A VOID LEAD POISON--LEAD ENCASED BLOCK A TIN PIPE.-This article has now been in use for the past four years, and is daily growing in public favor, being heartily indorsed bv all the leading chemists and physicians in the country, also the Water Commissioners of New York, Brooklyn, and Boston. Our recent improvements in the manufacture
insures a most perfect article, which insures a most perfect article, which
cannot fail to be fully apprecisted cannot fail to be fully appreciated. The advantages of lead pipe with a perfectly pure block tin lining for derstood; it gives the full pliability of the Lead with the pureness of the Tin. The resisting power of Block Tin being pureness or the Tin. The resisting power or Block five times greater than Lead, we are enabled to fur nish a pipe stronger than Lead, one-half its weight at about the same cost per running foot, which insures a perfectly safe water pipe for domestic use. To furnish cost per foot give the head or pressure of water and bore of pipe.

From the American Agriculturist,
New Tork, November, 1867.
"SAFE PIPE FOR DRINKING-WATER.-Lead poisoning from water brought in lead pipe, is the often unsuspected cause of disease and death. Galvanized iron pipe, wood and cement pipe, are expensive and inconvenient substances, so that people will risk their lives and use lead. The Lead-encased Block-tin pipe is even cheaper than lead, and we believe perfectly safe. Our faith in it has led us recently to lay some eighty feet of it, through which all our drink ing-water is drawn."
COLWELLS, SHAW \& WILLARD MF'G CO., foot of West Twenty-soventh st., North liver, and No. 11 Barclay st., New York.
Also, Manufacturers of Lead Pipe, Sheet Lead, Block Tin Pipe, Sheet Tin, Solder, \&c. Circulars sent free.

THE N. Y. DRAUGHTSMEN'S ASSOCIATION.
On Wednesday evening last, we had the pleasure of attending a highly interesting meeting of the above organization, specially convened at their rooms, No. 38 Broad street, to listen to Mr. John Buckingham's criticisms on " Iron Construction" in New York, and on the city's architecture generally; as also to award the prize of $\$ 10$, with a magnificently wrought diploma by the Association, for the best and most original design of a "Column Capital;" which was, during the course of the day, decided by Arthur Gilman, Emlen T. Littel, and John D. Hatch, Esqrs., three wellknown architects in this city, acting as referees, in favor of Mr. Wm. H. Foggett, à draughtsman in the office of George Hathorne, Esq., of Trinity Buildings, for the excellence of the drawing, and it having also, by Mr. Foggett, been prepared in strict obedience to the conditions laid down for the competitors entering this artistic arena. The conditions were as follows:

1st. Competitors must be members of the Association.

2d. Designs to be shown by full-sized geometrical drawings.

3d. The shaft to be circular and one foot in diameter.

- 4th. The character and style at the option ", 9 of the designer.

5th. The design to be so treated as to be appropriate for cutting in freestone.

6th. To be drawn in line and shaded in India ink.

7th. To be submitted before the 1st July, addressed to the President, at the rooms of the Association.

8th. Each design to have a distinctive mark or motto, with sealed envelope attached, inclosing the name and address of the designer.
9 th. A prize of $\$ 10$, together with a diploma, to be awarded to the most original and meritorious design.

10th. All designs will be exhibited in the halls of the rooms after being submitted to the judges.

11th. The prize design will be the property of the Association; all other designs will be returned to the competitors before the 1st August.
12th. The judges to consist of three architects of recognized ability who are willing to act in that capacity, to be chosen by the members of the Association.

The referees' report, read at the meeting, was thus:
"That they have unanimously agreed to award the first place, in point of excellence, under the conditions of the competition, to the design marked 'Alpira.' The design marked 'OFF-HAND, was considered to exhibit much originality; but as it violated the written conditions in two respects-viz., in being drawn for a column of nine inches only, and also in being in perspective-it was decided to be ineligible. The design marked ' $A$ Sketcir from Nature,' also received highly favorable consideration.
(Signed) "E. T. Littrel.
"Artiur Gilman.
"Join Davis Hatch."
The prize and diploma will be presented at the next meeting; the latter will be on a magnificent parchment, elaborately adorned and artistically prepared at the expense of the Association.
All the drawings were sent in under a nom de plume, also the envelopes containing the draughtsmen's names were sealed, so that neither the referees nor any other person could discover the winner until these were opened and announced at the meeting; hence the greatest curiosity was excited among the members present, and the competitors particularly. The unsuccessful candidates were Messrs. Arthur Lett, George Welsh, Max Schroff, Samuel Lane, F. W. Klempt, and T. P. Chandler, Jr. - The designs wore seven in number, and were adjusted to the walls of the room; and in our opinion they were all elegantly and tastefully executed, some of them being really handsome and highly meritorious in their finish-a credit to these young men. The styles were Gothic, Doric and Corinthian combined, Early English, Classic, and Moorish.
Mr. Jones gracefully moved, seconded by Mr. Schroff, "that the thanks of this Association be, by official letter, tendered to the architects who kindly acted as referees in the competition, and whose decision has given universal satisfaction:" unanimously carried. The officers of the Association are: R. MI Charlton, President; A. E. Sargent, Vice-President; Max Schroff, Treasurer; Isaac Reid, Secretary; George Wheeler, Assistant Secretary ; Samuel Godsmark, Editor of the Association.

The greatest cordiality prevailed during the meeting, and friendly courtesies were extended among the members one to the other; there were no bitter or envious exhibitions of feeling, nor any discordant sound to render matters uncomfortable to the successful competitor ; while he acted his part well in behaving unostentationsly and with gentlemanly deportment. The meeting separated at $10 \pm$ o'clock, all the members retiring gratified. A vote of thanks was unanimously passed to the Press of New York, for courtesies invariably extended to the Association; on which resolution the President made some very gratifying remarks on the entire Press of the city, which were supported by the acquiescence of all present. We recur now to Mr. John Buckingham's address on "Iron Construction," of which, however, we can only give a very synoptical account, our space being already crowded. The constructive portion of a building was more the engineer's business than the architect's, though the architect is connected with some. In 1848 the first iron store in this city was erected, and to the present time, after such a lapse of years, no improvement had been attained commensurate with our progress in the other arts and sciences. The speaker made some very sarcastic remarks on the building on Broadway occupied by Grover and Baker, that it was "just a big iron window stuck in front, without a particle of design about it." He also remarked on the absurd style of A. T. Stewart's building on Broadway, 9th and 10th streets and 4th avenue -that "it was a signal failure, and a miserable daub of white paint;" which went to illustrate some other remarks of his, that "we were ashamed of our building materials, while we had cause, on the contrary, to be proud of them all." He disapproved of the gingerbread work on some of our buildings, and deplored the monstrous idea of painting and ornamenting evergthing, which would appear to better advantage in their original state. The man who builds a store makes more money on it than on any other piece of architecture. These stores were all iron shells, iron bolted, iron, in fact, all through, but at the same time not substantial or solid ; iron was the rage, but was injudiciously used on many of our prominent public structures. On another occasion, we shall be pleased to lay before our readers a fuller statement on "Iron Construction" than at present our space will allow. Mr. Buckingham received a vote of thanks for his address. Mr. James H. Gyles, architect, of No. 160 Fulton street, was announced to lecture before the Association, when other architects would be invited to follow, for the improvement and edification of those who may desire to attend these lectures, to which the public at large would be admitted.

