Nos. 345 AND 347 BROADWAY.

REVIEW OF MORTGAGE LOANS FOR 1877.

We now lay before our readers the first instalment of our criticisms upon mortgage loans made by institutions. It is our purpose in future to present periodical reviews of these loans with a view of determining the measure of conservatism which enters into the management of respective corporations. We claim no especial credit for undertaking to discharge this gratuitous and self-imposed task, and we certainly have no apology to offer to these institutions for thus intruding ourselves, pertinently, as we think, into their affairs. It has become well known to the public that the greatest abuses which have characterized our fiduciary institutions in the past, have been in connection with the investment of funds, particularly investments in mortgages. Gross and culpable frauds have been committed in this line of investment, which would have been quickly brought to light if, at their inception, such loans had been subjected to a searching and critical current review. These evil practices have already culminated in a series of disastrous failures of the institutions which indulged in them; and a strong reaction has set in in the management of surviving institutions, which promises to render their future line of policy severely cautious and circumspect.

As we claim to possess special and technical knowledge on the subject and to enjoy peculiar advantages for gaining information with reference to mortgage loans, and being in a position in which their careful review becomes a matter of habit as well as of duty, we propose voluntarily to assume the office of censor in respect to the mortgage loans hereafter to be made by savings banks and life insurance companies. We are careful to specify these two classes of institutions as the objects of our critical regard, for reasons which we will explain. For the most part, if not entirely, the funds of these two particular classes of institutions are voluntary deposits, made by the people at large for the benefit of dependent beneficiaries, such as surviving widows and orphans. Neither the creators of these trusts nor the beneficiaries of them are in positions to have any voice in their management or any hand in the direction of their investments. In the great majority of cases they have neither the aptitude nor the ability to watch or criticise the financial management of the institutions which they so implicitly trust.

In the most sacred and impressive sense, the assets of these institutions are distinctively trust funds, whose management calls for the most scrupulous and painstaking fidelity and watchfulness. In the past it has been customary for the typical corporate manager to regard these accumulated assets as his individual estate, with which he was at liberty to speculate and operate, making such di-

vision of the resulting profit, if any might accrue, as seemed to him or to his confederate board of directors to be fair and equitable. It is needless to say that this assumed prerogative was indulged to a criminal extent, and with such results as almost invariably attend continuous invoking of speculative chances—results which any prudent and experienced manager might easily have foreseen from the beginning and studiously guarded against. This line of corporate management, we are happy to believe, belongs wholly to past history. Existing institutions are probably being managed with more skill, care and scrutiny on the part of officers than were ever before exercised by them. The results of this new departure must show itself in future in the improved financial condition and unquestionable soundness of these various concerns.

We propose to lend our assistance in furthering this excellent practical reform. The reviews of loans, which we shall offer from time to time will be more in the nature of a comparison of opinions and judgments with respect to these corporate investments. If any cases shall arise, which may seem to evince the symptoms of vicious policies, we shall not hesitate to characterize and stigmatize them in becoming language.

After a careful examination of all loans made by institutions during the past year, we cheerfully bear our testimony to the fact that, as a rule, their managers are exercising commendable tact and assiduity in the selection of mortgage investments. Among the loans that we have selected for criticism, there is hardly one which may be set down as risky or at all likely to occasion trouble. The majority of them exceed what is universally regarded as the limit of absolute security in loans of this description. Yet the evidences of extreme caution are so palpable throughout the whole body of these loans that we anticipate, in future, that our office of critic and commentator may resolve itself into that of the mere eulogist.

With respect to loans made by individuals or by corporations wherein the stockholders are supposed to exercise a supervision over affairs, we have no occasion to intrude our offices. But where the helpless, the uninformed, or we might say the misinformed, are concerned, we claim the liberty of championing their rights, and extending over their interests the ægis of our watchful inspection.

MUTUAL LIFE LOANS.

The Mutual Life can well afford to stand criticism, since its proffer of free legal services in examining titles for loans ensures it a pick and choice of current applications.

These loans are based on well selected properties in remarkably choice locations, but we doubt whether any one could be rated as worth double the amount loaned, except in the owner's estima-

tion. With one exception, we should pronounce them all thoroughly safe loans, probably safer than fifty per cent. loans in poor locations.

EQUITABLE LIFE.

