\$\\$58\text{TH.}—N. s., 80 e. Lexington av., one 2 story brick stable, 19x43; owner, Terrence, Farley; architect, John Sexton.

\$\text{ESSEX}\text{ST.}—W. s., 47 n. Delancey st., one 2 story brick factory, 25x80; builder, S. Lowden.

\$\text{112\text{TH}\text{ST.}—N. s., 175 e. 4th av., rear, one 2 story brick stable, 20x25; owner, James Meagher; architect, John Batterman.

\$\text{ELIZABETH}\text{ST.}—No. 215, one 3 story brick fac-

architect, John Batterman.

ELIZABETH ST.—No. 215, one 3 story brick factory, 20x60; owners, &c., Lawrence & Deeves.

54TH ST.—N. s., 64 e. 2d av., one 5 story brick tenement, 30x50; owner, Richard Totten; architect, W. H. Hoffman.

122D ST.—S. s., 100 w. 2d av., one 2 story wood factory, 25x50; owner, &c., John Hart.

44TH ST.—N. s., 200 e. 3d av., one 2 story brick second-class dwelling, 20x30; owner and architect, John Bulger; builder, James Dawson.

48TH ST.—S. s., 225 e. 2d av., one 4 story brick factory, 50x100; owner, A. Jacobs; architect, J. M. Forster.

M. Forster.

RIVINGTON ST.—No. 161, one 2 story brick stable, 14x70; owner, — Vallentine; builder, E. H. Hackett.

ACHERRY ST.—No. 367, one 4 story brick store and tenement, 36.8x41; owner, Henry Dobbin; architect, W. E. Waring; builder, W. G. Hotal-

architect, W. E. Walley,
ling.
4 112TH ST.—S. s., 295 e. 3d av., one 2 story and
basement brown-stone front private dwelling;
owner and builder, A. E. Fountain.
551ST ST.—S. s., 100 e. 6th av., one 4 story and
basement brown-stone front private dwelling,
22x55; owner, E. H. Tompkins; architect, W. T.
Rear builder, S. Lowden.

Beer; builder, S. Lowden.

#34TH st.—N. s., 100 w. 3d av., one 4 story and basement brown-stone front private dwelling, 25x 37; owner, D. H. Boltman; builder, Leander

Buck.

1st Av. AND 5TH ST.—N. w. cor., four 5 story brick tenements, 50x125; owner, Gessner & Co.; architect, Louis Burger.

55TH ST., N. s., 59TH ST., S. s.—281 w. 9th av., one 3 story and basement brick building, for Hospital, 56x170; size of lot, 800x200; Peak & Mansard roof; cost \$181,C00; owners, Trustees Roosevelt Hospital; architect, Carl Pfeiffer; builders, J. S. & J. B. Smith.

MARKET REVIEW.

MARKET REVIEW.

BRICKS.—There has certainly been no improvement in the general market for hard brick since our last; but while it is difficult to quote any point showing a decided change for the worse as yet, the tendency is in that direction—sellers evidently having even less advantage than one week ago, and the position is far from encouraging for those having any large amount of stock to dispose of. In fact the stock is the whole trouble; the liberal and constantly increasing supply now here in first hands, both afloat and on pier, and the prospect of continued additions thereto, up to the close of the month at least, making it very probable that business will soon have to be forced in order to work down the accumulation, and in that case lower prices must be accepted as a matter of course. All the available outlets have now been pretty well supplied, and there is scarcely a jobber in this or neighboring cities who does not hold enough brick to meet all pesent wants, or can so easily secure any parcel that he may require as to render it altogether unnecessary for a display of anxiety in securing cargoes. The consumptive demand, as a rule, is reported very good, but not equal to the arrivals. Shipments Eastward continue to a moderate extent, but only the very best selections are forwarded, and this portion of the trade is considered too precarious to indulge in with any liberality. Inferior grades are not coming forward in large single par cels with as much freedom as two or three weeks ago but, average fairly with the upper classes, and taken as the

whole the assortment is now about all that could be desired, buyers finding it an easy matter to make any selection from the poorest to the best. We quote for the general run of stock \$6.50@\$8.00 per M, with good and choice at \$8.50@9.00 do., the latter figure now about the extreme. Manufacturers are still at work, pilling up stock wherever they have room, and shipping off the surplus. The remarkably fine weather of the present season has prevented the production of many washed brick even in the open yards, and as the natural policy is to sell out the poorest grades first, it is not improbable that the current accumulation "up the river" is of a generally high order. Pale brick continue to sell with a fair amount of freedom, but the demand is fully met by the supply, and values are unchanged. We quote at \$4.00@4.50 per M for North River; \$4.50@\$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5.00\$\$, \$5 whole the assortment is now about all that could be de-

per M, by cargo, and \$38@45 per M in job lots.

