NEW YORK.

All kinds of Iron Work for Buildings; Railings, Stairs, Baiconies, Shutters, Doors, Bank Vaults, Fire Escapes, Anchors, Columns, Lintels, etc.

## MAGRATH'S COPPER SASH-CHAIN.

PATENTED 21st MARCH, 1871,

Is adapted to ordinary round pulley, and strong enough to suspend weights of any, size re-quired.

Being intended as a substitute for sash-cord, it can be put into sashes now provided with cord without any change of pulleys. The inventor feels confident that experience will prove his chain to be both economical and durable, besides doing away with the constant annoyance and expense put into sashes now constant annoy-ance and expense attending the use of sash-cord.

For terms and further information apply to M. MAGRATH, Patentee, Carpenter and Builder, 74 Irving Place, New York City.

& M. CHAUNCEY, 207 MONTAGUE Street, near Court Street, Brooklyn, Brokers in Real Estate and Loans.

We have for sale and to rent desirable buildings and build-ing sites in all sections of Brooklyn.

## - ADAM 'HAMPTON'S SONS.

MANUFACTURERS OF GRATES, FENDERS, & FIRE-PLACE HEATERS,

No. 60 GOLD STREET. (Bet. Fulton and Beekman Sts.)

NEW YORK. Established 1826.

## REAL ESTATE RECORD

AND BUILDERS' GUIDE.

Vol. IX.

NEW YORK, SATURDAY, MARCH 9, 1872.

No. 208.

Published Weekly by

## THE REAL ESTATE RECORD ASSOCIATION.

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

No receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH OF THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

NEXT week we will publish an able review of the Canada lumber market, with interesting statistics, compiled by our regular correspondents, Messrs, Carbray & Routh.

#### THE COMMUNE IN NEW YORK.

WE alluded some time since to certain wild propositions put forward by the Internationals of this city, and remarked that, after all, it would, perhaps, be wise if property-holders and capitalists would examine those ideas, and see whether some of them at least were not worth consideration. We specified at the time the proposition for free markets, for free gas, and the assumption by the city of all the intra-mural street railroads and the ferries. Curiously enough, the subject has been reopened by the Internationals themselves, who one day last week waited upon a committee of the Board of Aldermen and urged the adoption of these very three points.

Now we tell our men of property frankly that, if they will be wise in time, they will endeavor to placate that great mass of propertyless, landless, practically homeless voters who are crowded here within the city of New York. These people have the suffrage; they give immense powers to the demagogues who lead them; their passions are fierce; there is no saying what they might not do. The Corporation Rings, which have from time to time ruled New York, have always made it their business to share the plunder with the leaders of the ignorant voters. In the immense and rapid growth of the city of New York, the necessity for new sewage works, for laying out sidewalks, for opening streets, and other public works, has occasioned the employment of an immense number of laborers; and it was by the power they gained over these men, through the disbursement of vast sums of money among them, that the Rings were able to control and plunder the city. But these public works cannot go on for ever. In the mean time, the great host of wretched, insatiable poor people armed with this right of suffrage goes on increasing, and their ranks are being largely

recruited from the hordes of emigrants who flock to our shores filled with all sorts of socialistic notions.

Let the property-owners, then, ask themselves the question whether it would not be well to try the homeopathic method, to apply the principle that "like cures like" for the remedy of these evils. In other words, why not give the people the free markets they ask for, and the free gas? Why not let the city assume the control of all the street railroads and the ferries, so as to give the people what would almost be free travel?

Since the very foundation of cities the municipal rulers have always reserved to themselves the right to build and control public markets. One of the most unwise schemes ever pressed upon our city government was the sale of the Market property. This was done in deference to certain doctrinnaire notions which have sometimes prevailed in regard to the limitations of the powers of governments; but the scheme always met with so much opposition that it never could be carried through. Instead of being destroyed, the market system ought to be extensively developed through our city, the municipal authorities, in the interest of the people, exercising a very sharp control over the dealers and their wares.

It is admitted on all hands that the Croton Aqueduct Department has been an unmixed benefit to the community; that, had the water been in the hands of a company, as the gas is, there would have been no end of just complaints on the part of the public as to the way in which they were supplied with this necessary element. It is, of course, to the interest of gas and railroad companies to make as heavy dividends as possible on the capital invested. This is the cause of bad gas and over-charging; this is the cause of dirty, ill-ventilated cars, over-crowding, and all the miseries to which our travelling public in this city is subjected.