The Equitable does every thing on a grand scale, even to making its mortgage loans. It is difficult to rate these properties, they being what is termed fancy or gilt edged. Of No. 1 it may be said that a full front house and lot with extension on this street was recently sold for \$42,500, and a stable on Fifty-fifth street for \$20,000, according to which data this loan must be reckoned of three-quarter standard.

No. 2 is undoubtedly good, though a large investment.

No. 3 represents a fancy spot, hard to quote just now, but of great intrinsic value.

No. 4 is a class of investment difficult to criticise in the present times.

42d st, n s, 400 e 8th av, 75x98.9. (4 morts.).....	64,000

These are all liberal loans, too liberal to indicate conservative management.

No. 3 is fully two-thirds value.

No. 5 is three-fifths.

Nos. 9 to 18. It is generally understood that the twenty feet houses in this lot were sold at from \$28,000 to \$32,000; and the twenty-two feet from \$32,000 to \$35,000, hardly enough to justify such full loans.

Nos. 20 to 22. One of these houses was recently sold at \$33,000.

No. 23. On the basis of its published data, this loan can hardly be justified. The three full lots on which four houses were built are reported to have cost \$8,000 each, or \$24,000. Suppose them to be worth \$30,000 to-day. When applying for his permit from the Building Department, the builder specified the cost of each house at \$12,000, or \$48,000 for the four houses. Adding together the land and improvement values, we have a total of \$78,000 as the basis for a trust estate loan of \$64,000.

MANHATTAN LIFE.

15th st, n s, 220.6 w Av B, 100x103.3.....	\$15,000
5th av, e s, 27.2 n 76th st, 75x100.....	22,500

79th st, n s, extdg from 5th av to Madison av, 420x102.2.....	75,000

This staunch and well managed institution displays a partiality for vacant lots and out-of-the-way property. Loans can be safely made on such property, especially when accompanied with strong bonds, like the ones indicated in these transactions.

We would like to see our life insurance companies and savings banks eschew vacant property altogether, or else limit loans upon such security to very small amounts. It is one of the first principles of real estate investment that vacant lands should be held free from mortgage. Many institutions are now involved in speculations in vacant lots through foreclosures, with which they should never have been associated.

UNITED STATES LIFE.

Madison av, 75th st, P. M.....	\$15,000
75th st, s s, P. M.....	10,500
75th st, s s, P. M.....	10,500

These loans may be taken as two-thirds or three-quarters of present values. We believe they were made somewhat in the way of building loans, to enable the company to get rid of a vacant lot previously taken in under foreclosure.

GERMANY LIFE.

Alexander av, s w cor 136th st, 16.8x70.....	\$5,250
Alexander av, w s, 16.8 s 136th st, 50x70, (3 morts., each \$4,500).....	13,500
Alexander av, w s, 66.8 s 136th st, 60.8x100, (4 morts., each \$4,750).....	19,000
Alexander av, w s, 133.4 s 136th st, 50x70, (3 morts., each \$4,500).....	13,500
Alexander av, w s, 183.4 s 136th st, 16.8x70.....	5,250
135th st, n s, 70 w Alexander av, 15x68.8.....	2,500
135th st, n s, 85 w Alexander av, 15x68.8.....	2,500
136th st, s s, 70 w Alexander av, 15x68.8.....	2,500
137th st, s s, 85 w Alexander av, 15x68.8.....	2,500

These seem to us to be liberal loans in the annexed district, but the character of this excellent company affords a guarantee that ample security has been exacted. We have not yet informed ourselves as to values current in this new quarter.

WASHINGTON LIFE.

32d st, n s, 250 e 7th av, 50x98.9; 33d st, s s, 250 e 7th av, 50x98.9.....	\$20,000
--	----------

This appears to be a safe loan. The only criticism to be offered is that the improvements of the property constitute a specialty, being an abandoned brewery building remodelled for dance-hall and saloon purposes. We would hardly counsel the investment of trust funds in specialties. We will illustrate our objection by an example. The prominent institution which loaned a large amount on the Architectural Iron Works, and recently took in the property under foreclosure, may be compelled to embark in the puddling business in order to utilize this large estate. A word to the wise men who manage these institutions may be sufficient.

KNICKERBOCKER LIFE.

