skating rink, seating 5,000, at a cost of \$35,000.... Twenty-two miles of fence enclose a farm of 13,000 acres in Illinois, which is subdivided by 70 miles of hedge ... Baltimore is building seven thousand five hundred new houses Eight thousand buildings, to cost \$12,000,000, are in course of erection at Chicago A. T. Stewart has bought a \$200,000 "cottage" at Newport....In San Francisco there are six horse railroads, and their receipts from January to May were \$373.000....Last week one hundred and sixty-two transfers of real estate took place in Chicago. The amount of sales was \$473,000 Senator Abbott, of North Carolina, says that \$10,000,000 of Northern capital has been invested in that State since the war.... One of the leading real estate agents of Richmond has sold within the last twenty days property in Virginia worth \$120,000, principally to Northern men... We learn from the Saratogian that the United States Hotel at Saratoga Springs, destroyed by fire in 1865, is to be rebuilt immediately by a stock company at an expense of from \$\$00,000 to \$1,000,000. It will of course be erected on the old grounds, and will cover the four sides of the square extending from Broadway to the railroad. It will be of brick and stone, and the extreme length of the interior grand piazza will be fourteen hundred feet. There will also be a piazza on Broadway of 200 feet, and the building will be five stories in height.... A piece of property in Pittsfield was recently sold for \$5,000 that twelve years ago could have been bought for \$1,200, and 569 per cent. is pretty good interest.... A large number of buildings are in the process of erection at Mankato. The assessed value of real estate in Mankato for 1868 is \$568,507; of personal property, \$49,079. Total assessment in city and township, \$1,017,731—an increase of \$56,-879 over last year.

FOREIGN.

The inhabitants of Tuyahualco, District of Chalco, in Mexico, while quarrying recently came suddenly upon a mysterious town, sepulchred amid volcanic lava, within which were found the houses and corpses of its former denizens, perfectly mummified. The volcano that produced this disaster must have completely disappeared at the time, burying beneath its ashes and lava all the ancient towns and occupants of its environs, whose existence is not mentioned in history The French Government has decreed \$400,000 for improvements in the harbor of Cette, calculating on the increase of traffic that the opening of the Suez canal will cause to pass through that channel.... In Swedish Lapland some of the parishes are very large; that of Gallivare, for instance, contains 352 square miles, and many of the inhabitants live at such a distance from their church that they are obliged to start on the Thursday to attend Divine service on the Sunday. Thus the complete Liturgy is only celebrated once a month. The congregation is then always most numerous. On these occasions the affairs of the world are also brought under consideration, arrangements are made, purchases concluded, and in fact a species of fair is held.... Baron Haussmann's project of making a new cemetery at Méry-sur-Oise will, it is said, soon be realized, although violently opposed in many quarters.... In spite of the protest of the French, the Congress has pronounced in the most decided manner against small farming and against small proprietorships. A remarkable paper was read by a Brussels working man, which went to show that the small farmer's position "in modern society was as incompatible with the progress of production in agriculture as that of the little handicraft producer in industry." Machinery was declared to be as necessary in agriculture as in manufactures, and it could not be properly applied on a small scale.... For a single house in the Rue de Richelieu, Paris, about to be demolished for one of the new streets leading from the

Grand Opera, the jury has awarded the large sum of 2,600,000 francs, or £104,000. In 1816 the same house was sold for 20,000 francs. Among the indemnities accorded to tenants of this and adjacent houses a money-changer receives £1,400; a jeweller, £2,400; a milliner, £2,600; a dentist, £3,2001; an hotel-keeper, £18,000.

FIRE-ESCAPES.

The owners and agents of the following tenement houses have been ordered to put up fire-escapes, bulkheads, &c. 140, 142, 146, 150 (front and rear), 152 (front and rear), and 156 Sullivan st.; 38 McDougal st., rear; 191, 199, and 201 Prince st.; 411, 413, 415, 417, 419, 421, 423, 425, 433, and 503 East 16th st.; 418, 420, and 422 East 19th st.; 263 and 265 William st.; 35 and 37 Frankfort st., front and rear; 90 Ann st.; 114 Fulton st.; 30 Beekman st.; 212, 214, 216, 218, 237, 239, 241, 243, 245, 247, and 249 West 27th st.; 139 and 143 Orchard st.; S3 Rivington st.; 106, 108, 122, and 127 Ludlow st.; 102, 104, 106, 108, and 112 Delancey st.; 151, 167 (front and rear), 169 (front and rear), and 171 (rear) Second st.; 234 and 236 East 41st st.; 33 Downing st.; 26 Bedford st.; 13 York st.

BALES.

The attendance at the Exchange Sale Rooms for the past week has been unprecedentedly large for the season, and quite a number of our Hebrew and German citizens are desirous of possessing land. The following are the principal sales since our last publication:

Friday, Sept. 25th, By A. J. Bleeker, Son & Co.— Ten lots on the northeast corner of Seventh avenue and Forty-fifth street, each 20x100 feet, were purchased by George Emple for \$120 each. One two-story basement and sub-cellar frame house and lot on the west side of Tompkins av., 75 ft. north of Park av., house 18.9x34 ft., lot 18-9x100 ft., were bought by John Westfall for \$4,200 One two-story frame house and lot adjoining the above, same size, were sold to John Gercken for \$4,000. One two-story frame house adjoining, same size, was purchased by John Gercken for \$4,000.