CEMENT—We find a continued strong market for all good brands of Rosendale, and no abatement in the demand, which as previously noted is quite general, and takes pretty much all the stock offering. The shipping trade East is about the same as last week, but from the South is rather increasing while the local and near-by city trade keeps close up to the previous aggregate. Prices remain as before viz: \$1.90 delivered at Rondout, and \$2.00 per bbl. delivered here, with, however, a strong effort current to establish an advance, which has thus far been prevented by the impossibility of getting all manufacturers to consent to the change But as contracts are filled and stocks are cleaned out, it is thought there will finally be a unanimous agreement to a higher range, particularly as jobbers, who have lately endeavored to make arrangements for their fall supplies, find producers, without exception, quite buoyant in their views.

their views.

FOREIGN WOODS.—Buyers continue to operate with moderation and caution, and in no case take goods unless it be a very cheap lot or something for which there is an immediate and profitable resale, and though the general offerings do not increase, the supply is larger than the outlet, and some holders manifesting an inclination to force trade in order to realize. Prices naturally are weak, and quotations somewhat uncertain, though former figures are now certainly extreme on all except cedar, which is held firmly and in most cases so high as to check all demand. Exporters still complain of the difficulty experienced in regulating their exchange, and of securing freight-room and call for comparatively nothing; and business, such as it is, is mainly on local account although a few orders from neighboring cities are reported, and some for Southern shipment. As the market now stands there is nothing to encourage imports, and there is said to be only a few irregular parcels in transit for this port. The trade from yard continues to run light and is easily met, all the leading dealers holding a good and well-assorted stock. No exports. The only receipts are 80 logs cedar rfom Cienfuegos.

GLASS.—The market for foreign window glass again

ports. The only receipts are 80 logs cedar rfom Cienfuegos.

GLASS.—The market for foreign window glass again begins to show signs of activity, and in some quarters the animation is very decided, though as yet the orders at hand have called for comparatively small parcels mostly to keep buyers in stock until they can make up invoices for their fall supplies. The demand is mainly from the South and Southwest, Western buyers still holding off, and the local and near-by interior dealers wanting but little at present. The arrivals continue moderate, and as there is not much expected, importers are firm, and in no case forcing business except on odd lots of stained stock, &c. Selections are pretty easy, though a scarcity of 18 and 14 inch is talked of. We quote at 50g 55 per cent. off list for French, and 40g 50 per cent, off on English. For American there is still rather a light demand, but most of the undesirable parcels having disappeared, holders are now a trifle firmer. The foreign price-list has been adopted less 55 per cent. No new stock yet on the market. The latest reported imports are 16,106 pekgs, glass valued at \$23,816.

LATH.—The market has shown less activity during the

\$25,496; and 174 plates valued at \$21,815.

LATH.—The market has shown less activity during the week under review, not from lack of demand, which if anything has been better, but from lack of stock, and the feeling is decidedly stronger. Up to the present writing nothing has been sold to fairly test values, and a quotation is merely nominal, but the few receivers who have had anything to offer asked \$369.825, and owners of the stock piled out refuse to negotiate at the above inside figure. The very small current arrivals, and the probability that what few cargoes are known to have started for this port are either lost or detained by the late storm, generates a feeling of much confidence among sellers, the more so when it is almost certain that the production has ceased for the time being, and that there is no old accumulations now left to draw upon. The consumption is fair, and not falling off to being, and that there is no old accumulations now left to draw upon. The consumption is fair, and not falling off to any extent, and every day reduces the supply in the hands of dealers: but they in most cases hold enough of previous purchases to meet the calls of their customers, and naturally will not come into the market to restock until absolutely compelled to. This accounts in a great measure for the present apathetic condition of trade, but it is hardly possible that the position can be maintained very long. No important sales reported.

No important sales reported.