Hudson terrace, e s, lots 1, 2, 3, 4 and 5 Hudson Park map, Yonkers, 512.6x205.6x559.5 on Palisade av, x 200.4.....	\$50,000
---	----------

This appears to be a tolerably safe loan, though we are unable to discuss values in this locality. We question, however, the policy of investing trust funds in large amounts upon speculative suburban property, except with a far greater margin than borrowers are usually willing to allow. Occasionally such properties are taken in under foreclosure, and become an unproductive and expensive investment, besides being very much of a speculation.

SEAMANS' SAVINGS.

Amity st, s s, 75 w Sullivan st, runs south 115.5 x west 25 x north 25 x east 3 x north 90.5 to Amity st, x east 22 to beginning; 108th st, s s, 100 w 8th av, 100x100.11.....	\$10,000
---	----------

This loan may represent fifty per cent. or less of the value of the properties mortgaged, but the locations of these properties are different from what we supposed the officers of this sterling institution were partial to.

BLEECKER STREET SAVINGS.

Mulberry st (No. 195), w s, 25x100.....	\$12,000
60th st, s s, 215 w 2d av, 20x100.5.....	10,500
50th st, s s, 325 w 6th av, 50x100.4.....	27,000
3d av, n w cor 77th st, 25x90.....	15,000
56th st, s s, 325 w 9th av, 25x100.....	10,000
56th st, s s, 325 w 9th av, 25x72.4x25.2x75.5.....	8,500
56th st, s s, 250 w 9th av, 25.2x72.3x25x69.1.....	8,500
25th st (No. 210 W.), s s, 124.9 w 7th av, 15.6x 98.9.....	7,000
Gouverneur slip, w s, 20 s Water st, 60x 63.10.....	8,000

This venerable and reliable institution has distinguished itself of late years by making very liberal loans on city real estate. The long experience of its directors may have strengthened their confidence in the intrinsic worth of New York property. We think that a little more discrimination and caution might be infused into their selection of loans. The great strength and popularity of this bank may make this suggestion seem impertinent and superserviceable. Tenement houses of full sizes, well built and located, are considered good loans for from seven to eight thousand dollars; but when the lot dimensions are reduced the loanable amount should shrink in proportion, say, to five or six thousand dollars for a twenty-feet lot or thereabouts.

MERCHANTS' CLERKS SAVINGS.

Warren st (No. 30), n s, 25.3 w Church st, 25.2x 101x25.3x100.9.....	\$25,000
Delancey st (No. 330), n s, 25 e Goerck st, 25 x75.....	8,000
Delancey st (No. 328), n s, 50.1 e Goerck st, 25 x75.....	8,000
Delancey st (No. 326), n s, 75 e Goerck st, 25 x100.....	8,000
Delancey st (No. 324), n s, 100.1 e Goerck st, 23.11x100.....	8,000

No. 1 is greatly in excess of the fifty per cent. standard.

No. 2 would be good loans at five thousand dollars on the short lots and six thousand dollars on the long lots.

GERMAN SAVINGS.

88th st, s s, 286.8 e 4th av, 102.2x102.2.....	\$10,000
Bowery, n e cor Hester st, 25x100.....	27,000

These loans fail to conform to the fifty per cent. standard. In either case the improvements are of little value, and the bare land we fancy could hardly be rated at the amount of loan. As this institution is noted for its cautious and conservative management, the loans may be taken as illustrating variety in taste and opinion respecting mortgage security.

UNION DIME SAVINGS.

83d st, s s, 301 e 4th av, 21.10x102.2.....	\$5,000
14th st, n s, 25 w 7th av, 25x96.....	15,000

These loans may seem unworthy of special criticism, but in each case the amount loaned is more than fifty per cent. of value. As these were the only loans made by this institution upon city

real estate during the year, we accept them as indications of a past policy. The new management can best fortify the confidence of the public in their bank by adhering in all future mortgage loans to the most conservative and exacting standards of such investments.

BROADWAY SAVINGS.

53d st, s w cor 7th av, 170x50.5. (10 morts., each \$6,000—error in No. 5).....	\$60,000
--	----------

These mortgages are upon property in course of improvement, the buildings having been under way for nearly two years, and now not nearly completed. The loan would be fair enough if the buildings were finished.

We must condemn the policy of fiduciary institutions mixing their funds up with speculative building jobs. It involves a class of risks altogether foreign and inimical to the nature of their trusts, and frequently leads to losses which the trust estate cannot afford to bear.