Tuesday, Sept. 29th. By Messrs. Muller, Wilkins & Co .- Undivided fifth part of premises on the west side of the Bowerv, known as No. 344, was purchased by Charles Goodwin for \$1,800. Undivided one-tenth part of the premises on the southeast side of Pearl st., and known as No. 240, was sold to D. Anderson for \$490. Undivided onetenth part of the premises on Pearl st., and adjoining the above, was bought by M. A. Post for \$450. House and lot No. 303 Avenue A. 20.6x70, was sold for \$9,525. House and lot No. 321 First av., 23xS0, was bought for \$16,000. Fourstory brick store and dwelling and lot, situated on the northwest corner of Avenue A and Twentieth st., and known as No. 303 Avenue A, house 20.6x4S.6 feet, lot 20.6 feet, was purchased by Peter Gillespie for \$9,525. Four-story and basement Philadelphia brick front store and dwelling, and lot, on the west side of First av., 69 feet southerly from Nineteenth st., and known as No. 321, house 23x40, lot 23x80, was sold to B. Steans for \$16,000.

By Messrs. A. J. Bleeker, Son & Co.—Two-story attice and basement frame house, and one acre and a half of land in the town of Eastchester, Westchester Co., on the old post road, and bounded by the White Plains road, and by a small road connecting the two roads, was purchased for \$5,000.

By Messrs. A. II. Ludlow & Co.—Lot situated on the north-easterly side of Kingsbridge road, 87x160 ft., through to Adams av., was sold for \$510. Plot of ground on the east side of Main st., opposite Prospect av., with feed store and coal office, lot 60x180 ft., was purchased for \$6,000. Plot of ground on the west side of Main st., near Prospect av., 115x215 ft., with two dwellings, was bought for \$4,100. Plot of ground on Main st., opposite the above, 20x24 feet, with one and a half story house, sold for \$3,200.

liy Mr. Robert Somenville.—Two-story cottage-house and lot on Union Hill, northwest of Hoboken, N. J., on the Hackensack road, between Durham and Pennsylvania avs., house 18x30 feet, lot 25x100 feet, were purchased by Mr. Perkins for \$1,850.

By A. D. Mellick, Jr., & Bro.—Some 200 lots were disposed of by this firm at auction on Thursday, October 1, at Perth Amboy, New Jersey. The bidding was not very spirited, and the property went off very cheap. The land offered for sale lies near the centre of the city corporation, on the Raritan River, commanding a fine view of the New Jersey Highlands, South Amboy, and Staten Island. The land has been laid out in streets, blocks, and avenues, and was really of greater value than it brought. It was sold for the Middlesex Land Company. The terms of the sale were, ten per cent, payable on the day of sale, one-third of remainder on October 22, the rest to remain on bond and mortgage for three or five years. The prices brought averaged about \$115 per lot.

MARKET REVIEW.

BRICKS.—This market remains in pretty much the same condition noted by us during the past two or three weeks, though, if anything, the advantage is a trifle more in buyer's favor. About previous prices are asked, to be sure, and the general quotations cannot be changed, but parties willing to purchase, and bidding within 25%50c. per M. of the figures named by sellers, are in most cases accommodated, particularly if large parcels are wanted. For very choice parcels of North River hard, \$11.00 per M. is still occasionally obtained, but this is now an extreme value, most of the good merchantable cargoes ranging at \$10.00@ \$11.00, while a great many inferior, and badly rain-washed bricks are sold out freely at \$9.00@\$9.50 per M. Pale bricks are quoted at \$7.00@\$S.00 per M, with a demand about in proportion to other descriptions. The manufakturing yards are still working along steadily, but all being full to overflowing with stock, their proprietors find it necessary to ship the production as rapidly as it becomes fit for market. The receipts, therefore, at this point continue with out abatement at times reaching nearly 5,000,000 in twentyfour hours, and all our wholesale depots are liberally supplied, which, with a continued light demand from all quar ters, looks favorable for the interests of consumers. The recent rains, however, have given some receivers more confidence; as it is thought that the stock in course of man ufacture has been so much injured, good to prime qual ities will be temporarily scarce, and proportionately firmer. Front brick is in good steady demand, and with a supply fully equal to all wants; prices remain without in portant variation. The exports for the week are, 8,000 to Cuba, and 5,000 to New Granada.

CEMENT.—The demand for Rosendale is fully as good, if not better than last week, and in some cases agents refuse to accept further orders for the present. The sales are still largely to coastwise shippers, with an occasional lot taken for export, and our city jobbers have drawn rather more heavily within a few days. The majority ocompanies are very uniform at \$1.75 per bbl. by the cargo but small lots they are unwilling to handle except at rathe better terms. The production is unabated, and the supply will be ample for all calls. We notice exports of 200 bbls to British North American Colonies, 25 bbls. to British West Indies, 50 bbls. to Cuba, and 100 bbls. to New

DOORS, SASH, AND BLINDS.—There is no very positive change to note in the general position of affairs in this market. A good local trade is doing and rather increases, while orders continue to come in from the South, mostly of a character to warrant acceptance, and our manufacturers all appear to be doing a fair amount of business. Prices remain much the same as quoted in our table, though occasionally such deviations are made as the committances under which sales are made will warrant.