## SAVE OUR FORESTS.

Is it not time that the National Government interfered to preserve some of our forests? One of the most lamentable facts in connection with the future of the country is the rapid cutting down and demolition of all the woodland east of the Mississippi. Even the apparently inexhaustible supply of the Northern belt of country extending from Maine to Minnesota, is beginning to show sigas of giving out. Unless we annex Canada, the next generation of this country will suffer extremely from a want of a scarcity of lumber. The discovery of anthracite coal seems.almost providential, for in addition to the ordinary waste of wood for building and mechanical purposes, by this time we should have had an absolute famine had wood been needed for cooking and warming purposes besides. In the far West they have legun to plant trees in that now treeless country, all of which will be of great benefit to the millions who are yet to occupy the Western prairies. But the growth of wood in the West bears no sort of comparison to the destruction south, east, and north. This is really a matter to which the attention of the scientific societies should be directed, so that State and National action might be obtained to preserve such woods as we now have, and to add to their number by judicious planting. It is, moreover, desirable that a topographical survey of the country should be made, with a view to setting apart certain places in the country as woodland. One of the bad effects of the cutting down of our forest trees has been witnessed in the annual freshets which create such havoc. Of the Connecticut, Hudson, Delaware, Susquehana, Potomac, and other Eastern rivers, the forests used to retain the moisture when the snow melted, and so preveinted any sudden accession to the waters of these streams. Freshets were in fact unknown before the cutting down of the forests; now they are an annual occurrence, and of increasing destructiveness. Then let the subject be agitated of setting apart large tracts of country for the purpose of growing wood. Indeed, many of the worn-out farms in our Northern States could not be utilized for a more lucrative crop. In the immediate vicinity, for instance, of Saratoga are old worn-out farms which are useless now for the purpose of raising crops. but which, if planted, in fifteen years would raise a most abundant crop of chestnut and.larch trees. However, this evil will in time correct itself, as wood is already becoming so scarce as to make it profitable to devote large quantities of land to the special puppose of raising it.

The newspapers all over the country are discussing the Chinese problem. It seems to be inevitable that we shall have a large Chinese emigration. It is quite idle to say anything about the undesirability of this population, for come they will. Labor is very cheap in China, and is very dear in America; this the Chinese have found out, and they are preparing to emigrate in myriads. A great many foolish laws will be passed to discourage them, but a fleet stationed before every port in the Pacific would not avail to keep them out or prevent them from effecting a landing. Now what is to be done? stakidil
universally admitted that the Chinese constitute a most undesirable addition to a population. True, they are patient, hard-working, ingenious, and supply all we need of cheap labor; but then they are heathens, of an infexior race, practice vices which are nameless, and almost unknown even in the lowest strata of our population, and it seems in every sense a real misfortune that they should form a part of the great nation we have founded here. There is one solution of the difficulty which has not yet been thought of, and which we very much fear will scarcely commend itself to the mass of our population when proposed; and that is, the propriety of interdicting the propagation of the Chinese upon our own soil; in other words, allowing only Chinese men to come here, and prohibiting them from intermingling with the population; or if Chinese women must come, to compel both sexes to observe those practices which are the custom in the Oneida community. Those who are curious and desire a knowledge of what those practices are, would do well to-address J. H. Noyes, Oneida, New York.

Ir is to the discredit of the people of Western Jersey that they have not taken efficient means to redeem what are known as the Newark Flats. This vast marsh ought to be extremely valuable land for building and garden purposes, where it now breeds nothing but mosquitoes and fevers, and is utterly useless for any manufacturing, farming, or building uses. Some time since Mr. S. N. Pike organized a company to redeem a large portion of this swamp, and dykes were built for miles along the Passaic and Hackensack rivers. For some reason or other the attempt has not succeeded, due, doubtless, to the want of proper engineering skill. A wise thing to do would be to organize a company for the purpose of bringing over several thousand Hollanders, who are well acquainted with dyking, and who could eventually be useful in founding gardens on the ground thus redeemed. The accessibility of this property to New. York ought to make it of immense value and importance to those who would do much to rid all Western Jersey of the plague of that beautiful region, the mosquito.

## VALUATION OF CITY PROPERTY.

THE following is the relative value of the real and personal estate in the city and county of New York as assessed for 1868 and 1869:

|  | Assessment |  |
| :---: | :---: | :---: |
| Real Estate | $\begin{aligned} & \text { for } 1868 \text {. } 236,555 \end{aligned}$ | $\begin{gathered} \text { for } 1869 . \\ \$ 684,140,768 \end{gathered}$ |

Increase in one year. . . . . . . . . . . . \$1i in, $843,813$.
Of this amount of increase nearly $\$ 43,000,000$ is in five wards of the city, to wit : the Twelfth, Eighteenth. Nineteenth, Twenty-first, and Twenty-second, and upwards of twenty-five millions is in the Twelfth and Twenty-second wards alone. The largest increase of any one ward is that of the Twelfth, the valuation of which has been raised $\$ 14,505,860$.

The following is the assessment of taxable personal property in this city and county for the present year :
Residents. . . . . . . . . . . . . . . . . . . . . $\$ 175,990,396$
Non-residents . . . . . . . . . . . . . . . . $29,422,299$
Shareholders of banks.
$29,422,299$
$74,547,154$
Total_… . $\$ 279,059,829$

In 1868 the valuation of personal estate was : Residents . . . . . . . . . . . . $\{\ldots . . . . . \$ 177,360,146$
Non-residents.......................... $31,841,607$
Shareholders of banks............... 75,998,019
Total
\$285,199,772 This shows a decrease in the value of personal estate of $\$ 5,239,943$.
The total valuation of real and personal estate for 1868 was $\$ 908,436,827$. The total valuation for this year is $\$ 964,100,597$.
The total increase is. therefore, $\$ 55,664,270$.
So soon as the rolls have been examined and confirmed by the Board of Supervisors, the rate of taxation for the present year will be determined.