LIME.—The consumptive inquiry for both grades has of late gradually fallen off, and dealers in consequence are not very eager buyers; but the current receipts of Rockland stock are now so smail that all the cargoes coming in are placed without difficulty, and command full former rates quite readily. In fact, the general tone of the market appears very strong, receivers gaining nuch confidence since the recent destruction by five of some nine or ten kilns curtailed the production materially, and manufacturers are shipping to Lastern and even Southern ports at rates relatively much above those to be obtained here. An increased demand from jobbers, to stock up for the fall trade, may also be looked for at an early day, and as this will, if anywhere near the ordinary average, tuly counteract the anticipated larger arrivals, those who ought to know predict that an advance will soon be established. Common

lime is still the most desirable, though a market is found for all the lump received. Of the Northern limes the supply is very small, the production not materially increas-ing, and all lots offered find a pretty quick sale at extreme prices. In fact, most of the leading have sold ahead up to the first of the coming month, and will not enter into fresh engagements for the present. We quote all kinds at \$1.50 per bbl. for common, and \$1.75 do. for lump. The receipts reported coastwise for the week embrace only five cargoes.

LUMBER.—A few of our retail dealers report a fair trade, but none any unusual activity on fresh orders; and taken as a whole the volume of business is certainly no larger than last week. We learn of two or three unimportant out-of-town orders for choice grades of stock, but this outlet is too small and uncertain to warrant any other portant out-of-town orders for choice grades of stock, but this outlet is too small and uncertain to warrant any other attention than such as may be necessary to secure the calls as they come to hand, and the main dependence of sellers is still upon the wants of local manufacturers and builders. The first-named class of buyers continue to operate on the hand-to-mouth principle, few if any taking more goods than can be put to immediate use; while the latter, though occasionally requiring something fresh for special purposes, are receiving a large proportion of their present supplies on previous contracts, in some cases made very early in the spring. The current arrivals do not appear to be very large, probably rather below last week, but are nevertheless in excess of the sales, and the supply in yard is gradually augmenting. Still there is no excess of stock, and should business suddenly improve and the demand become general there would prove to be a scarcity of some of the most desirable grades. This is particularly the case with spruce and hemlock, of which few dealers have been enabled to secure enough at the regular sources of supply to fully satisfy themselves. Oak, ash, and white wood, and good to prime black walnut, may also be mentioned as far from abundant and generally considered as desirable stock by holders. Common and inferior walnut is plenty enough, and a great many odd lots would be closed out at low figures. From Albany we learn that trade continues quite active, and about equal to the supplies, with a generally healthy tone to the market. Dealers there appeared to have particular confidence in hemlock, spruce, and most hard woods; while on pine the feeling was somewhat unsettled, a few operators predicting an early decline, others thinking this change not likely to occur unless a liberal accumulation of stock should take place, but none were looking for any advance. Whatever changes are developed it is probable our market will sympathize therewith.

place, but none were looking for any advance. Whatever changes are developed it is probable our market will sympathize therewith.

We have again to note a comparatively dull wholesalo market, owing mainly to the absence of supplies, though there cannot be said to exist a remarkably brisk demand from any source at the moment, nor any anxiety on the part of such buyers as do present themselves, unless the stock show unusually good qualities. Local dealers take most of the goods changing hands, but a few parcels have been forwarded to points some little distance outside the city. Prices show no important variations, but the small supplies give holders the advantage, and former figures are well supported. The export demand at present at this port is moderate and confined mainly to small parcels, but there is a fair amount of stock loading on previous contract, and dealers look for a renewed activity later in the season. The supply of Eastern spruce has fallen off very materially since our last, and though the demand shows no important increase, all the cargoes, if at all good to prime, have been placed by receivers with little or no trouble, and former rates in nearly every case obtained. The exception are mainly small and undesirable stuff which was considered better sold than held, and if quoted would afford no idea of values. Our local dealers have taken pretty much all the stock as the majority have now piled away previous purchases, and not a few begin to find their stocks undergoing some slight reduction. We quote at \$29.25@ \$22.50 per M for choice and fancy do. All accounts from the Eastward agree that the remaining stock is small, and the production almost entirely suspended; and this imparts very great strength to sellers, and emboldens buyers to operate, whenever anything desirable is offered. White pine continues moderately active on the general run of stock, the demand mainly on home account, though a few dod parcels are occasionally picked up by shippers, when offered cheap or if the quality happens to

We notice shipments as follows: To Hamburg 70 logs black walnut, valued at \$1.999; to Cuba 2 logs Maple, valued at \$385; to Liverpool 1.200 staves; to London 2.400 do; to Glasgow 3.600 do; to Bordeaux 14,040 do; and to Hamburg 6.000 do. The receipts reported are as follows: From Jacksonville 160,000 feet lumber; from Savannab 207 pieces lumber, and from Musquash, N. B. 460 spruce spiles. We note charters as follows: a barque, 419 tons, to Montevideo, lumber, \$17 gold; two barques from Montreal to Liver Plate, lumber, \$20; and a brig, 177 tons, to Key West on private terms, and back from Minatitlan with mahogany at \$12.