DRAIN AND SEWER PIPE.—The market has been fairly active, though scarcely so much was taken by local dealers as during the early portion of the month. For all the best manufactures of vitrified, prices remain firm, and our table of quotations is unchanged. The general supply is fair, though some of the smaller sizes are becoming scarce.

FIRE BRICK.—Dealers appear to be turning out a fair amount of stock; in fact, in some quarters, trade is very active, and the market presents a firm uniform tone at \$55@\$60 per M. for arch, wedge, key, &c., and \$45@\$50 of No. 2 split and soap. The supply is good. To New Granada 47 boxes were exported, valued at \$277.

FOREIGN WOODS.—This market is very dull, and entirely devoid of interest, prices remaining nominally as before. Jobbers appear to have entirely withdrawn, while shippers are unable to operate in view of the scarcity and high rates of freight. No receipts are reported. The only exports include 259 pieces Satinwood to Liverpool.

GLASS.—The sizes of foreign window glass heretofore referred to, 14c. and 16c. an inch, &c., are still remarkably

scarce and as a matter of course very firm, the small stocks being so well under control, that sellers are enabled to deal them out in just such quantities as they see fit, and at the highest possible market rate. Care is taken, however, not to run the rate too high, as tendency would be to induce buyers to adopt the domestic manufacture whenever the nature of the work would admit. The imports both present and prospective are small, even of undesirable styles, and stocks are not likely to be excessive. Western orders have fallen off a trifle, but are still very fair; the sales for southern shipment are liberal, and an active local trade continues. We still quote at 40@47% per cent. discount on French, 50 per cent. on very large, and 35@40 per cent. discount on English. Plate glass steady at 5 per cent. discount.

HARDWARE.—There is in some quarters a pretty good business doing, but the demand is not so general as last week, and the volume of trade is somewhat reduced, particularly on out of town orders. The sales on local account continue fair at full prices. Plain, locks with knobs, and door knobs of all kinds locks, continue in demand and very firm.

LABOR .- There is no news of importance this week, the supply of mechanics of all kinds being fair, and work enough for them all. The master masons continue to hold meetings for consultation and exchange of views, but none of the members report any difficulty in obtaining workmen upon reasonable terms, and the strike may be considered at an end. The journeymen bricklayers appear to be devoting all their energies to defend the pending suits against them, for as the President of the National Bricklayers' Union remarked, "if the bricklayers are defeated in this contest, the result will be disastrous to Trades Unions throughout the country." One of the men appointed to collect funds for the above purpose has taken French leave with about \$200. His name is John Kettleman, of Union No. 2. At the recent Labor Congeess, after considerable discussion upon the subject of strikes, the jollowing clause, embodied in the platform, was ordered stricken out:

Resolved, That this Congress deprecates what is familiarly known as strikes among workingmen, and recom-pliend that every other honorable means be exhausted before any such course is resorted to.

At a later session, however, it was remarked by a deleate that the platform contained no reference to strikes. and that the bricklayers were left without support. He therefore offered the following, which was adopted and added to the platform:

Resolved, That this Congress recognizes in its platform the right of the workingmen and workingwomen of this nation to strike, when all other just and equitable concessions are seen. sions are refused.

Recently three members of the Society of Operative Stone Masons of Brooklyn, with either more brains, or more good luck than their fellow-workmen, contrary to society rules, contracted to build a church in this city, and chose to employ non-society men. A special meeting of the above society was called, and the offending members tited to appear for trial, but failing to do so the following reamble and resolution were unanimously adopted:

Whereas, James Gleason, Michael Gleason, and Thomas O'Connor; having taken a job by sub-contract in the city of New York, which is contrary to the rules and regulations of the New York Society; and having been person-ally notified to appear before the Society, and defend the charge preferred against them, and failing to do so, *Resolved*, That they be dealt with according to the rules, in whatever penalty the New York Society inflicts for such offences, and in non-compliance with such fine or plenalty before 7 A.M. of to-day, they be expelled from the isociety.

This is a fair sample of the protection afforded by Trades Unions to their members. No matter how great the opportunity may be for a workman to advance himself in the world, he must conform in every respect to society cules, or be treated in the manner set forth above.

LATH .- The weakness to which we referred in our last report has been noticeable to a greater or less extent up to present writing, and the general tone of the market quite depressed. Some holders have insisted upon \$3.00 throughout, and in a few instances this figure was paid, but a large proportion of the sales were made at \$2.95, \$2.90, and \$2.87%, with a few even as low as \$2.85. An improved demand from city jobbers has been anticipated for some time, but they failed to come forward with any freedom. Supplies came in thick and fast, and with a sudden and unexpected accumulation of stock, receivers either had to pile out or make a deduction sufficient to draw out buyers. They chose the latter course, and by this means many cargoes were worked off, but at the close of this report buyers again seem inclined to withdraw, and the bids are all at inside figures. We quote nominally at \$2.85.