## BUILDING OPERATIONS,

Mr. James McGregor, Superintendent of Buildings, reports as to new buildings from January 1 to July 1, 1869, as follows:

Plans and specifications for new buildings submitted, examined, and passed upon, from January 1 to July 1 were 727 . Of these 531 were approved, being in conformity with the law ; 121 were not fully in accordance with requirements, but, being subsequently corrected, were approved; 75 indefinitely drawn, or containing provisions in violation of the law, were rejected. The number of buildings proposed to be erected is 1,289 , and are classified as follows:

First-class dwellings. . . . . . . . . . . . 452
Second-class dwellings 250
Third-class dwellings. 283
First-class stores. 68
Second-class stores 14
Third-class stores. 23
Factories 90
Schools. 90
Stables. 72
Cburches 13
Public buildings. . .............. 19

## Total.......................... 1,289

## SAGINAW LUMBER FIELDS,

A Correspondent of the Chicago Tribune, writing from Saginaw, gives the following account of the state of affairs in that region:
"The river from East Saginaw to Bangor, a distance of about fifteen miles, is thickly studded with lumber mills, some of which have docking facilities for $5,000,000$ to $8,000,000$. When there are full stocks on hand, there is lumber enough to build up towns and cities requisite to constitute a respectable State, and fence them all in. There is, of course, an immense amount of capital invested, and the condition and prospects of the trade are at all times a matter of great concem. The early part of the past winter was unfavorable for logging, and, as is commonly the case under such circumstances, unusual exertions were put forth to secure logs, the result of which was rather a larger stock than usual, owing to the protracted sleighing throughout the latter part of the season, but the increase is not great enough to affect the market. The stock of choice lumber is proportionately small, and the prices for that quality will be much more likely to advance than to recede. The amounts of logs got out on the Tittabawassee, according to the estimate of the Boom Company-always accepted as good authority-is $250,000,000$ feet, which is pretty well secured. not over 10,000 ,000 feet being behind or "hung up." The amount last year was $228,871,300$. The amount on Cass river is known to be $68,000,000$ feet, against $88,740.000$ last year. The stock this season is all secured, and will be down in about three weeks. Bad river has about 20,000,000 , against $15,700,000$ last year. Rifle river, on "the Bay," has got $150,000,000$, of which $2 \overline{5}, 000,000$ are being hung up beyond all hopes of securing this season. The amount last year was $48,000,000$. The River Au Gres has $45,000,000$ cut, of which $20,000,000$ are hung up. The amount last year was 18,800 ,000 . The logs from Rifle and Au Gres rivers include all from the bay that are towed to the
mills above for manufacturing Towing up the bay is sometimes a risky business. Last week three rafts were lost, a moiety of which will be saved.
There has been considcrable hanging back this season among buyers. but they are beginning to flock in, and the light stocks throughout the Eastern States insures a fair trade. Until within a few years the valley depended largely upon the Chicago market to absorb its surplus. Dealers, owing to the large proportion of "weak" holders, were then perfectly at the mercy of Chicago buyers, and no money was made. At present the Chicaro market probably does not take fifty million feet of the Saginaw lumber in a year, the great bulk going to the Eastern States, Ohio, \&c. Furthermore, it is now in strong hands, who are able to hold in case of emergency. The firmness and unanimity of sentiment this season, among the entire lumber interest, has been the theme of frequent comment, and, we may say, admiration.

## IMPORTANT BUSINESS CHANGES.

## new fork city.

Bennett, G. A., Umbrellas, changed to Bennett, Potter \& Co. Special \$25m. to Juue 30, c70.

## NEW YORK PROJECTED BUILDINGS.

Tue following plans embrace all those buildings that have been submitted to the approval of the Superintendent since our last :

- East 13TH ST.-No. 530; one 2 story brick dwelling, $20 \times 25$; owner, Owen Mulready; builder, Michael Martin.
- East 22D ST.-Rear, No. 322; one 4 story brick tenement, $30 \times 20$; owner, Patrick Cassidy.
-3:D st.-S. s., 100 w . Gth av., rear ; one 1 story tect, L. J. O'Connor; builder, James Haslin.
- EAST 37 TH ST.-No. 30 ; one 4 story and basement, 1st class dwelling, brick, $25 \times 55$; owner, Charles Lainer; architect, W. H. Hume; builder, Lewis Scudder.
45 TII ST. -N. s., e. 5th av. ; one 5 story brick Ist class dwelling, $25 \times 95$; owner, Wm. Guion; architect, Charles W. Clinton; builder, Sam. Lynch. 4STr sT. -S. s., 125 e .9 th av. ; one 2 d class 2 story brick dwelling, $22 x 26$; owne, Peter Fritner;
architect, T. Thomas, Jr. ; builder, S. F. Dealing. architect, T. Thomas, Jr. ; builder, S. F. Dealing.
-55 TH sT. $-\mathrm{S} . \mathrm{s},. 100 \mathrm{ft}$. e. 9 th av. seven 3 story and basement brick 2d class dwellings, 20a46; owner, F. Reilbach; architect, John Dawson.
55 TH ST.-N. S., 240 w .9 th av. ; three 3 story brick first-class dwellings, Dorchester stone front,
20 x 50 ; Thomson \& Mickens, owners and builders. 20 x 00 ; Thomson \& Mickens, owners and builders.
FIFTI AV. and 59 TII ST.- $N$. e. cor. ; one 2 story frame and cor. iron saloon and dwelling, $50 \times 50$; Hugh Mitchell, owner ; William Hoffman, architect; Franz Werling, builder.
62d sT.-S. s., 123 w. 2d av. ; two 3 story and basement first-class dwellings, brick and brown stone front, 16x45; J. G. Ruddell, owner and stone front, $10 x 45 ;$ J. G. Ru
builder ; F.S. Barnes, architect.
7ZD ST. N.
Fid ST.-N. S., bet. 3d av. and Lexington av.; one 2 story brick church, blue stone front, 50 x 91.8 ; trustees St. James' Church, owners; Renwick \& Sands, architects; Frank Lyons, builder. 2 SOTII ST.-S. s.. 235 e. 3d av. ; one 4 story brick store and tenement, 25x50: Edw. Murray, owner; William H. Hoffman, architect.
109TH ST.-N. ${ }^{\text {s. }} 3$ 300 w. 1st av.; one 3 story Grick tenement, 25x40; M. Bresney, owner; J. Glatztala, builder.
-128 TH ST. -265 w .5 th av. ; one 3 story and basement brick first-class dwelling $20 \times 40 ;$ B. O. Russell \& J. Eastendu, owners; G. Inslee, architect; B. O. Russell, builder.
B. 129 TH sT. -N. s., 140 e. 4 th av.; two 4 story brick stores and dwellings, 25x50; owners, J. M. Adams \& Thomas Handibode; architect and builder, C., E. Adams.

BowEry-No. 97 ; one brick 1st class store, iron front 5 stories, $25 \times 98$; owner, J. P. Jube; archiect, P. Fostevin; builders, Rabold \& Fostevin.

- Broome st. - No. 389 ; one 4 story and basement
brick factory, 25 x 36 ; 号 0 wners, Devornsney Bros.; architect, Chas Wright. i
Broome ST.-No. 121, s. s.; rear ; one 1 story brick stable, 25x12; owner, Chas. Heilman; architect, T. J. Bier; builder, F. Runck.
- Crosbr ST.-No. S5, rear; one 2 story brick factory, Dorchestone stone front, $25 \times 45$; owner, Jos. Lıppe; builder, P. Bossing.
- Cimistopier st. -N s., No. 94 , 1 block e. Bleecker st.; one 3 story brick school, $31 \times 31$; owners, Trustees of St. Johannes Church; architect, John M. Forster.

Columbis st. -No. 27, one 5 story brick store and tencment, $28 \uparrow x 56$; owner Chas. Beaudell; builderar, W. Jose.
-Grand|sT.-No. 373 ; one 3 story and basement brick store, 25x 36 ; owner, Estate Eugene Langdon; architect and builder, F.'Bloódgood.
-HUDSON ST. -No. 24 ; one 2 story brick store and dwelling, 31x14; owner, J. Q. Jones; builder, D. B. Pierson.