The exports of lumber have been as follows:

The Chicago market continues slow, stocks are accumulating and a generally heavy feeling prevails, with frequent concessions granted on medium and common grades. A few of the most recent sales are as follows: From Duncan City, 245 M ft. mill run, sold by qualities at \$9 00 for culls, \$15.00 for common, \$30.00 for clear strips, and \$36.00 for wide uppers; from Manistee, 125 M ft scantling and joist at \$11.00 for short lengths, and \$14.00 for long; from Oconto, 190 M ft. boards and strips at \$13.75.2-inch at \$10.50, lath at \$2.00, and pickets at \$8.00; from Monistique, 200 M ft. strips and boards at \$12.50, lath, \$2.00, and pickets, \$8.00; from Manistee, 60 M ft. by qualities at \$10.00 for culls, \$18.00 for common, and \$36.00 for uppers, hold full of scantling at \$10.50; from Oconto, 200 M ft. strips and boards at \$13.75.2-inch at \$10.50, lath, \$2.00; pickets, \$8.00; from Muskegon, 140 M ft. scantling and joist at \$11.00.

A recent report on the Detroit market says:

pickets, \$5.00; from Muskegon, 140 M ft. scantling and joist at \$11.00.

A recent report on the Detroit market says:

With the month of August what is known as the "dull season" ended, and the time has arrived when a more active trade is usually realized. The summer, and in fact the whole scason, has been an unfavorable one for our manufacturers, and trade has been unsatisfactory, The aggregate movement of lumber has shown, perhaps, no diminution, but the prices realized have been low. Stocks have been liberal, and rather than allow accumulations buyers have been favored in terms, and values all through the year have ruled lower than usual. In this respect there is no improvement to note, and none is anticipated during the fall trade. Buyers, however, are again more free in their calls, and the market has manifested an increased vitality within the past week or ten days, although the volume of trade is not large, nor what it probably will reach within the next thirty days. Of clear stuff and dressed lumber, a larger amount is moving Eastward, while house lumber and common stuff is being taken rather more freely for the in erior markets of our State. One or two of our manufacturers are realizing quite a fine trade in shingles with the Eastern markets, and several consignments of these, with dressed lumber, have been shipped direct to some of the New England markets by Blue Line cars. Lath are low and are a drug in the market.

market.

A few sales at St. Louis are as follows: Sales in the water—1,500,000 ft. Chippewa, part to arrive and part on previous contract, at \$16. On Bank—600,000 Chippewa at \$17,400,000 common Wisconsin at \$17.50; 250,000 fair do. at \$19; 500,000 good do. at \$20; 400,000 at \$21; On Raft—25,000 pickets at \$14, and 200,000 lath at \$2.50. At 1hepot—Une car common green and dry Y. P. flooring at \$15; 1 do. dry at \$20; 3 good do. at \$26.75; 5 do. choice \$25; 2 do. at \$32; 4 fair green \$28.50; 4 do. dimension \$15. On Lovee—12,500 ft. good black walnut at \$35; 2,500 clear poplar boards (1% inch) at \$35; 55,000 good do. (inch) at 25 % M. (inch) at 25 79 M.

All the Eastern advices report strong markets, and a great scarcity of goods, with a very small proportion of the mills able to work, those using water for want of power, and those using steam for want of logs, large numbers of which are now hung up.

Surveys at Boston for the week ending Sept. 10, 1869, were as follows:

Domestic Lumber.	Feet.	For'n Lumber.	Feet.