\$2.90 per M, and note sales of about 2,000,000, all within the range.

LIME.—The demand for Rockland lime continues quite active and though receipts have been a little larger, no stock accumulates in first hands, all the cargoes being taken up by jobbers immediately upon arrival. The supply in the various yards is fair, and consumers generally are enabled to obtain about all required. Prices remain as before, but close, very firmly at \$1.50 per bbl. for common, and \$2.00 for lump. The kilns are still running to their full capacity and disposing of the production as fast as it becomes merchantable, the inquiry from the South having again revived, and calling for large quantities, which manufacturers are forwarding. New York, however, has the preference, and when the state of affairs prevailing here will warrant it the shipments in this direction will increase. At Houston (Texas), lime is selling at \$4.00@\$4.25 per bbl., and at Savannah, Geo., \$1.75@\$1.90 do. Northern lime continues in small supply, in active demand from regular buyers, and very firm at rates in proportion to Rockland. The stock detained on the canal has not come through, up to the close of this report, much to the inconvenience of both buyers and sellers.

LUMBER.-In some sections of the city we find the trade at the yards quite dull, but in other directions a good steady demand prevails, and occasionally reports speak of considerable activity. Taken as a whole, therefore the tone of the market is quite healthy, and dealers generally appear confident, particularly as they have not thus far been compelled to accept of any concession for the purpose of realizing all our figures remaining at the same full range as heretofore. Southern buyers are still pretty well represented, and nearly all manage to secure a very fair amount of stock, though the great bulk of the trade is on home account. The receipts via the Hudson River are fair, some of the cargoes coming direct through from the West, where dealers have found the stock in many instances better in quality and easier in price than anything offering in the Albany market. Still there is not enough arriving, as yet to cause any heavy accumulation of supplies, the sales making acting as a partial offset to the arrivals. On hard woods of all kinds there appears to be a very strong feeling, but more particularly on good to choice black walnut, which is still very scarce, and likely to continue so for all dealers who have not already secured their supply, or are unwilling to pay the extreme figures at which the stock at Albany is very sparingly offered. Export orders for black walnut logs are quite plenty, and a few lots continue to go forward; but freight room is still too scarce and too high to admit of liberal shipments. In the wholesale market we note a fair amount of activity, but buyers do not operate with freedom either on local account or for export, and on most styles the tendency has been rather towards a lower range of values. Eastern spruce has been in free receipt, the stock at times accuimulating pretty heavily, and receivers throughout the week were anxious sellers, frequently forcing the market, in order to work off unexpected arrivals. This has naturally given buyers a very great advantage, and prices are lower, closing somewhat weak and unsettled. A great many of the schedules offered appear to be made up of odds and ends of short, undesirable stuff, and such as these have sold at \$15.00@\$18.50, one very inferior lot as low as \$17.00; but good average cargoes will command \$19.00@20.00, and within the latter range most of the business of the week has been consummated. Very choice selections would command \$21.00, but such are not to be found at the moment. Canadian spruce remains steady, and is selling to a fair extent, but outside figures can only be obtained on the very best lots, of which there are but few offering. White pine continues to meet with some export demand both for the West Indies and South America, though this trade is not by any means as active as usual at this season in former years, while for local use, the inquiry is fair. The general aggregate of business, however, foots up small: stocks are pretty large and the market rather unsettled. On all fine and choice shipping goods there is a firmer tone, and few if any concessions can be obtained . but the common sorts are easier, and offered with considerable freedom, owners preferring to accept lower rates, instead of piling out undesirable stock. We quote at \$22.00@28.00, for inferior to good box boards; and \$29.00 @\$32.00, for prime to choice grades. Piling is dull and in large supply, with the tendency of prices, on all except extra sizes, rather downward. The great bulk of the sales are made at 64c.@74c., with a few up to 8c., but the latter now appears to be about an outside figure. Pickets continue to sell slowly, and are to a great extent nominal at about \$9.00@\$10.00 per M, for the average run ¾ in. &c.

Southern pine is still quite active and prices very strong,

everything offered finding a quick market, at the late improvement. The amount on sale does not materially increase, though recent advices from the South report a larger number of vessels loading, with enough stock at the mills to supply a much more liberal amount of freight-The general average of prices is about \$34.00 @ \$35.00, and some of the best \$36.00 per M. White oak is in fair receipt, but appears to meet with no demand whatever, and everything coming forward is, from necessity, rafted out. Holders ask 42@44c. per foot, but this is far above the figures at which sales could be made. Eastern pine and shingles are quiet and would scarcely command above \$4.50 @ \$4.75 for No. 1, at the present time. Cypress shingles are in heavy supply, and though offered at lower rates, it is found to be impossible to induce buyers to operate with sufficient freedom to reduce the stock. The nominal rates are \$16.00 @ \$18.00 per M. We note sales during the week of 2,980,000 feet Eastern spruce at \$18.00 @ \$20.00; 300,000 feet white pine at \$22.00 @ \$28.00; 200,000 feet do., for export to South America, at \$32.00; 105,000 feet Southern pine flooring at \$35.00; 400,000 feet of do. timber at \$35.00; 200,000 feet Southern pine to arrive-Florida and Georgia-at \$35.00; a cargo do., to arrive from North Carolina, at \$33.00 per M.; 480 pieces piling at 6% @ 7%c. per foot; and 125,000 cypress shingles, part at \$17.00 per M., for 2 feet, and \$10.00 for common 20 inch. By auction, 6 logs Indiana black walnut at 7c. per foot; 6 do. do. at 7ic.; 66 do. do. at 7ic.; 22 do. at 7%c.; 2 do. at Sic.; and 3 do. at 8%c.