CITY CHAMBERLAIN.

Boulevard, e s, 77.5 s 78th st, 25.10x30.5x25.6x 34.1.....	\$3,924
Eastern Boulevard, s e cor 86th st, 102.2x73.6. Feb. 28, 1 year.....	35,000

85th st, n s, 194 e 1st av, 12.6x102.2.....	4,061
86th st, s s, 275 e 2d av, 12.6x102.2.....	4,186
86th st, s s, 287.6 e 2d av, 12.6x102.2.....	4,186
83d st, No. 111 East, 25x102.2.....	2,487

These loans are deficient in that ample margin of security which the investor of trust funds should rigorously exact. If we are not mistaken in one or two instances the loan represents the full market value of the property. The properties, with one exception, are located at such remote distances from the centre of the city as to render appraisements difficult. We are at a loss to conceive why the Chamberlain should persist in accepting mortgages in the outskirts of the city when desirable ones can be obtained on properties centrally located. We should be sorry to think that Mr. Musgrave's excellent advice is to go unheeded.

AVAILABLE LOTS IN THE FASHIONABLE QUARTER.

In casual conversation it is customary to say that the present fashionable quarter is full or nearly so; that all purchasable lots have been taken up by builders; and that the remaining ones are so held that little chance [or prospect is afforded of their being thrown upon the market. Speculative or random conjectures are poor staples of business enterprise; facts, well ascertained, are the best conceivable data after all. With a view of determining what amount of land is remaining unimproved in the fashionable quarter, we have made up a complete and accurate inventory of all the vacant lots situated therein, and present the result of our labors in the subjoined lists, which give the location, dimensions and owners name of every vacant parcel of land in this district.

From this table it will be seen that there are still upwards of four hundred vacant lots in this quarter, which is commonly esteemed to be fully improved. This is equal to nearly six solid blocks as large as those between Fifth and Sixth avenue, or to fourteen solid blocks as large as those between Madison and Fifth avenues. That is, if a section bounded by Forty-second and Forty-eighth streets, between Fifth and Sixth avenues, were vacant, such an area would represent the aggregate of vacancies now existing in the fashionable quarter. Or, if the district bounded by Forty-second and Fifty-sixth streets, between Madison and Fifth avenues, were vacant, there would be the same representation of existing vacancies.

This is altogether too great a body of vacan-

property to be lightly dismissed. It is probable that very few persons take real pleasure in holding vacant and unproductive land. The inducement to hold property at all is generally that of realizing immediate or prospective income. If unimproved, the chance of great enhancement in value will indemnify the owner for his patience and self-denial in carrying it. But where such a prospect is wanting, or where there is a certainty that values will depreciate, then the holding of vacant lands becomes the most ungrateful of tasks. After the acme of values has been passed without successful realization, continued holding only tends to aggravate the situation, and but two sensible and practical alternatives present themselves to owners, viz.: to improve and thus ensure income, or to realize the best attainable price and re-invest in productive securities. Already there have been exhibitions of weakness on the part of owners, who were esteemed to be strong, and of a commendable willingness to offer lots for improvement, which have been studiously withheld from market for many years. There are also rumors in the air of a partition sale in the case of a well known estate holding a large body of valuable lots, which promises to offer the opportunity for making purchases at current market rates.

We have scrutinized the subject matter of our list, including both localities and names of owners, with a view of determining the prospective consumption of these lots. If we set aside twenty-five per cent., or one hundred of them, as likely to be reserved by their owners for ultimate improvement in a way to suit their own taste, there will still be left over three hundred lots, which are likely at some time to be offered for sale. Now the day for speculation in them has gone by forever. The high prices, at which they have been held, have precluded any idea of speculative ventures except in connection with building projects. A few capitalists have of late evinced a disposition to make use of these lots in connection with building loans. But, as such jobs have proved notoriously unprofitable, we fancy this use will become very limited in future. The chief market for these lots must be found with legitimate builders, and with such speculative builders as operate with their own capital.