WHEST 24 TH ST.-No. 339 , rear; one 3 story
brick factory, $25 x 22$; owner, John McKee ; builder, Samuel Lowden.
-121st ST.-N. s., 175 e. 3d av. ; one 3 story store
and tenement, 25x50; Samuel A. Hills, owner ; C.
E. Adams, architect and builder.

- 11 TTII ST.-S. s., 333 e. 3 d av.; one 2 story brick second-class dwelling, $16.5 \times 45$; Wm. J. Hargrave, owner.
-EAST $0^{3 T I}$ ST.-No. 213 ; one 5 story and base-
ment brick store and tenement, $25 \times 70$; I. Sades, owner; J. Bockel; architect.
owner; J. Boekel, architect. . cor., rear ; one 5
st. store and tenem't, $32 \times 22.3$; H. Lanken, owner. 49Tu ST.-S. s., 300 w. 5th av.; two 4 story brick first-class dwellings, brown stone.fronts, 25x63; E. Elsworth and J. Smith, owners; W. Wheeler Smith, architect.
HAMILTON ST.-No. 12, rear; one 2 story brick stable, 25x30; Henry Neil, owner; P. Gregory, architect and builder.

## BROOKLYN•PROJECTED BUILDINGS.

The following embrace the buildings which have been projected since our last:
Court st.-S. e. cor. Church st.; brick, 20x25; John Kennedy, owner ; Henry Nash, builder. Cilarles st.-No. 27, rear; fiame, 22x17; Foster Petitt, owner ; A. P. Reetze, bnilder.
Union st.-Cor. Clinton st.; brick, $25 \times 50$; H. A. Tucker, owner; E. L. Roberts, builder.
Hndson

HחDSON Av.-E. s., 22n. c. cor. Sands st. ; brick, 20x:3ff; Jno. G. Donnclon, owner; H. R. Donnelon, builice.
Sxiti st.-No. 156; frame, $383 / 4 \times 15$; Annie
Quiqley, owner; R. H. Ryoers, builder.

HUDSON AT:-No. 133; brick, $25 \times 40$, Catharine Cushing, owner; Thomas Marsden, builder.
AtLaNTIC. AV.-S. fe. cor. Pearsall. st. ; frame,
1s $1 / \mathrm{x} 171 / 2$; Andrew Boyle, owner and builder.
ORMAND PLACE.-W. S., 100 feet from s. w. eor. Ormand place; frame, $21 \times 36$; Charles H. White, owner ; Abram Pettit, builder.
Hick \& President sts:-Alias No. 5 Jefferson Park; brick, 20x40+ ; owner, A. C. Stanton; builder, George Mills.
Yonk ST.-No. 150, rear ; frame, 16x20; owner, John Winters.
Pearl st.-No. 131; frame, with brick front, 22x36; owner, J. Horney; builder, Hugh Falsey. HudSon \& Mritle avs.-N. w. cor. ; frame, 18x18; owner, P. Immerschild; builders, Long \& Barnes.
Jay ST.-Near Willoughby st. ; brick, $25 \mathrm{j} \times 50$;
owner, City of Brooklyn; builder, J. D. Anderson:
HICK st.-Cor. Woodhull st.; jbrick, 26xf0; ow-
ner, Henry Hastings; builder, W: A. Furey.
14 TII ST.-Bet. 9 th and 10th avs. ; frame; $12 \times 20$; owner and builder, Timothy Mcauley.

Classon av.-E. s., 200 ft. s. of Putnam av.; frame, 22x25; owner, Thomas O'Neil; builder, J'. Grinden.
State ST.-No. 103 ; brick building, 25x35; Thomas Denham, owner; Mushttel \& Ferris, builders.
Vanderbilt av.-E. s., 4 th house from Atlantic st.; frame building, $25 \times 25$; John Garvey; owner and builder.
Vanderbilet av.- 75 ft . from s. e. cor. of Dean st., frame building, $44 \times 25 ;$ M. Eagan, owner and builder.
Vanderbilit av.-E. s., 92 ft from s. e. cor. of Dean st., 22x22; Michael Gagan, owner and builder. atlantic st.-No. $17 \%$, between Clinton and Court sts.; brick building, 22x40; Bayer \& Bros.; owners ; Michael H. Murphy, builder.
Vanderbilet av. and Pacific st.-Frame build-
ing, 20x85; Mrs. Shaw, owner ; no contractor.
Mrrtue Av.-No. 241; frame building, 17x32; S. Lamb, owner; S. Lanme, builder.
THIRD ST: AND SMITII ST-N. e. cor., brick building, 60x60; Jermiah Curtis, owner; G. L. Morse, architect; no contractor.

## MARKET REVIEW.

BRICKS.-The market for common hard brick has been rather less active than last week, though the demand may still be called very fair, and with some reduction in the supplies, no accumulation of stock likely to cause any inconvenience has taken place. Prices have softened somewhat, though no actual decline can be quoted, and there are still sales enourh making of the best grades at $\$ 10.00$ per M to warrant the retention of that figure as the extreme value. It must be : remembered, however, that only the very finest grades of Haverstraw, made brick reach so high a rate, and that the bulk are placed at prices varying from $\$ S .50$ up to $\$ 9.50$ per M . and some of the poorer cargoes of "t up river" stock cannot be realized upon except at a much lower figure, even then showing a great amount of irregularity, owing to the continued strong competition of the New Jersey manufacturers. By considerable good management receivers have managed to keep pretty well sold up, and still report a fair call, but do not appear altorether satisficd with the position at the moment, awaiting a little anxiously the result of the next two or three weeks' usiness, which it is thought will be hkely to errect some decided changes in the market. Should the present inquiry continue, a higher range of values is predicted, as it is This falling off in the supplies will not to be reduced. any trouble in the process of manufucture, but simply tho carrying out of a set plan by producers, who have for some time expressed a determination to withhold stock until they can force prices up. On the other harid. however, it is clained that thore aro too many new yards working which must realize almost as fast as stock is turned out, for the above arrangement to become general or more than teinporarily successful; and also that as soon as prices are advanced to any extent; the local consumption will fall olf, the Eastern demand be withdrawn, and we shallimmediately find stock commencing to pile up, not only from the North river and Jersey, but from Long Island, the latter point haviner sent into this market scarcely any goods at all as yet tris season. Pale brick have been in rather better demund, almost entirely on city account; and the stock has become somewhat reduced. Prices are more uniform; and close quite stiff at $\$ 50 \$ 6.50$ per M. Croton fronts come forward slowly as the domand does not-mate rially increase, and is almost entirely for very small lots. Prices without change, and we still quote at $\$ 16 @ \$ 1 \mathrm{~S}$ per M, according to shade. Philadelphia fronts at the kilns are worth \$35@\$38 per M, but here are selling out from
 tiles are in fuir demand and steady. We quote English at 35 c . per square foot fur flooring; and 45 c . do. for malt
house. house.
CEMENT.-During the past week there has been some
falling off in the sales of Rosendalc, and the market has shown a rather slow tone, thourh most of the companies are still in receipt of orders, and appear fully satisfied with the position. In fact, as compared with other buikding materials, cement is doing remarkably well, and manufacthe surs have every reason to congratulate themselves upon The successfur The -season opened with the price fixed at $2 \overline{5} c$. per bbl. above last year, and as building operations were stagnant, and bricks, lath, lime, lumber, sc., were all tending down.
ward it was thought a reduction would be necessary a
boon as the usual enrly spring. rush for supplies was over.
Contrary to expectations, however, there has been foumd Contrary to expectations, however, therg has been found