The control of a gas department would be no more difficult than the control of a water department now is to the city. The markets we have already; all that is necessary to be done is to increase their number, extend their area, and so arrange it that free public accommodation could be offered to dealers coming from the country, who would be thus enabled to sell directly to the consumers, without the intervention of middlemen and jobbers. The control of the street railroads would not be a difficult thing under a proper civil service system. All the drivers and conductors could be made a section of the police force. Provision should be had for the sale of the tickets in all parts of the city, and no person should be allowed to ride unless he handed a ticket to the conductor on first entering the car. This would put a stop to "knocking down," fares could be

reduced to three cents, and everybody could be provided with seats, except, perhaps, during one or two hours in the course of the day. As to the ferries, they should all be perfectly free. There is no more reason why the people should not cross the river without payment than there is for their not paying toll for walking the streets. A ferry is but a bridge in another form, and a bridge ought to be a free thoroughfare.

If, in addition to these reforms, the city were to build the necessary steam transit lines within the limits of our municipality, it would save the masses of the people from the extortions to which they are now subject. Far better would it be for the city to do this than to leave the work to private companies, whose only aim is to get the heaviest dividends for the least possible outlay.

#### MARKET REVIEW.

BRICKS. -There is no change on the general market for Hard brick up to the present, so far as we can discover, everything still favoring the selling interest, and full former prices being obtained without difficulty. Supplies have

been brought forward to some extent, but the receipt was quite uncertain, and wholesale dealers were seldom willing to commit themselves to an agreement for delivery within any specified time, though enabled to find buyers for their cargoes even in some cases before vessels had become fully loaded and ready to start for the city. In fact, the demand is evidently in excess of the ability of the wholesale trade to furnish supplies, and the opinion is quite general that the nurket can hold its own until well on foward the new crop, though there is no doubt that ruling prices will stimulate manufacturers to hurry the production, and that just as soon as the frost is out of the ground work will be commenced. Before that time an increase of the supply may be looked for, however, as more vessels will be ready to resume their trips within a few weeks, and with the reopening of navigation stock will become available which at present is entirely blockaded by the ice. We can learn nothing very positive as to the amounts remaining at the points of production; but it is claimed that the lower yards have sent off nearly all their stock during the winter, and that the accumulation of desirable grades "up river" is small. Anything at all merchantable is quick at \$13, and it is certain that some buyers would pay more, but this would not be the rule, and sellers refrain from increasing the cost, as likely to somewhat restrict a free outlet. The Long Island manufacturers get cargoes through whenever they can, and find no difficulty in obtsining full as much as upon North River stock. From New Jersey a few irregular arrivals take place, with a pretty sure sale for all at about \$10 per M. Pale Brick in good, steady demand and prices firm, with sales mostly at \$8 per M, anything lower than this being for very common stock. Phinadelphia Fronts are without further change of importance. Those dealers who have stock on hand are quite indifferent operators, and in most cases ask full \$40@45 per M, while many refuse to sell at all unless immediate consumption. At the points of production preparations are making to commence work on a liberal scale the moment the weather will admit.

GLASS .- After many threatenings and various delays

GLASS.—After many threatenings and various delays, the importers of foreign window glass have at last made out and adopted a new price-list, which will increase the cost from twenty to thirty per cent. The reason for this improvement is embodied in a preamble, which states:—
"Whereas, The manufacturers of Window and Picture glass in Europe have been forced, on account of increased cost of material and labor, to adopt a new tariff, advancing prices; we, the importers, are 'obliged to make a corresponding change."

Then follows the revised list, which will be found in the regular table of market quotations on another page. This increase of cost seems to have rather a better basis than usual, and in addition to the higher prices abroad, importers are further strengthened by the comparatively small supplies on hand and prospective light additions. Still there is likely to be no actual searcity unless the demand very decidedly improves, the attendance of buyers now showing a moderate aggregate, with most operations confined to parcels suited to immediate and positive wants. The imports since January 1st embrace 70,604 pckgs. glass, valued at \$172,256; and 1,968 plate, valued at \$275,490. American glass has also been revised and advanced, partly in sympathy with foreign and partly owing to the increased cost of material. There is not much stock here, however, nor any great call for manufacturers distributing direct from the mills to consumers or interior dealers, and the bulk of our receipts going to the large manufacturers of sash, etc.