The exports of lumber have been as follows:

We also notice shipments of 93 logs black walnut to Hamburg; 1,167 logs hickory to Liverpool; 48 cases lumber to British West Indies; 120 bundles of shingles to British Honduras; 700 bundles lath to British Australia; 72 doors, 2,000 pickets, and 3,000 boards to Africa; 4 spars to Brazil; 2,400 staves to Glasgow; 5,400 do. to Africa; 69,600 do. to Cette; 11,600 do., 43 boards, 339 pieces lumber, and 621 plank to San Francisco. The receipts reported at this port are as follows: From Jacksonville 105,000 feet lumber; from Savannah 70,000 feet timber, and 180,000 ft. lumber; from St. Mary's, Geo., 25,000 feet lumber; from Charleston 368 pieces, and 224,000 feet lumber; from Wilmington 8,500 shingles; from Miramichi 57,000 feet lumber, 34,000 laths, 1,700 palings; from Frederickton, N. B., 164,163 feet lumber; from Musqush 875 pieces piling; from St. George's 350 pieces do.; from Two Rivers, N. S., 300 pieces do., and 900 spars; from Shulee 120 spiles, and 1 500 inches spars. Exports from Baltimore of 107,000 feet lumber and 11,000 staves to Pernambuco; 33,000 feet lumber to St. John's, N. B.; 15,000 feet to San Andreas; and 102,000 feet to San Francisco. From Philadelphia to Montevideo 319,000 feet boards.

CHICAGO LUMBER MARKET.

(Special Correspondent of REAL ESTATE RECORD.)

CHICAGO, September 28, 1868.

Since last advices the lumber market has been rather dull, the supplies large, and prices heavy, with quite a number of cargoes going over unsold nearly every night. There is no very great pressure to realize, but at the same time, sellers seem inclined to operate with freedom, and do not refuse a slight concession in order to close with buyers. The market for the past month has not realized the expectations of manufacturers, prices ruling weak, and hardly keeping up with the advance in freights. The price

	_
of to-day was readily obtained four weeks since. The	Ī
best grades, largely strips, bring about \$16.50@\$17.50; medium, \$14.50@\$16.00; ordinary mixed, \$12.00@\$14.00,	
joist, scantling and timber \$11.50@\$12.00. Lath steady and in fair demand at \$2.00@\$2.12% affoat. Shingles per	
car load \$4.00@\$4.12\frac{1}{2} for A sawed.

	is well stocked and prices firm, clear pine selling mostly
tte, do 82 50@35 00 ng, dressed 29 00	at \$5S. Receipts for last week via Western Canal are light, while those via Northern Canal are entirely shut off
ng, dressed 29 00 do 25 00 kk. 17 50	Freights dull and boats plenty. No change in freights."
	At the Eastward business has been very good, and the
ti ne follows •	general tone of the moultage at latest assembly

general tone of the markets at latest accounts was strong manufacturers refusing to make any concessions, and rather intimating that if changes were made, an advance instead of a reduction might be looked for. The sales for shipment in this direction were pretty liberal, though somewhat below the amount of the preceding week. Vessels were daily becoming less plenty, and freights had a hardening tone, though as yet without any material improvement. Canadian advices indicate a very stiff market throughout the balance of the season.

The Southern markets generally remain quite firm and trade is improving, owing in a great measure to the increasing shipping facilities. The supply of logs holds out well, and the mills will have enough stock to keep them running. A recent report from Savannah says:

Most of the country and two city mills are at work, the balance will start in a few days; orders are offering freely at good prices. Vessels are getting more plenty; six are now loading with lumber and timber.

Quotations as follows:

Timber \$8@\$12 per M. feet for mill timber, \$10@\$15 for small shipping do., and \$14@\$20 for large do. Lumber \$20@\$22 for ordinary sizes; \$25@\$30 for difficult sizes, and \$22@\$23 for flooring.

Comparative Exports of Timber and Lumber from the port of Savannah.

From Sept. 1, 1868 to From Sept. 1, 1867, Sept. 17, 1868. to Sept. 20, 1867.

Scantling, 2x4 to 8x10, 16 to 30 feet long, \$15 to \$17 per Mr. 1

Timber -17, to 80 cubic feet average 12 to 14 cents

Timber.-17 to 80 cubic feet average, 12 to 14 cents per cubic foot.