 Domingo, 44 pieces do.
GLaSS.-The inclination to dulness noted in our last report has considerably increased during the week un-
der review, and we now find a very quiet market for all
styles of foritn styles of foreign witidow giass. Nearly quil tha large deal-
ers complain of the unusual absence of Westeruor ers complain of the unusual absence of Western orders,
and report the bulk of their trade to be in small lots as wanted by jobbers within a radius of a few hundred miles of this city. The already liberal supply is almost daily re-
eniving additions, and thourf there is now and then adisposition shown to hold out the idea of a scarcity of a cartaingrades, the assortment is undoubtedly anmple for all calls
that are likely to arise for the plestan that are likely to arise for the present. Prices are quoted
steady, and as far as general trade goos, may be so considered, but well-known customers, and any cash buyers have of late been able to operate on , retty casy terms, with
the tendency still in their fin the tendency still in their favor, as the searcity of money @45 per cent. off list for English, and $40 @ 55$ per cent. off
for French. Ameritau stock is also rather production slightly exceeding the demand at present and stock accumulating. We quote at about $50 @ 5 \mathrm{~s}$ per cent.
off list. The latest off list. The latest reported imports are S, 977 packages glass, value $\$ 10,223$; and 70 glass plate, value $\$ 10,566$.
HAIR.-Business is still very moderate in this market, city jobbers holding enough st,ck to meet all calls from tirely suspended for the phipments being apparently entirely suspended for the present. A few orders are re-
ceived from the near-by small towns on the various railroads leading from this city, but not on the various railagrgregate to make any perceptible implession upon the ac-
cumulated stock, if indeed they equal the add remain about as before, but are partially nominal. We
 pay to prepare mixed hair. and there is none offering.
LATH.-The reports of sinall amounts of stock en route for this port, carrent at the writing of our last report
were not well founded, the market hiaving been abundantwere not well founded, the marect having been abundantbuyers enabled to secure all they required without difti-
culty. The natural result has been to still further reduce culty. The natural result has been to still further reduce the cost and cause receivers to offer their cargoes pretty
frecly. it being very evident that the position of unarket at present would not warrant the filing out or holding of
parcess for any length of time. A few very choice lots parces sold early at $\$ 2.60$, but the a freat bulk of the transactions were at $\$ 2.50$ per M, and at the close this is about the market rate with a nut over-strong tone. Dealers in most cases have not shown any great anxiety to operate,
but thinking that a much greater reduction in values would probably have the effiect to shut off receipts, they deemed prodvisable to lay in a fiir amount of stock making a demand activo enourth to consume abont all the carroes at
hind. Manifacturers have been making a strong effort nil the season to keep values up to the averare of hast year unless the consumption very inaterially iuprovess, they
will probably be oblimed to vill probably be obliged to content thenselves with
sualler profits than last year. In fact $\$ 2.50$ © ${ }^{2} .75$. to be about the figures upon which buyers have fived as a fair range, and that the outside rate at least pays the
producer $\Omega$ good profit is evinced by the inumedinte inprease of supplies forwarded when the tharket approaches
that point. As the the amount now that point. As to the amount now on the way we can
gain no reliable information. but it is probable that gain no reliable information. but it is probable that few
fresh cargoes will be loaded for this point until our market shows signs of recovery. A few lots have been sent to
neighboring cities, even as far as Philadelphia, but the neighboring eities, even as far as Philadelphia, but the
trade has beenl mostly with city jobbers. Sales of 2,100 , 000 at $\$ 2.50$ per $M$ for spruce, and $\$ 2.00 @ \$ 2.25$ for liem-
lock:
LLME-Buyers can still be found for pretty much all
the lookland lime very soon after arrival, and the general
market may be calied fairly active and steady, former rates ruling current as we write. The outlet, however,
is neither liberal nor likely to materially increase for the present, and we do not learn that receivers contemplate making any further. advance in the cost for some little time to come. Common is inquired after to some extent wir consumption, but lump or finishing lime is selling with the greatest freedom and is relatively firmer than the lower grade. The cargo sales are almost entirely to a distributive demand of fair magnitude, but much below the average even at this usually dull season. We quote prospect for supplies is somowhat doubtful, thongh there is some indication that they may increase, as coal is paying return cargoes they may be forwarded more senre with lime even if the freight only covers expensos to the point. The northern limes from well known companies weet with a fair demand from regular sources, hut in a general way are selling very slowly, and notwithstanding wanted. For the best prades about rather faster than above may be cailed the nominal rates but they are not in all cases adhered to, particularly when an opportunity for making a good sale presents itself. Many lots of inferior make are to be found, and sell at prices ranging
from $\$ 1.25$ down to 75 c per bbl There from $\$ 1.25$ down to 75 c per bbl. There have been sixteen cargoes reported from the eastern coast during the week.
LUMBEIR.-Retail dealors have had a very light trade in all styles of lumber during the week ending with this est to advise. The receipts have been very fair, but heavy as with the current outlet for voods; there is no necessity for free purchases, and we find that a great many of the parcels coming in are merely such as are always se cured during the winter. The late arrival of lors nt the mills, and the consequent delay in the production, also hos some effect, as dealers look for more liberal offerings and in all probability, casier terms, before it shall becomo ne cessary to stock up for the coming fall and winter trade. supplies, however, both here and at Albany nealy and of ports agree that the assortment is Albany, nearly all reof the ordinary styles can be met, to a fair extent, without inconvenience. Prices, as a rule, may be called steady
and extremes are, in most cases, obtained on the smali lots now moving, but, as usual on a dull market, old and first-class customers can generally obtain some modifica appents to be the suide for all buyers, exediate wants still appenrs to be the guide for all buyers, except occasionally poses. The first six months of the present yecturing pur been remarkably profitable, or quite as satisfactory to tho majority of our denlers as they had calcnlated nupon, but any at not aware that any serions losses have occurred, il ties were controlled, the result proves almost equal to last season. The Albany market, according to our latest pritle of alles, remains sparsely supplied, but there is a lit attendancend of lumber offering, and the few buyers in former figures. For the South, New Jersey, the river towns, and this market, nothing important was called for but the Eastern demand continues to take off enongh stock to prevent complete stagnation.
In our wholesale market there continues a fair degreo of activity on certain desirable grades, and the stronger tone noticeable last week is well sustained, though we do not find that higher rates have in any case been obtained, and buyers, while operating quickly when goods to suit them are offered, still refuse to go beyond current wants. The call for city consumption as usual requires tho largest amounts, though notwithstanding the many adverse intuences operating against them, exporters
still can now and then manare Etint can now and then manage to purchase to advantage. Castern spruce has been in very fair supply, but not in exbefore arrival, at full former prices, the strong beal tone noticeable last week still showing itself very plainly firee bayers, but havis report. Dealers, as a rule, are not free buyers, but having operated from hand to mouth ever
since navigation opened in since navigation opened, in constant expectation of lower
rates, frequently find themselves without stoc maturing contracts, and have to withont stock to meet specification offering and have to secure the first desirable very small marrin for profit. We quote at leaves them a per M for inferior to pood and $\$ 22400$ ate $82.50 @$ for extr and choice longths. It is thought in many quarters that sorted supplies: but on the other hand it is claimed asfor the present this will be impossible, as manfoctura cannot greatly increase the shipments in this direction, let spring, when everything looked very will. Early in the ing appeared to prevent a heavy decline in ossed and noth furs from points along the coast, previously rejected as too low, were suddenly accepted, and in meeting these contracts, most of the mills are now busily engaged, some great on rather short supplies, owing to the fact that water. High pricos, however in por want of sufficient plies at unexpected points, and we do not anticipap supgreat scarcity. White pine continues moderately active both on domestic and shipping account. and with a very fair The scant buyers make selections with comparative ease. The scarcity and firmness at the points of production: howers, and nothing feeling of contidence on the part of holdduction from provious fianuresg can be bought at any repurchases have recently been made for manufacturing pair box and shipping boards, and $\$ 26 @$ M 80 for inferior to choico do. Piling has been plenty and rather in excess of the demand, making it necessary to flost out some stock,
and causing a dull market with some weat We quote at $6 \% @ 71 \mathrm{c}$. for inferior to weakness in values. prime, and it must be something extra lons and heavy to exceed 8\%c. per foot. A few pickets have come in with lumber cargoes, and sold low; but the price was not made
public. Yellow pine has sold to a moderate extent to ar-
rive, but the market, as a rule, is dull. Prices remain as iight reccipts as at this season it is diflicult to engege crews to run their vessels to the Sonthern ports, owing to @ $\$ 34$ for timber and flooring boards, and $\$ 85$ for choice boards. The Southern markets are said to be a little nnsettled, with the tendency rather in buyers' favor. Black wainut logs remain notninal. Eastern shingles have been offered at $\$ 4.00$, without buyers. Southern shingles are dull and withont fixed valuc. Since onr last, about 2,00,000 feet Eastern spruce have been reported, at $\$ 18.50$ do.; 85,000 feet yellow pine, at $\$ 31.50$ do. 975 pes. piline @11.50 per M. As we go to press, we learn of some anxeastern torce sales, from the rocent very liberal arrivals of The exports of lamber have been feeling.