LIME.—The advantage of the position lays pretty much in favor of the selling interest, though probably not any more so than usual at this season of the year. Most dealers are working on very small accumulations of stock, and some are entinely out, and there appears to be a demand for about all receivers can bring forward, with competition enough among buyers to keep values on a full level. The Eastern grade has the preference, though dealers in a hurry for supplies frequently resort to odd lots of State lime to carry them through urgent necessities. There is said to be very little lime to come forward at present, and a free supply is not looked for until vossels are more plenty and navigation less hazardous, though during the week under review pay is not love to that vosets are noted by and more paying and applicable to the arrivals have been very fair. Prices remain firm at \$1.50 per bbl for common, and \$2 do for lump.

the arrivals have been very fair. Prices remain firm at \$\\$1.50 per bbl for common, and \$\\$2 do for lump.

LUMBER.—The position of affairs at the yards may be summed up in the somewhat stereotyped experession with many dealers, "dull and nominally unchanged." Now and then a little spurt of activity comes to relieve matters, but the demand is not lasting, and in the majority of cases the increased movement is due more to the fact of two or three buyers happening in together than to any actual increase of the desire to purchase. The call in the main is local, to meet the wants of a few manufacturers, or as builders may require stock to finish up, but occasionally an out-of-town order is received for small and choice selected parcels. Some grades of fancy hard woods and less plenty, and this, with common pine box boards, covers goods actually scarce, most of the yards still showing a very fair assortment still on hand. We retain former quotations as representing about average values, though some allowances should be made for quantity of stock handled, the terms of payment, etc., all of which have a tendency to throw some advantage in favor of either buyer or seller.

In a wholesale way the market has continued uncertain and somewhat uninteresting, though probably no more so than usual at this season of the year, when supplies are very doubtful. Just now, with the comparatively dull yard trade, dealers are not remarkaby anxions to purchase, even on the offering of extra fine cargoes, and it does not require much stock to make a surplus. Indeed, there is no latent strength to the position, and free offering would have a most decidedly weakening tendency. As to the contract business, there is undoubtedly something doing, but the majority of agents report the market as extremely dull, and buyers bids too low to admit of business on the limits furnished by manufacturers. Reports from the interior are still very "bullish," and a good many accounts seem to be pretty well supported by figures, etc.; yet there is a spirit

extant among buyers in this direction, leading them to move very slowly, and to feel hopeful that they may yet gain more favorable terms, notwithstanding the positive assurances to the contrary. Reports from the lumber sections speak of loggers coming in from the woods—some because there is not snow enough, and others because there is too much snow; but all accounts continue to agree upon an increased crop of logs ready and awaiting favorable spring freshets. The general export demand has in some cases become dull for want of available supplies, and because the rates asked are so high, but shippers still have orders to fill and merely await a good opportunity for operating.

Eastern Spruce has been rather more plenty, without any corresponding increase of the demand, and the market not altogether satisfactory to the selling interest. Most of the supplies have been marked off by good management, but prices were necessarily kept upon an easy level, and some lots were parted with pretty cheap. Advices from the mills indicate not only a firm, but a somewhat independent feeling among manufacturers, who, having been very successful for a number of years, and knowing their production to be below the general call, are but little disposed to allow havers to gain many advantages. We quote at about \$16 (2) 18 per M for inferior to fair, and \$18(2) 19.50 for good to prime. White Pine is without new features worthy of note, common boards remaining very scarce and very firm, and the finer qualities plenty enough for the prevailing demand, with no more than the average steadiness noticeable. We quote at \$31(2) 38 for good do; \$40 for pickings, and \$45 for selects. Yellow Pine continues in very good and pretty general demand, with prices firm, but a little more stock coming forward. We quote at \$25(2) 31 per M for random cargoes, \$52(2) 38 for good do; \$40 for pickings, and \$45 for selects. Yellow Pine continues in very good and pretty general demand, with prices firm, but a little more stock coming forward. We quote at \$25(2) prevailing for maple logs.

The exports of lumber are as follows: This week. Since Jan. 1. Same time '71.

#### SHINGLES.

In shingles there is an increase, which promises to be much larger than the current year (1872). A number of new mills were erected, among which may be mentioned those of John McGraw & Co., run in connection with mill J. R. Hall, Bay City, W. R. Burt (with mill), T. Saylor, at Carrrolton, Joshna Stevens, East Saginaw, E. J. Ring, and Hendrickson's mill, South Saginaw. The Ring mill run only a few months. Others are building.