80 to 90, 18 to 15 cents per foot.

90 to 100 and upwards, 14 cents and upwards.

From Baltimore we have the following:

The lumber trade has shown some signs of activity the past week. The receipts have been comparatively light, and, with the regular trade, the demand has been such as to leave but little first-class stock on the wharf. The receipts of shingles have been light, owing to the low prices. The stock at present is generally of a second-class article.

We note several sales of yellow pine: 110,000 at \$27, and 121,000 at \$30; also some inferior lots at from \$22 to \$25 per M. The quotations are as follows:

METALS.-Copper sheathing continues in very fair demand for small parcels, and new remains steady at 33c. Old, however, has become rather scarce, and few if any dealers are now willing to sell below 20@21c. per lb. Scotch pig iron still further improved immediately following the writing of our last report, but latterly the demand has materially fallen off, and the tendency of price is now downward. The supply on hand is still very small, but with several lots known to be en route, dealers are rather more anxious to operate. We quote at about \$43@\$45 per ton for the average run of stock, with small lots very choice, at \$45.50@\$46. American iron is in moderate supply, but the inquiry is reduced to a very small compass, and the tendency of prices rather downward. We quote somewhat nominally at about \$41@42.50 per ton for No. 1; \$36@\$38 for No. 2 \$32@\$34 for forge. Bar iron from store is selling s.owi, but dealers generally remain steady at about previous figures. We quote at \$90 per ton for common American and English bar; \$100 do. for refined do.; \$155 do. for Swedes, ordinary sizes; scroll \$130@\$175 per ton; oval and halfround \$125@\$155 do; and rods %@3-16 inch, \$105@\$165 do. Sheet iron has continued in good steady demand, and the market, for common, has not only recovered from the depression noticed in our last, but shows an advance on most grades, closing firmly. We quote at 51/061/c. for singles, 51@6c. for doubles, and 6@61 for trebles, all from store. Russia sheet is firmly held at 13@14c. gold. assorted numbers, and meets with an average inquiry. About 2,000 packs, mostly light numbers Russia sheet, intended for this market, were recently lost by shipwreck in the Baltic. Pig lead was quiet early in the week, and latterly the demand has improved, and on some grades prices are higher, though on the general range the figures still stand at 6%@6%c. gold. The stock and receipts continue small, and dealers generally appear very confident. Bar, sheet, and pipe continue in good demand at the recent improvement. Tin, in pigs, is only moderately active, and on most grades remains steady, and we still quote at 24@27c. gold. Tin plates have met with a fair jobbing demand at about previous coin values, and at rather easier rates in currency. Zinc is in small supply, but the demand is much restricted, and prices in most cases will not exceed 121/0121/c. from store, though very choice grades occasionally reach 13c.

NAILS.—Early in the week the market for cut nails was rather dull, and large parcels could have been bought at 5c.; but the feeling latterly has improved, and mufacturers are now pretty firm at 5½@5½c. The del. and is mainly for home use, though a few lots are taken for shipment. Clinch moderately active and steady at 6½@6½c. Finishing nails rather dull and a little weak, at about 5½@5½c. for 6d., 8d., 10d., and 12d.; 5½@5½c. for 5d.; and 6½@6½c. for 4d. Other styles are in fair demand, and steady at 18c. for zinc, 26c. for yellow metal, and 40c. for copper. The exports are 815 packages, valued at \$1,320, against 1,559 packages, valued at \$2,\$71, last week. Shipments to San Francisco of 1,074 packages.

PAINTS AND OILS .- The demand for paints of all kinds, in a jobbing way, has been good at uniform and steady rates, but the wholesale market is extremely dull and a trifle irregular, though not enough so to warrant any change in quotations. Stocks, without being excessive, continue ample for all calls, and fair supplies are expected, both foreign and domestic. Glue is in very good demand, and sells readily up to list prices. Linseed oil has met with only a moderate demand, and the weakness noticed at the close of our last report has further increased, prices showing a falling off of 2@3c. per gallon, with the tendency still rather downward. Seed is very plenty, the manufactured stock liberal, and, with outside lots offering, low crushers have no chance of selling except at low figures. The closing rates are \$1.02@\$1.03 in casks, and \$1.04@\$1.05 in bbls. from crushers' hands, and \$1@\$1.03 from outside parties. Store rates are reduced in proportion. The exports reported for the week are 163 packages paint, valued at \$1,770, and 500 gallons linseed oil, valued at \$605.

PITCH.—Continued free receipts and some falling off in the already moderate demand have had a depressing influence, and the market is lower on all grades. At the decline holders pretend to much steadiness, but in most cases appear anxious to sell, and stock is easily found by buyers disposed to operate. We quote at \$30\$\$3.12½ per bbl. for prime city brands in yard. Wilmington is held at

\$3.57%@\$4 per bbl. Receipts for week, 374 bbls. Exports for week, \$5 bbls.; since January 1st, 2,627 bbls.; and for same period last year, 3,492 bbls.