The outcropping of private orders for the erection of dwellings has been exceedingly small of late years. Probably not more than ten or twelve such orders have been given during the last four or five years, so that legitimate builders have scarcely found any satisfactory employment in this quarter during that period. The speculative builders, with and without building loans, are the chief consumers of these lots. For the last five years their consumption has not exceeded thirty to forty lots per annum, but even supposing that the highest number will be the rule in coming years, the present stock of three hundred salable lots would furnish materials for seven years' consumption. So that, if these lots are steadily offered by their owners and are regularly taken up by builders, it will take all of seven years to complete the building improvements of the fashionable quarter. Instead of the demand for these lots growing greater, we imagine it will really grow less, as with growing scarcity there will be a disposition evinced on the part of owners to exact higher prices, and this will naturally drive the more timid builders into the new district above Fifty-ninth street. In fact, there is a danger that owners of these remaining lots may, through infatuation or mania, so stilt their asking prices as to deter any speculative builder from attempting to purchase them, in which case the final improvement of this quarter will be indefinitely postponed. The stock is certainly large enough for present purposes, and the fig-

ures are calculated to dispel the idea of any actual scarcity now existing. It will be a proper and legitimate study for the owners of this property to determine which horn of the dilemma they will accept—whether to build for themselves as an investment, or continuing to hold their lots in value above the responsive abilities of speculative builders, whether they will await the slow approaches of private individuals who may wish to settle in this quarter, and to erect houses upon contract to suit their individual tastes.

LEGAL DECISIONS.

LANDLORD AND TENANT.

The Albany *Law Journal* gives some notes of several decisions affecting the question of the discharge of the original tenant from the payment of rent by reason of such tenant's assignment of the lease and an implied acceptance thereof by the landlord. In the case of Smith vs. Niver, 2 Barb., 180, a lessor consented to a change of tenancy, and permitted a change of occupation, and received rent from the new tenant as an original, and not as a sub-tenant, and it was held that the landlord could not afterwards charge the first tenant for rent accruing during the occupation of the second one. But there must be an assent of the landlord to the assignment, and the acceptance of the sub-tenant by the landlord with the intent to substitute him in the place of the original lessee. Where, however, the original tenant has entered into an express covenant for rent in a lease he continues liable on his covenant, notwithstanding the lease be assigned over. In a recent case where the landlord brought an action on the covenant for rent in a lease against the original tenant who had assigned the same, and the lessor had accepted the assignee as his tenant, the Court held that the original tenant was still liable on such covenant.

MARKET REVIEW.

REAL ESTATE MARKET.

Following are some of the noteworthy transactions at the Exchange Salesroom during the week. By order of the Court, under proceedings in partition, the four-story brown stone house with lot (21x100.5) No. 155 West Forty-fourth street, was sold to William R. Bell for \$20,000. The premises known as Nos. 137 and 139 Madison street were sold by order of executors for \$13,500. By order of the Executors other improved property was sold as follows: No. 65 Spring street (25x78) for \$8,000; No. 64 Mulberry street (25x96) for \$8,050; No. 211 Hester street for \$5,000, and No. 213 West Fifty-third street for \$17,300. A full list of the foreclosure sales, with the prices realized, appears below. At private sale it is reported that Robt. W. Stuart has sold to Robert Hoe, Jr., premises No. 11 East Thirty-sixth street, lot 50x100.5,

house 37x70, and stable, for \$72,500. Jacob Campbell has sold to Mrs. Dr. Jno. C. Ayer house and lot No. 5 West Fifty-seventh street, 25x90x100, for \$70,000. Wm. Henry Smith has sold to Elihu Root house and lot No. 30 East Fifty-fifth street, \$27,000.

In our last we noted the sale of the leasehold premises No. 46 West Fifty-sixth street for \$21,000. This is a typographical error, as the figures intended to be printed were No. 46 West Fifty-first street.

During the week ending February 21, 1878, more activity has been shown in the Building Department. Plans for the erection of forty-five buildings have been filed with the Superintendent, at an estimated cost of \$230,250. Mr. E. Kilpatrick proposes to erect on Seventy-ninth street, between First and Second avenues, thirteen three-story brown stone front houses, and on Fifth street, between Second and Third avenues, Mr. W. P. Parsons intends to erect eight three-story brown stone houses, at a total cost of \$88,000.

The following are the sales at the Exchange Sales-room for the week ending Feb. 21:

Clark st (No. 5), w s, 48.2 n Broome st, two-story frame house, with lease of lot 24.1x75; ground rent, \$150 per annum, to Ellen A. Powles (plaintiff).....	2,550

Troy av, w s, 60s Herkimer st, 20x100, to Percival Vernon (plaintiff).....	500
Total.....	\$67,961

BUILDING MATERIAL MARKET.