Among those destroyed by fire were Burnham & Still, and Lathrop Inscho & Co.; since rebuilt. The Avery mill was taken down and removed up the railroad. The increase has been large in Midland county, where a number of new mills have been erected. The following is a comparative statement of shingles manufactured during the past five years:—

1867	90 983 000
1868	104.104.500
1869	119.843.500
1870	178,570,000
1871	187,691,000

With a proportionate increase in capital, and number of men employed.

#### OAK TIMBER AND STAVES.

The oak timber trade of the Saginaw district, already large, is growing rapidly, and within a few years will be scarcely less important than pine. The timber got out here is of a very superior quality, and is now being sought after by Canadians and European ship-builders. Our oak timber goes principally to Tonawanda and Quebec. That which goes to Quebec is mostly shipped to Europe, and all parts of the world. Prior to 1869, but little was done in the way of getting out oak timber here. Since then the following amounts have been got out and shipped:

	Cubic feet.
1869	765,000
1870	1.105,000
1871	1,982,000

Showing a large and growing increase. There was also got out and shipped 1,298,500 cubic feet of long pine for spars. This timber was gotten out nainly on the Saginaw river and its tributaries. Flint, Swan Creek, Sheboyganing, and Bad Rivers. A good deal of spar timber was got out

The stave trade last year (1871) shows a falling off from The stave trade last year (1871) shows a falling off from the previous year, owing to an over stock in eastern mar-kets, occasioned by the late war in Europe, and the difficul-ties in Cuba and the West Indies. The shipments of staves from the Saginaw river and Sebewaing for the seasons named were as follows:—

1860 to 1865 inclusive     3,000,000       1866     3,500,00       1867     4,919,06       1868     5,804,95       1869     3,720,00       1870     5,698,00       1871     3,820,00       1871     3,820,00		
1866     3,500,00       1867     4,919,06       1868     5,844,95       1869     3,720,00       1870     5,698,00	1860 to 1865 inclusive	3.000.000
1868     5,804,958       1869     3,720,000       1870     5,698,000	1866	3,500,000
1869 3,720,000 1870 5,698,000	1867	4,919,060
1870 5,698,000	1868	5,804,958
1871	1870	3,720,000
	1871	3 890 000

These staves are bought by agents located at East Saginaw. Saginaw and Bay City, representing eastern firms, and shipped by water, principally to Buffalo, and thence to New York City, where they are made in barrels and hogsheads, and in some instances shipped in the rough for

Europe.

The Saginaw Courier contains the following, also, upon the product of the shore:

The tables giving the product of lumber and shingles manufactured at the various points on the bay and lake coast, between the mouth of Saginaw river and Cheboygan, indicate no increase in both on these items as compared with the previous year, but gave no adequate idea of the general improvement in that district, which in the way of new manufacturing establishments, wharves, wharehouses, stores, churches, school-houses, public buildings, and private residences, is at least 50 per cent. greater than that of any former year.

any former year.

Our tables this year for the shore embrace the same

extent of territory as last year. The cut of mills, considering the circumstances, is better than expected. The log crop was considerably short, and a number of mills run only

crop was considerably short, and a number of mills run only a portion of the season.

The tables referred to show totals of 18 mulay saws, 44 circular saws, 19 gang saws; capital invested, \$1,444,000. Lumber manufactured in 1871, 124,400,000 feet; on hand, 9,136,000 feet; men employed, 1,042; lath cut, 17,084,000; on hand, \$20,000; logs in boom, 5,234,000 feet.

In the way of shingles, the Shore has a manufacturing capacity of about 150,000,000 per season, but in this branch, the short-ress of the log crop had its effect, as well as with the saw mills. In 1870 the Shore mills turned out \$9,800,000 shingles; and in 1871, \$8,582,000, showing a slight decrease.

UP IN THE PINES.—Messers. Sias, of Midland, and Burt, of East Saginaw, have built a mill on the Cedar river, a tributary of the Tittabawasse, about 25 miles north of Edenville, in Gladwin county, and homesteaders are gathering around the point, which promises to become one of some importance. We understand the mill has been running quite a little time, and has done very good work. The fine large farm of W. R. Burt lies but a few miles from this mill.

this mill.