## Value........... $\$ 14,640 \quad \overline{\$ 12,871} \overline{\$ 473,074}$

Writish North American Colonies sticks yellow pine to and 200 bundles pickets to Now Granada; 10, 800 stavges to Hamburgh: 2400 do. to Liverpool; 12,000 do. to London. 3600 do. to Glasgow; 3600 do. to Penarth Poads. 15640 do. to Gibralter; $18,200 \mathrm{do}$, to Havre; $7,200 \mathrm{do}$. to French West Indies; 182.160 do. to Cadiz ; 20,214 do., 861 pleces plank, and 131 pieces scantling to San Francisco. The re160,000 feet lumber; from $8 t$ Gerom Brunswick, Ga., poles, and 500,000 lath; from St. John, N. B., 825 spruce poles, 126,674 feet deals, and 82,000 lath; from Masquash, poles; from Two Rivers, N . S., 4 Ĩ0 spiles; frum Wpruce N. S., 1025 pieces paling, $55 s, 900$ laths; and from Shalee, N. S., 725 pleces piling. From the Maine coast thero
has been reported two cargoes of lath and fifty-one cargoes of limber, but a great many of the latter di o advices of exnorts from Bu New Jersey towns. We have
 70,000 nid 40,000 feet lumber; to Matanzas, 131,000 feet lamber Rico, Inave, $6 S 17$ staves; to Rotterdam, 16,000 do.; and to Demerarn, 12,000 do.
interest ernadices are still decidedly adversa to the selling "blue." The closing week of June at Chicas feeling rather ed by tho Times as follows:in the past week was by no means a fruitfal one for sellers ther with liberal receipts, hal a depressing inflyenfe, tugethe market, and notwithstanding sellers strumgled bart to sustain prices, their efforts proved a fuilure and arril to tion of 50 c . per 1,000 was suffered on good to choreduc goes, and $\$ 1$ on common to coarse cut In a few insticur the latter description was sold as low as $\$ 0(\pi) \$ 951$ buces the lowest rates paid for such quality for some reib bis The bulk of the sales, however, were made at $\$ 14 @ 31550$
 coarse cnt. In a few instances, durine the early part of the week, \$16 was realized for cargoes from Mnskegon, cat by mills enjoying a good repatation. The general tone of tho market yesterday was dectdedly agninst sellers, and quite Shinger or cargoes were unsold at the close.
Shingles.-This department of the inarket was also dull, were in excess of the demand, and sellers toward the ceipts of the week found it difficalt to realize 83010 gras the close saved alloat. the same quality being a little less than minal at $\$ 354$ on track.
tent afloat, at $\$ 150 @ \$ 2.00$.
tent afloat, at $\$ 150<3 \$ 2.00$.
fer materially from the above. Messrs they do not difricks circular of the ist instant, has reached us, and we extract the following
Dort have the month of June the receipts of lamber at this about one hundred and fifty-five inillion feet, which exceeds any previons month, except the month of An ex186S, whien the receipts were over one hundred and sixty those reported up to the same recipe last as yet short of 738,467 fect, compared to $355,7 \pi 5,322$ feet in 1868 . Tho shipments are far ahead of last year, amonnting to two only about two hundred and thirty-three millions the were-
vious season.

Shingles have also arri ved in large quantities，the re－ ceipts for the past month amounting to $96,689,000$ ，and for the year thus far to $320,529,000$ ，which is an excess of over eignty－five and a half millions compared with last year，
however the shipments aggregato $657,064,750$ ，which is however the shipments argregate
almost fifty millions more chan last year．
almost fity millions more chan last year．
With such data as the above，it is no wonder that the market is heavy and depressed，which is undeniably the case；but the cause for this depression is not solely in the inclemency of the weather，which，during the latter part of the nonth，reached the very climax of meanness； but rery few days have passed when it did not rain heavily and to such an extent that most railroads have been unable to run trains on time，and at many places the water has raised from six inches to two or three feet over the fielis．It is self－erident that such a state of affairs produces complete stagnation，and causes all trade to be suspended．One other cause for the depression in prices
is to be found in the fact that more cargoes are being forced on the market this year than formerly．A large quantity of lumber is being sold by the cargo ationt，which last year was placed by the manufacturer on yards；this las a tendency to glut the market and prove a serious detriment to the general trade．In spite of all this our
gigures show that the demand for lumber is really good， gigures show that the demand for lumber is really good，
and would be better，at more remunerative prices，if it and would be better，at more remunerative prices，if
were not for the above－mentioned circumstances；how long these will continue is hard to predict；as yet the clouds seem to be full to completion，and threaten us with renewed deluges，and in that case tho worst has not yet been reached ；the crops must inevitably rot and the whole North－west be prostrate．Should，on the contrary，the in－ cessant rains give place to warm and dry weather，much
nasy yet be remedied and sared，but even at the best some may yet be remedied and sared，but even at the best some
considerable time must clapse before any extended trade considerable time must elapse before any extended trade in the country can we transacted，as the parmer is far be－ hind with his most pressing labors．In our report a year
ago we had to ellronicle the suspension of all canal boat anatic on the river on account of the low starge of water， whereas at thie present writing all the river bottoms are wheress at
As regards shingles，much the same be said as about lumber，only that the supply is so much in excess of last Thar；but the shipments show that they are wanted． consequently they have been forced down to a price in－ volving a heavy loss on the producer．
Taking a general view of the trade，we are compelled to admit that for many years we have not seen it in so pre－ carious a condition，and when so much dejended upon recuperate materially by the assurance of good crops and passable roads，or it will grow worse and prove ruinous to
the producer，who is compelled to seek a market on ar－ the produce
rival here．