BRICK.—There has been a better tone on the market for Common Hards, and somewhat higher prices are current. As a rule, buyers do not appear in any greater numbers, nor does the demand show an actual increase, and the improvement is in the main to be attributed to scant supplies, which have enabled receivers to retain sufficient control over the offering to insist upon better terms. All really attractive parcels of North River stock were worth \$6.00, and the receipts from Long Island were mostly placed at about \$7.5@6.00 per M. The movement of consumers continues to show pretty much the same general inclination to caution before referred to, and while receivers of course take advantage of any point of advantage, few, if any, are at all disposed to refuse attention when a good full bid is made. Present consumptive wants are below the average for the season, and the early tuture does not give promise of any great expansion to the outlet. Some few shipping orders have lately come to hand to help the movement, and we hear of sales for Galveston, etc. Pales have made quite a decided improvement. The supply is small; a number of buyers are quite anxious to obtain stock, and bids range up to \$3.50 for the best, at which the position, as we write, appears quite firm. Fronts have met with very little call beyond the ordinary movement of small lots from yard, but prices remain steady all around.

We quote Pale, p. M., \$4.25@3.50; Hards, Up-rivers, nominal; Haverstraw bay, \$5.75@6.00; favorite brands, \$6.00@6.25; Fronts, Croton—brown, \$7; dark \$8; red, \$9; Philadelphia, \$33@27; Baltimore, \$31@38.00. Yard prices, delivery included, \$2@3 higher on ordinary and \$5 @6.00 on fronts.

GLASS.—Buyers cannot be drawn out of the careful policy which induces them to calculate their wants down to almost a single light, and the demand develops slowly. Business, however, is improving, and this gives holders greater hope and tends to infuse a little more strength and uniformity on values, as during the dull season the "small favors" allowed produced some irregularity on the line of prices. There is a complaint over the provisions of the tariff bill as reported, many of its details proving quite unsatisfactory but hopes are entertained that heed will be given to suggestions forwarded to the committee by leading members of the trade, and the objectionable feature modified or removed.

HARDWARE.—Demand has been fair, and rather tends to increase with dealers becoming correspondingly cheerful. Buyers have been disappointing in their movements from many sections, but the necessity for laying in supplies gradually becomes more pressing, and the reflection is shown upon our wholesale market. So far the selections have shown the exercise of much care in the avoidance of all but standard goods, and it is probable that this policy will be adhered to this season as closely as last year. The issue of price lists is becoming less frequent, but occasional changes of some importance are heard of. The Russell & Erwin Mfg. Co. report a reduction in price of Russell, Birdsall & Ward's carriage and tire bolts to discount 70 and 5 per cent.; stove bolts, to discount 50, 10 and 5 per cent.; and plough bolts to discount 50 and 5 per cent. The price of Huffer's patent spring blind hinges has been reduced 10 per cent. They are now quoted at discount 40 and 10 per cent. from list. The Vulcan Saw Works have issued a revised list of changes lately made. The discounts

to the trade are, on circular saws, 30 per cent.; circular top saws, 30 per cent.; setting, sharpening and repairing saws, net cash; standard wire gauges, 15 per cent.; veneering saws or segments, net cash; mill gang and maulay saws, 30 per cent.; pit saws, ice saws and cross-cut saws, 30 per cent.; patent cross-cut saw handles, 10 per cent.; billet webs and wood saws, 25 per cent.; wood saw rods, 10 per cent.; chair and felloe webs, 25 per cent.; hand, back, butcher saws, &c., 25 per cent.; cabinet scrapers, plastering trowels and mitering rods, 25 per cent.; saw screws and handles, 20 per cent.; Fay's patent scroll saws, 35 per cent.; band saws, 20 per cent.

LATH.—The uncertain tone of the market has to some extent disappeared, owing to fresh arrivals and sales, upon which an idea of values could be obtained, and the result gives a fair endorsement to the previous claims of the selling interest. When the offering was made quite a number of buyers were found ready to negotiate, and not much difficulty appeared to be experienced in closing at higher rates than those current on last cargo sales; and there has since been sufficient demand to even still further strengthen the position. Reports on actual business consummated range at \$1.75@1.85, and the latter rate was generally quoted on our latest advices. It is but proper to note, however, that some of the principal jobbing dealers are not only off the market, but claim to be able to sell below the wholesale rate, and retain a margin for profit.