Log Hauling—The Champions.—An "Eye Witness' furnishes the Saginawian an account of some log hauling done by Messers. Williams Bros., well known lumbermen. Their champion hauling was done Wednesday, Feb. 21, 1872, at their upper camp on Cass River, drawing the enormous amount of 14,468 feet of lumber in one load of logs, or rather two loads, drawn by one span of horses. In the load proper there were seven logs, which scaled 11,407 feet. Of these logs there were none but what scaled over and above 1,000 feet each. The largest scaled 3,126 feet, the smallest scaled 1,048 feet. The other logs which were loaded on another sled, and completed the great load, scaled 3,061 feet severally.

The scaling was done by the Hon. Geo. F. Williams, the senior brother of the firm. It was, without question, the largest hauling of logs ever performed; and there will never probably be such another—in the opinion of "Eye Witness."

A pine tree was recently out in Pierson camp, measuring 40 inches at the stump, was 150 feet in length, or a little over nine rods. They out 116 feet in length into logs, leaving the top 17 inches in diameter where the last log was sawed off.

Scale of a load of logs hauled by P. Carroll, at Copley & Wortham's camp, on the Muskegon, Feb. 17, 1872:—

Diameter.	Length.	No. Feet.
38 inches.	20 feet.	1.445
	20 ''	1,361
37 " 39 " 35 " 35 " 29 "	22 "	1,682
35 ''	24 "	1,441
35 ''	24 "	1,414
29 "	24 "	938
Total		8,311

The above load was hauled 21/2 miles by one team. Careful and reliable estimates place the total lumber product of Fish Creek this season at 40,000,000 feet. This will exceed the product of last year by about 10,000,000 feet, and is the largest crop ever harvested upon the stream. This amount will be divided as follows: Hubbardston, 6,750,000; Muir, 16,000,000; Ionia, 4,000,000; the balance will go to Grand Rapids and the lake. The stream will probably be filled to its utmost capacity, and log-runners will have to keep things moving pretty lively to get them all delivered

LUMBER AND LOGS.—There is not much doing yet in the way of lumber, and the market in this respect is not well defined. There is but little, if any, dry lumber to sell, and outsiders are holding back on green, waiting for the result of the lumbering operations of the winter.

Quite a number of log sales have been made. We reported on Sunday a sale of 1,000,000 feet Cass river logs at \$13. A.

T. Blackmore of Detroit has sold to Chicago parties 2,000,000 Cass river logs at \$12.75, and 2,500,000 Cass river stock to other Chicago parties at \$13. McCormick has sold to Philadelphia parties 1,000,000 feet of logs, Chippewa stock. at \$13.

A VAST AMOUNT OF LUMBER.—Logs to the amount of \$0,000,000 feet will be put in the Rabbit river by the opening of navigation. Never was there the prospect of the manufacture of such vast quantities of lumber as there is this season. These logs had to be manufactured into lumber to prevent them from being wormeaten.—Allegan Journal

ber to prevent them from being wormeaten.—Allegan Journal.

We obtain the following from Western journals:—
In the Wisconsin pineries it is estimated that nearly as much work has been done up to the present date as was ever done before in any entire winter. Probably not less than 300,000,000 feet of the forests of Black river and its tributaries this year, which is about 50 per cent. more than the largest log crop of any previous winter. On the Pople river, which is one of the tributaries of the Black river, about 80,000,000 feet have been cut this winter. Only about 1,500,000 feet of the pine lumber remained in the Black river forests at the end of 1871.

LUMBERING IN WISCONSIN.—The quality of the timber put in on the Wolf and tributaries this winter will not average so high as last season, but the amount of clear logs for manufacturers and shingle-mills will be largely increased. Old lands are being cut over for the third and fourth time even, which will bring a large amount of second-rate timber into market. If prices hold up under this stock, it will be fortunate for the loggers, as they will have in at least 25,000,000 feet more than the capacity of all the mills on the lake and rivers. the lake and rivers.

METALS.—Ingot Copper is in good demand at fully former prices, the market closing very firm. Manufactured continues firm. We quote: Ingot 28%@28%c cash, and up to 28%@28%c for March and April delivery: New Sheathing, 36c; Yellow Metal, 26c; Old Sheathing, 25%@26c. Scotch Pig has ruled excited and somewhat paniety under an improved demand, advices of an advance of four shillings sterling on the other side, an advance of 25 per