The farce enacted daily on Lumber Exchange，called ＂reporting sales＂might as well be dispensed with，as it
does not give the slightest idea of the reality；not one carge in twenty is reported at all，and generally those only that bring a fair price on account of their good quality． But very few cargoes first－class good lumber lave arrived，
and the demand for these is brisk and at prices considera－ and the demand for these is brisk and at prices considera－
bly in advance of our outside quotations，but they are ex－ bly in adva
ceptions．
ceptions．Wessrs．W．\＆G．also furnish the annexed figures，which explain themselves：

90 to 100 and upwards， 14 cents and upwards．
METALS．－Copper sheathing is still quoted at former figures，and most manufacturers，not finding it necessary to realize，appear quite steady．Owing to the recent re－ undertone of weakness，and it would be simply impossible to sell with any freedom unless a concession was granted． The demand at the moment is very light，even the ordi－ nary jobbing trade having subsided，and the matket closes dull．We quote nominally at 32 c ．＠35̃c．for new，and 22c．＠23c．for old，nccording to quantity．Yellow metal
duil and rather heavy at 2 ic ． 029 c ．in wholesale and retail parcels．Ingot copper has not been very active，but the disposition to steadmess noted as prevailing at the dute of cur last still continues，and no alteration in figures is necessary．Such sales as are made appear to be for the wants of the regular dealers，though $\Omega$ slight speculative feeling is said to exist．We quote at 22 c ．＠ 22 ziz c ．per pound．Scotel pig iron is less active than at the date of our last report，dealers having secured enough stock to
meet all present wants，and withdrawn，and no other out－ neet all present wants，and withdrawn，and no other out－
let presenting itsclf．Importers，however，do not appear to have lost any confidence，and with continued small offer－ ngs the market remains firm．The arrivals have been more moderate．We quote at $\$ 39 @ \$ 44$ per ton．Ameri－ and pis the suptics do not come forward with much fres ma sollers spequite stendy．in on prime prades aro dom sellers are quite stendy，in fact．on prime grades aro
 ；and $\$ 36 @ \$ 37$ do．for forre．Bar iron from store is not only dull but almost completely prostrate，and the market very unsettled．Most dealers continue to give former fig－ ures as the market rates，but very few are realizing them， and in order to effect sales the concessions are frequently quite liberal，particularly if a cash customer appears $\$ 85.00$（a）$\$ 57.50$ per ton for common American and Enclish bar；$\$ 00.00 @ \$ 9.00$ for refined do．；$\$ 140$ do．for Swedes， ordinary sizes；$\$ 117.50 @ \$ 122.50$ do．for ovals and half rounds；$\$ 120.00 @ \$ 150.00$ for scroll，and $\$ 27.50 @ \$ 155.00$ for rods， 5 －Sa3－16 inch，all less 5 per cent．Common sheet iron has met with some little iobbing demand，but the general wholesale market is dull．Prices steady for best brands．We quote at 5 c ．＠7c．for singles，doubles and trebles，and in a retail way about $1 / 4 \mathrm{c}$ ．higher．Gal－ vanized sheet fairly active and steady at $20 @ 25$ per cent． off list．Pussia sheet iron，considering the supply and demand，keeps up very well，and we again repeat quota－ tions．The outlet for stock，however，is very small，and importers refrain from forcing the market．Wo qutote at about 11xc．＠131／2 c．gold，according to number：．Pig lead finds few buyers，but with a supply on hand reaching only about 1,600 tons，and rather light amounts on the former firures．We quote at $61 / \mathrm{c}$ ． 67 c ．Bar lead $101 / \mathrm{c}$ ． and sheet and pipe 12c．．less 6 per cent．to the trade．Pig tin remains in much the same position as last week，the demand very moderate and directed mainly towards small outside lots offered cheap，while the large holders ask full figures，are not offering stocks．We quote in coin at 30 c ． or English；29z c．a 00 c ．1or Straits；and $33>1$ c．＠ 34 c ．Oor Banca．Tin plates are dull and unsettled，and prices a rinde more in buyers favor．Zinc is active in lots from store，and steady at 12\％c．＠12\％c．per pound． tons pig iron；24，033 R．R．bars； 62 tons sheet iron； tons pig iroll ； 24,033 R．R．bars； 62 tons shect iron； 1,422 non tubes； 9,102 pirs of lead； 19.920 boxes ．tin；
NAILS．－Cut nails have by their cheapness attracted more attention，and at times the market has shown con－ siderable animation as compared with the previous two or three weeks，cansing a stifer and more uniform tone to values．The volume of trade，however，has not been unnsually large，and agents and manufacturers would glad－ ys ans been pretty general，including shippers，country buy－ ars， 1 bomat Clinch provis also done a on salo but are ho higher We wute eut ot on sales，but are no higher．We quote cut at $45 / 948 \mathrm{c}$ c． increase from retail dealers＇hands Clinch at about 61\％＠ G34c．，with choice at 63́a．Finishing nails are quoted at abont 5\％／ac．＠51／sc．1or 6d．，Sa．，10d．，and 12d．； $5 \frac{1}{2} c @ 55 / 1 \mathrm{c}$. for 5 d ．amd $54 \mathrm{c} @ \mathrm{Gc}$ ．for 4 d ．Other kinds steady at 1Sc． for zine； 27 c ．for yellow metal：88c．＠41c．for copper． The exports are 234 packages，valnec at $\$ 1,449$ against 23is packages，valued at $\$ 1,260$ ，same time last week． Shipments to San Francisco 25 packages．
PAINTS AND OILS．－A few odd and irrcgular orders continue to drop in from day to day，just abont enough in the aggregate to prevent complete stagnation amongst business doing the dealers，and this constitutes all the and uninteresting marke closing with a decidedy flat prices there are no alterations to make；but a buyer will－ ing to undertake anything like a free purchase and ope－ rate for cash，has no difficulty in getting some deductions from the quoted firures．Holders are not forcing busi－ ness，however，and the easing up on prices is only the usual occurrence of a slow market．There continues to be an unusual absence of a call from the West，and such sales as are consummated go mostly to local and State dealers．The stocks though not heavy are fair and well assorted，and selections as a rule are easy．Paris Whito continues to be an exception to tho above，having been