Wilmington quotations as follows:

Last sales:

Oressed Flooring, seasoned. M. ft. 18 00@20 00

Scantling and Boards, common. M. ft. 15 00@20 00

METALS.—Copper sheathing continues in moderate demand at about former rates, but the supply is liberal, and holders in some instances are willing to shade prices a trifle in order to effect sales. We quote at \$29.35 per lb., according to quantity. Yellow metal dull at 27c.@2c. For ingot copper the demand is very light from all sources, and prices have further declined, closing unsettled at 293/ @223/c. Scotch pig iron has been rather dull, the demand calling for only small job lots as wanted for immediate use, and the market somewhat heavy, though a decline was prevented by the comparatively small supply. We quote at \$35@\$\frac{1}{2}\$ per ton. American pig iron selling very slowly, but the moderate arrivals and light accumulation of supplies in first hands give sellers the advantage, and prices are sustained. We quote at \$40@\$\frac{1}{2}\$ per ton for American No. 1, \$35@\$\frac{1}{2}\$ per ton. Selling quite freely; the recent advance appears to increase rather than diminish the demand, as is usually the case, and at the close full prices are current. We quote common bar at \$\$7.50@30 per ton, refined do. \$95@100 do.; ovals and half round, \$120@145 do.; band and horse-shoe, \$120 do.; hoop, \$125@180 do.; and rods, \$6.3-16 inch, \$100@155 do.; all less 5 per cent. Common sheet iron in fair supply, dull, and quoted about as before, say \$54@7c. for singles, doubles and trebles. Russia sheet dull, plenty, and values unsettled, at about 11 @12\(\frac{1}{2}\) &c. gold, assorted numbers. Domestic galvanized sheet is fairly active at 25@30 per cent. discount from list prices. Bar lead is quiet and prices a trifle weak, though not quotably lower, ranging at about 63@67/c. gold. Bar lead worth. \$\frac{1}{2}\$, and sheet, and pipe, \$9.20 net cash to the trade. Tin in slabs is in very good request at higher figures, and at the close the tendency is still rather upward. We quote in coin at \$2c. for English, \$2\(\frac{1}{2}\) &c. for

NAILS.—Cut nails continue to meet with a generally light demand from all quarters, but as the production has been greatly reduced, the stock does not increase at least, and holders are disposed to show considerable firmness. We quote at about 4½c.@4½c. Clinch are selling slowly at 6½c.@6½c. Other styles are selling at 38c.@40c. for copper; 27c. for yellow metal; and 18c. for zinc. The exports for the week are 240 pckgs., valued at \$902.

The exports for the week are 240 pckgs., valued at \$902. PAINTS AND OILS.—The wholesale market is moving to a moderate extent, but there is no general activity and less doing than last week. Prices as a rule are firm, but no higher, and the assortment has of late improved somewhat, with a stock of most of the leading grades about equal to the outlet. The jobbing trade is rather dull and the market reported by most dealers as somewhat unsatisfactory. In a few cases figures are modified a trifle, but the general tone is steady. Linseed oil has continued to sell rather slowly, but holders manifest a pretty confident feeling and prices are well sustained on all the leading makes. We quote at 98c.@\$1.00 in casks; and \$1.00@\$1.02 in bbls, from crushers' hands. The exports are 7 pckgs, paint valued at \$452; and 80 gallons linseed oil, value \$91.µ

PITCH.—From regular buyers there has been a fair steady inquiry, but aside from this we learn of very little activity, and the general market has a dull tone. Prices remain about as before, with some little desire on the part of holders to force off the common lots. We quote at \$2.75@\$2.85 for city; \$2.30@\$5 for Southern; and small lots very choice in a jobbing way from store, \$3.12½@\$3.15 per bbl. The receipts for the week are 220 bbls; since January 1st, 4.783. Exports for the week nothing; since January 1st, 3.702 bbls; and for the same period last year, 2.512.

PLASTER PARIS.—Considerable quantities of lump have again come to hand, but mainly on contract, and a large proportion of the cargoes have gone "up the river! and to other points outside this city. Our local manufacturers have entirely withdrawn as buyers the accumulation already on hand, and the stock yet to arrive giving the ma supply that is likely to more than meet all wants until spring. A large amount of land plaster has been made this year. Prices are quoted as before, but merely nomiral, say about \$4.250\particle 4.50 per ton for white; and \$3.00 do. for blue. Calcined has met with some \$3.00 do. for blue. Calcined has met with some constwise shipping demand beside the ordinary tradicularly, but as a whole the market is very slow, and values without regularity. Quotations on city range from about \$2.10 up to \$2.400\particle 2.50 per bbl., according to quantity, with country brands lower, and retail lots from jobbers hands somewhat higher. The receipts of lump for two weeks foot up some \$,180 tons. Shipments of 132 bbls. calcined to Cuba.