PLASTER PARIS -The demand for white Nova Scotia lump is rather less active, owing partly to the fact that some manufacturers are working their own quarries, and receiving supplies direct, but still there is a fair business doing, and prices remain steady. Sales of 900 tons at \$4.50@\$4.75, and 500 tons to go up the river at \$5.12%. There is some demand for blue, at about \$4.25, but we learn of no sales. Imports for the week, 1,285 tons. Calcined is in very good demand, and generally quoted steady at \$2.50 for city, but it is rumored that to desirable customers, sales have been made at \$2.40 or thereabouts.

PLUMBERS' MATERIALS .- At the changes noted in our last report, the demand for pipes continued to be very good and stocks are somewhat reduced, though only temporarily, as manufacturers are working full force. Other goods in rather better demand and steady.

SLATE.—If possible, this branch of trade is more depressed than we have before noticed, not only in this city but throughout the country, and dealers, to use their own words, "feel blue." For shipment there is almost nothing being taken, while on local account the weekly sales aggregate less than a fair single day's business in ordinary times. At the quarries there has been until lately quite a little trade doing on country orders, but even this is now rapidly falling off, and producers are taken with a sudden desire to work closely to the letter of their contracts. These contracts were entered into early in the season by our city dealers, and called for pretty liberal supplies in anticipation of a good business during the summer, but in all cases the amounts ordered were in excess of what would have been necessary to carry on trade. This was a precautionary measure taken to guard against the usual practice of quarrymen, who, as soon as they found a retail trade at home paying more per square, were always ready with an excuse of broken machinery, quarries full of water, &c., to avoid delivering the full number of squares called for by their engagements. Finding no outlet, however, at present except in this direction, they are now forwarding about all the slate agreed upon, and our already heavy stock is daily receiving unnecessary additions. In order to work down the accumulation to more manageable proportions, there is a movement on foot to force off all the black slate possible, as this is a quality not likely to stand wintering over, as well as other shades, and to accomplish the object in view a deduction will undoubtedly be made of at least \$1 per square, and probably more. Prices generally are very unsettled, and guided mostly by the standing of the buyer and the amount taken, and though for form we retain our previous quotations, they must be considered as merely nominal.

SPIRITS TURPENTINE.—The arrivals continue very fair, the general demand is moderate, and prices have still further declined, closing somewhat unsettled, though, on the whole, rather in buyers' favor. High rates, and scarcity of freight room are interfering with shipments. The foreign advices, as well as those from the producing districts, offer nothing very encouraging, and holders in most cases appear rather inclined to reduce their stocks, though not forcing the market. At the present writing the quotations are 43@44c. for merchantable and shipping lots, and 45c. for New York bbls. Jobbing prices have been reduced, and the sales from store continue fair. Receipts for week, 1,228 bbls. Exports for week, 491 bbls.; since January 1st, 16,258 bbls.; and for same period last year, 24,144 bbls.

STONE.—Foundation stone has become quite dull, very little ground being broken at present for new buildings. Free stone in the rough is inquired after, and a fair amount could easily be sold, but the agents of the principal Ohio quarries find it necessary to refuse further contracts in order to fulfil the engagements already on hand. Blue stone has become very scarce, the quarries being tull of water, the roads hub deep with mud, and transportstion next to impossible. The styles most suited to corporation work are particularly in small supply, though many of our city dealers find it a pretty hard matter to obtain enough stock to meet current wants. Prices, naturally, are very firm, and some grades have rather an upward turn, though without quotable advance.

TAR.—The demand has been fair, but the continued full receipts and improving quality of the offering has given buyers the advantage, and prices are easier, closing rather weak on all grades. Very little has been taken for shipment, and the local trade now begins to fall off somewhat. We quote at \$3.121/20\$3.75 for North county; and \$3.50@ \$4.00 for Wilmington, all in order in yard, with extra fine lots a trifle higher. Receipts for the week, 218 bbls. Exports for week, 35 bbls.; since January 1st, 8,983 bbls.; and for same period last year, 3,415 bbls.

ALBANY LUMBER MARKET.

The Argus of September 29 reports as follows:

But little lumber has been received during the last week, owing to breaks on the canal. The stock in the yards is diminishing, but the assortment is very good. Larger sales are reported for the week, and the general tone of the market is improved. Prices remain generally as at our last report, with more tendency towards the maximum figures

The receipts of lumber at Chicago for the week ending 26th inst. were 28,480,000 feet, against 34,434,000 feet for the corresponding week in 1867. These figures would raise the aggregate receipts of the year to about 770,763,000 feet, against 601,518,000 feet for a corresponding period in

The receipts of lumber at Buffalo and Oswego for the weeks ending Sept. 21st and Sept. 28th, were:

	September 21.	September 28.
Buffalo	6,S5S,200 feet.	8,793,300 feet.
Oswego	7,390,500 feet.	7,398,700 feet.

Total...... 14,248,700 feet. 16,192,000 feet. Freights unchanged, with a tendency upwards.

SPECIAL NOTICES.