sllowed to run so low that it requires a long time to re－ stock，but most back orders have now nearly been fllled and future arrivals will go to increase the stock．The prices for the time being are＇somewhat nominal．Glues steady，but quiet．Linseed oil has been fairly active，but in a very irregular condition．At one time it was said that speculators had nearly sold out，and that nothing more could be bought below 09c．；but since then free sales have been made at 95 c ．，and cruthers accepted $\$ 1$ in casks．At the close thero is again some reaction，the off－ erings being comparatively moderate，and priees firm on all parcels，at our last given figures．We quote crushers＇ rates at $\$ 1 @ \$ 1.02$ in casks，and $\$ 1.01 @ \$ 1.04$ in bbls．with outside lots selling at $96 @ 98$ ．The exports are 86 pack－ ages paint，valued at $\$ 1,972 ; 499$ gallons linseed oil，
ued at $\$ 5 \overline{4}$ ，and 300 bbls．oxide zinc valued at $\$ 3,726$ ．
PITCH．The market has shown no life since our last the demand for goods calling for only very small retail parcels suited to the immediate wants of buyers，and at great extent nominal．We retain former figures as there have been no sales made to indicate a change，but it is probable that somewhat casier terms would be offered in order to hurry sales．The few parcels recently moved hava been mainly on domestic account，exporters finding no marrins as yet．The actual supply is doubtful，though said to be large．We quote at $\$ 2.75 @(\$ 2.8 \mathrm{~S}$ for city；$\$ 2.75$ （3）$\$ 3.00$ for Southern；and sinall luts very choice in a jobbing way from store，$\$ 3.121 / 2 @+3.25$ per bbl．The receipts for the week are 250 bbls．Exports for the week
85 bbls．Since January $1 \mathrm{st}, 2,360$ bbls．；and for the same 85 bbls．Since Januar
PLASTER PARIS．－The demand for Nova Scotia lump during the past week has been very light，and we hear of only a few additional sales，but dealers have been kept quite busy delivering on previous contract the very liberal arrivals．The stock in this city has become very large， and soine manufacturers are at a loss to find storage room for all their rock．the call for the manufactured article hav－ ing been＇ton small to work down the supplies with the rapidity anticipated．White is still the favorite style，par－ ticularly as the recent sales have all been at inside flgures， or about $\$ 4.37 \%$ per ton，but a few parcels of blue have been sold at $\$ 3.00 @ \$ 3.75$ per ton，according to delivery， retail dealers，but otherwise the market at the moment is devoid of animatiun，the call for shipping runnine very small．We quote city at $\$ 2.40$ or $\$ 2.50$ per bbl．，and coun－ try $\$ 2.25 @ \$ 2.35$ do．Receipts for the week， 2,996 tons lump．Shipments of 32 bbls．calcined to Cuba；and 50 bbls．do．to Cisplatine Republic．
STONE．－Dealers and agents report a very good trade doing in brown and free stone，and the deliveries large enough from week to week to requiro pretty close atten－ tion．In some cases contracts made carly in the season have been thrown up by original buyers，but a resale was immediately found for the goods，and stock has not aceu－ mulated．A．few parcels of New Brunswick stone have come to hand，but the receipts are much smaller than last year．In blue stone there is a little dulness，particu－ larly on city consumptive account．All corporation work is selling well，but building stock，sills．lintels，Sc．，do not appear to be wanted except on sinall jobbing orders． There is a fair amount slopping coastwise，and this out－
let is the main dependence of producers in this as well as lot is the main dependence of producers in this as well as most other styles of building material．Everything is Working smonthly at the quarries，and the consumption could bo consilicrably increased if necessary，Prices re－ main at about the flgures decided on at the opening of the SPI，and the general tone of the market is stendy
SPIRITS TURPENTINE．－The arrivals have continued very fair and the demand only moderate，but the market has shown a strong and rather buoyant tendency through－ out the week，and our range of prices is higher，with the advantage still rather in sellers＇favor at the close．Wo find a great many dealers who look upon current values as cheap．and though there is no unusual excitement and not much inclination to invest heavily，a great many small odd lots are being secured in anticipation of a rise．The ex－ port business continues mocerate，but orders are still coming forward and a goop shipping is likely to spring up estimated at about 1.650 bhe in yard on the 1 st inst．was estimated at about 1,650 bbls．，and the arrivals since have for inerchantable and shippinr order $430431 / 42 \%$ cor 43 c ． Iork bbls．； $44 @ 46 \mathrm{c}$ ．for small parcels，and retail lots from store in proportion．Receipts for week， 1,525 bbls．Ex－ ports for week 192 bbls．；since January ist， 8,466 bbls．， and for same period last year 6,981 bbls．
TAR．－The market remains in much the same general position as last week；business from day to day footing quotations．Some holders feeling pretty fixed basis of quotations．Some holders feeling pretty strong have with no confidence in the future a reaction，while others， With no confidence in the future，or feeling the necessity of
realizing at as carly a day as possible，are willing to accept a shade lower firures as an inducement for buyers to ope－ rate．The demand，however，does not improve either on donestic or forcirn account，and at the close we note a continued flat and unsatisfactory condition of affairs．Our firures are still simply nominal．The stock in yard on 1st inst．was about 6.500 bbls．We quote at $\$ 2.50 @ \$ 2.62 \%$ per bbl．for North County as it runs；$\$ 2.75$ O．$\$ 3.15$ for Wilmington do．；$\$ 3.25 @ \$ 3.50$ for rope；and occasionally $\$ 362 x_{0}^{(6)} \$ 3.75$ for something very choice in a small way． Receipts for week 151 bbls．Exports for week 268 bbls．； since January 1st，29，0S5 bbls．，and for the same period $10 \cdot \mathrm{t}$ year $7,0+6 \mathrm{bbls}$ ．

## ALBANY LUMBER MARKET．

The Argus＇report for the week ending July 6，1869， Says：
Contrary to general expectation that the week preceding
the Fourth would be a quiet ons，there has been a rood the Fourth would be a quiet ons，there has been agood
trade through the district since our last report．Buyers were in attendance throughout the weck．Prices are with
oul change of moment．The stock of old lumber is about used up and new comes orward slow．This has a tenden－ cy to keep prices at their present figure．Of green and of old seasoned is broten up Yessuls oro in asortment especially for Philadelphia，owing to the slackness of the coal trade．
The receipts at Chicago for the week ending July 2, were $3 \mathrm{~S}, 827,000$ feet，against $39,598,000$ feet for the corres－ 000,000 feet，against $15,961,000$ feet for the corresponding week in 1868．The aggregate receipts since January 1st are 337827,000 feet，argainst $374,750,000$ fect in 1S68．The aggregate shipments since
against $245,045,000$ in 1868 ．
The following figures give the reported receipts at Buf－ falu and Oswego for the week ending July 5 th， 1869 and 1868 ：