SLATE.—The recent Western demand for roofing slate SLATE.—The recent Western demand for roofing slate has fallen off somewhat, but is partially counteracted by an increased call on local and near by interior account, and as a whole the market is in a very fairly active condition. On prices, however, buyers retain most of the advantage, owing to the full and well-assorted supplies accumulated at all points, and the general disposition of holders to accept any reasonable cash offer. Quarrymen have givenup any idea they may have entertained of throwing larger supplies upon the market, and the production is now materially reduced. In fact, at some of the leading quarries there is nothing being taken out except mill stock, for billiard-table beds, &c., the trimmings from which, if there is time and labor unemployed, will be made up into roofing slates, but such lots have_t) be made up to await a market.

SPIRITS TURPENTINE.—There has been nothing doing for export during the week, the great scarcity of freight room preventing shippers from operating. From the home trade, however, the call has been quite steady and exceeding the arrivals; the already light supply is further reduced, causing some advance in values and a strong feeling among holders. As we close there is some little irregularity, but no important change either in favor of buyer or seller. We quote at 431@44c. for merchantable and shipping order; 44@44/c. for New York bbls; 44 @45c. for small parcels, and rotail lots from store in proportion. Receipts for week 752 bbls; isnce January 1st, 48,208 bbls. Exports for week nothing; since January, 1st, 16,135 bbls, and for the same period last year, 15,741.

TAR.—There is not much demand for large parcels, but in a jobbing way the sales exceed the supply coming in, and the stock in first hands is further reduced. The assortment is fair, though a few more choice grades could be placed to advantage. Prices as before, but firm. Exporters are unable to secure freight room and buy nothing at present. We quote at \$2.75@\$3 per bbl for North County as it runs; \$8.25@\$3.50 for Wilmington do; \$8.25@\$3.75 for rope, and occasionally \$8.372@\$4 for something very choice in a small way. Receipts for week 600 bbls; since January 1st, 59,020 bbls. Exports for week, nothing; since January 1st, 30,046 bbls, and for the same period last year, \$948.

ALBANY LUMBER MARKET.

The Argus' report for the week ending September 14, 1869, says:

Since our last report there has been a good healthy trade throughout the district, both in regard to sales and shipments. The receipts have been large, though principally from the Erie canal. The supplies of coarse lumber are light and stocks have become much reduced. The advance in canal freights has a tendency to stiffen prices, which are firm for all descriptions. We think all the houses find they have a more active business than at this time last year, and that the indications are that it will continue to the close. the close

It will be seen that the receipts at Buffalo and Oswogo

The receipts at Chicago for the week ending Sept. 11th, were 83,248,000 feet, against 25,559,000 feet for the corresponding week last year. The shipments for the week, 13,619,000 feet, against 15,346,000 feet for the corresponding week in 1868. The aggregate receipts since January 1st, are 675,791,000 feet, against 702,123,000 feet in 1868. The aggregate shipments since January 1st, are 433,952,000 feet against 369,770,000 feet in 1868.

The shipments from the Saginaw River for the season to September 1st, were 285,220,000 feet against 256,934,000 feet for a corresponding period in 1868.

The following figures give the reported receipts at Buffalo and Oswego for the week ending September 11th, 1869 and 1868:

3,501,600 feet. 3,400,700 feet.

Total......16,115,100 feet.

5,902,300 feet.

BUY THE NEW ROOFING FELT!!! BUY THE NEW ROOFING FELT!!! PATENT ARTICLE OF GOOD THICK-

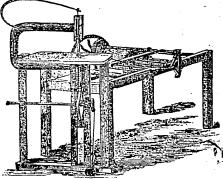

PATENT ARTICLE OF GOOD THICKness and durability, suitable for roofs of wooden and
brick buildings—can be applied by an ordinary mechanic.
Can be used without gravel on cow-sheds, or out-houses,
which makes it more economical than any other material
used. It comes in rolls of good width and length. Sold
in quantities to suit purchasers. Buy it in preference to
the thin paper felting cemented together.
To House owners and Builders—Buy the Patent Felt for
lining the walls of every house you are building. It is
a perfect security against dust and dampness, it keeps
out the cold of winter and heat of summer, thus preserving an even temperature in your residence. It ought
to be put under the slate of every roof to prevent leakage
from snow. Cheap and durable. For sale in quantities to
suit purchasers.