SUPREME COURT.—IN THE MATTER OF the application of the Mayor, Aldermen, and Commonalty of the City of New York, relative to opening One Hundred and Fourteenth street from Eighth avenue to the Hudson River, in the City of New York.—We, the undersigned Commissioners of Estimate and Assessment in the above-entitled matter, hereby give notice to the owner or owners, occupant or occupants, of all houses and lots and improved or unimproved lands affected thereby, and to all others whom it may concern, to wit:

others whom it may concern, to wit:
First. That we have completed our estimate and assessment, and that all persons interested in these proceedings, or in any of the lands affected thereby, and who may be

opposed to the same, do present their objections in writing, duly verified, to John Nesbit, Esq., our Chairman, at the office of the Commissioners, No: 28 Nassau street (Room No. 42), in this city, on or before the seventeenth day of October, 1868, and that we, the said Commissioners, will hear parties so objecting within the ten week days next after the said seventeenth day of October, 1868, and for that purpose will be in attendance at our said office on each of said ten days, at 12 o'clock M.

SECOND. That the abstract of the said estimate and assessment, together with our maps, and also the affidavits, estimates and other documents, which were used by us in making our report, have been deposited in the Street Commissioner's office, in the City of New York, there to remain until the twenty-ninth day of October, 1868.

Thind. That the limits embraced by the assessment aforesaid are as follows, to wit: All those lots, pieces or parcels of land, bounded on the north by the centre line of the block between One Hundred and Fourteenth street and One Hundred and Fintenth street; on the south by the centre line of the block between One Hundred and Thirteenth street; on the seats by the centre line of the Eighth avenue, and on the west by the Hudson River.

Fourit. That our report herein will be presented to the Supreme Court of the State of New York, at a special term thereof, to be held at the City Hall, in the City of New York on the second day of November, 1868, at the opening of the Court on that day, and that then and there, or as soon thereafter as counsel can be heard thereon, a motion will be made, that the said report be confirmed.

Dated New York, September 14, 1868.

Dated New York, September 14, 1868.

John Neshit,
Andrew Bleakley,
Matthew Tully,

Commissioners.

CUPREME COURT.—OPENING OF COPKEME COURT.—OPENING OF.

Eighty-second street, from the Second avenue to the Fifth avenue (where not already opened), in the City of New York.—We, the undersigned Commissioners of Estimate and Assessment, in the above-entitled matter, hereby give notice to the owner or owners, occupant or occupants, of all houses and lots and improved or unimproved lands affected thereby, and to all others whom it may concern, to wit:

wit:

First. That we have completed our estimate and assessment, and that all persons interested in these proceedings, or in any of the lands affected thereby, and who may be opposed to the same, do present their objections in writing, duly verified, to James M. Sweeny, Esq., our Chairman, at the office of the Commissioners, No. 82 Nassau street (Room No. 42), in this city, on or before the seventeenth day of October, 1868, and that we, the said Commissioners, will hear parties so objecting within the ten week days next after the said seventeenth day of October, 1868, and for that purpose will be in attendance at our said office on each of said ten days, at 11 o clock A.M.

SECOND. That the abstract of the said estimate and assessment, together with our maps, and also the affidavits, estimates, and other documents, which were used by us in making our report, have been deposited in the Street Commissioner's office, in the City of New York, there to remain until the twenty-ninth day of October, 1868.

Third. That the limits embraced by the assessment aforesaid are as follows, to wit: All those pieces or parcels of land lying and being on, Eighty-second street, between the Fifth avenue and Avenue A, and extending on either side of said Eighty-second street, half the distance to the next street thereto.

FOURTH. That our report herein will be presented to the Supreme Court of the State of New York, at a special term thereof, to be held at the City Hall, in the City of New York, on the second day of November, 1868, at the opening of the Court on that day, and that then and there, or as soon thereafter as counsel can be heard thereon, a motion will be made that the said report be confirmed.

Dated New York, September 14, 1868.

JAMES M. SWEENY,
JOHN MCC. SUTHERLAND, Commissioners. First. That we have completed our estimate and assess-

OKPOKATION NOTICE.—Public Notice is cupants of all houses and improved or unimproved lands, affected thereby, that the following Assessments have been completed, and are lodged in the office of the Board of Assessors for examination by all persons interested, viz:

First. For paving Canal street from Broadway to West street with stone blocks.

Second. For regulating and grading Sixty-fifth street from Eighth avenue to Hudson River, and setting curb and gutter and flagging sidewalks of the same from Eighth to Tenth avenues.

The limits embraced by such assessment include the same from Eighth to NORPORATION NOTICE.—Public Notice is

The limits embraced by such assessment include all the several houses and lots of ground, vacant lots, pieces and parcels of land situated on

First. Both sides of Canal street from Broadway to West street, and also both sides of the intersecting streets to the extent of half the block either way from Canal Street.

Canal street.

Second. Both sides of Sixty-fifth street from Eighth avenue to Hudson River, and also both sides of the inter-

avenue to Hudson River, and also both sides of the inter-secting streets to the extent of half the block either way from Sixty-fifth street.

All persons whose interests are affected by the above-named Assessments, and who are opposed to the same, or either of them, are requested to present their objections in writing to Jacob F. Oakley, Chairman of the Board of Assessors, at their office, No. 32 Chambers street, Base-ment New Court-House, within thirty days from the date of this notice.