cent. on freights in view of the scarcity of available stock here. It is somewhat difficult to arrive at correct quotations in the present uncertain state of the market, but we understand \$45 is demanded for the commonest brands. American iron is also somewhat excited, and prices have further advanced, with holders very firm at the higher price. We quote No. 1, \$45; No.2, \$44 for extra, and forged[\$41.50@43. Refined Bar has been advanced from store, and closes very firm. We quote from store as follows: — Bar Swedes, \$117.50@127.50; refined, 1; do 6 by ½ and 5-16, \$107.50; refined, 2½ to 3. round and square, \$110@137.50; scr01, \$117.50@127.150; volts, and half round, \$115@133: band, \$112.50; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$12.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$12.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@150; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$112.50@122.50; rods, ½ to 3. 16 inch, \$105@135; horse-shoe, \$ abroad, Fig Tin has become excited and buoyant, and large transactions effected both for spot and to arrive, and prices close very strong at an advance. We quote in coin at 38c for straits, 38c for English, and nominally 42c for Banca. Plates are less active, the demand restricted somewhat by the scarcity of desirable sizes; but prices still rule very firm. We quote: I. C. Charcoal, \$11.50@12; I. C. Coke, \$10@10.25; Coke, \$8.75@9, and Charcoal Terne, \$9.75 @10.50. Sheet Zinc is quiet at steady prices. We quote at 10%@11c gold for Mosselmann from store.

NAILS.—The market shows very few, if any, really new features since our last. The cost and difficulties of interior transportation have a tendency to keep the demand within narrow bounds, as buyers will not operate beyond their most positive wants until the weather and other influences remedy the evil noted. There is some export inquiry and a few good-sized orders on California account, but they do not amount to enough to stimulate the market greatly. Still not amount to enough to stimulate the market greatly. Still holders in all cases are very firm, offer nothing in excess of the outlet, and seem to have full faith in the market generally. The stocks are slightly accumulating. The exports this week foot up large, but include purchases for several weeks past, and shippers just now are quiet. We quote per 100 lbs: cut, 10@40d, \$5.00: cut, 8@9d, \$5.25; cut, 6@7d, \$5.50: cut, 4@5d, \$5.75; cut, 3d \$6.50; cut, 2@3d, fine, \$7.25; cut spikes, all sizes, \$5.25; cut finishing, cusing, box, etc., \$5.50@7.00; clinch, \$6.50@7.00; horseshoe, forged, No. 10 to 5, per lb., 19@23c. Other styles are selling as follows: Copper, 42c per lb.; Yellow Metal, 26c do. 26c do.

Exports as follows :--Past week. Since Jan. 1. \$26,034

Exports as follows:—
Past week. Since Jan. 1, 1872. Paint ...... pckgs. 271, value \$4,124 1,423, value \$16,50!
Linseed oil, galls. — " — 811 " 738
Oxide zinc, pcks. — " — 811 " — —

PITCH.—There is little to note in this branch of trade; there is a moderate trade reported at steady prices. We quote: prime city delivered at \$4.87%, and \$5.00 for small lots. Receipts for the week, nil bbls; since Jan. 1, 225 bbls; same time last year, 50 bbls. Exports for the week, 28 bbls; since Jan. 1, 599 bbls; same time last year, 270 bbls.

SPIRITS TURPENTINE .- Has been very quiet all the SPIRITS TURPENTINE.—Has been very quiet at the week and with rather a weak feeling, but towards the close there was more inquiry and prices strengthend a trifle, closing at about 34½ @85c for merchantable order. Receipts for the week, 371 bbls; since Jan. 1, 7,752 bbls; same time last year, 7,510 bbls; Exports for the week, 140 bbls; since Jan. 1, 4,130 bbls; same time last year, 3,583.

TAR.—Under an improved demand and an advance at Wilmington, prices here are higher and held pretty firm at the appreciation. We quote at \$3.37%@3.50 for Washington, \$3.37%@3.50 for Newberne, and \$3.75 for Wilmington. Receipts for the week, 2,100 bbls; since Jan. 1, 6,646 bbls; same time 1871, 1,562 bbls. Exports for the week, 54 bbls; since January 1, 1,129 bbls; same time 1871, 776 bbls.

#### No one should Build or Live in a House

WITHOUT EXAMINING OUR

#### ELECTRICAL APPLIANCES.

without which no honse can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical annerstry. nished with this electrical apparatus.

## E. HOLMES' Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

#### HOUSE ANNUNCIATOR.

An improvement upon the French system. IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND AN-MOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY that operates the

## Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

#### TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES.

7 Murray Street, New York. 6 South Clark Street, Chicago, Ill. 1111 Chestnut Street, Philadelphia, Pa. 69 West Fourth Street, Cincinnati, Ohio. 205 River Street, Troy, N. Y. 121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.