LIME.—No further changes have taken place since our last, the advance then noted being sustained without difficulty, and the market retaining a fairly healthy tone. Some further arrivals from the eastward came in and were readily placed, but dealers say the demand was not greatly in excess of the offering, and a full supply is not wanted. On State former rates are quoted, and the tone rules steady, but the demand is not quite so general as heretofore, and comes more within the limit of loc. wants.

LUMBER.—Our market drags along in much the same slow condition, and few dealers have anything very cheerful to report. More or less is doing in the way of contracts on special bills, but not to the extent hoped for and expected, and the sale of cargoes for export direct from the primary markets has fallen away somewhat. The sales to foreign outlets from stocks accumulated here is also a little slow and unsatisfactory, and can only be consummated at a comparatively low line of valuation, shippers receiving no encouragement to take hold freely, or to bid a good fair rate. We hear, however, of some reasonably full amounts going on board at present for the West Indies and South America, the latter including consignments to west coast ports. The local wants are limited, and promise no immediate expansion, the sources of consumption showing few encouraging features. The recent failure does not appear to have had any great influence upon the market other than the natural nervous tone such events always produce, and especially when trade is dull. Indeed, some of our dealers affect to be very little surprised over the difficulties of Mr. Adams, and comments upon the matter contain the usual crop of "I told you so's." We find a very general apathy over the question of the log supply, but where an opinion is expressed it seems to favor the belief that in view of the condition of business, present and prospective, the amount of sawdust is not likely to run so short as to seriously influence values on the coming season.

Eastern Spruce remains in rather a quiet condition. The odd cargoes dropping in from time to time are placed without much difficulty and command about former rates, but buyers are not over anxious, and receivers seem to think it is just as well they have no greater amount of stock to handle. It has been spoken of in a sort of complaining mood that some of our local distributors are selling this class of stock to consumers at a very light margin over cargo rates and thereby injuring the wholesale market, but if dealers so disposing of their supplies find profit and secure customers, it is not likely there will be much of a change until they sold out, unless business prospects very materially improve. The omission of Spruce from the tariff bill now before the Committee of Ways and Means, and to which we called attention last week, has not as yet been explained, but the impression seems to be that there was a "method" in it, through which the Canadian product will have to suffer. There should be, we think, interest enough among the trade, no matter what their desires may be, upon the duty question, to take proper measures for ascertaining the exact intentions of the tariff tinkers upon so important a subject. We quote at \$13@14 for random, possibly \$14.25@14.50 for choice lengths in small cargo, and \$14@15@15.50 for specials, the extreme for extra difficult.

White Pine has sold to some extent for export, and met with a moderate demand on home account, but does not reach a point of much activity. Supplies are fair, but not over large, and some dealers claim that in view of recent events the pressure to turn stocks into cash will be removed. We quote at \$15@17 per M for West India shipping boards; \$19.50@20.50 for South American do; \$15@16 for box boards; 17 for do wide and sound; and timber at \$16@18 per M.

Yellow Pine may be written about steady and selling to a fair extent on orders, though buyers are rather less plenty and show somewhat greater caution in bidding. Dealers and agents, however, report no reduction of limits from manufacturing points and no pressure to sell. We quote random cargoes at \$19 @22 per M; ordered cargoes, \$22@23 do; green flooring boards, \$21@23 do; and dry do do, \$22@24.

Cargoes at the South, \$14@16.50 per M; hewn timber, \$7.50@14.

Hardwoods meet with a moderate local call and find a few orders on foreign account, with a steady tone preserved on values. The market, however, as a whole, is without many new features. We quote at wholesale rates by car load about as follows: walnut, \$77@85 P/M; ash, \$36@36 do.; oak, \$35@40 do.; maple, \$30@35 do.; chestnut, 1st and 2d \$30@35 do. do., culls, \$16@20 do.; cherry, \$15@25 do.; white wood, 1/2 and 3/8 inch, \$25@27.50, and do. inch, \$22@23 do.; hickory, \$22@23 do. for Western, and \$10@15 for good nearby stock.

Yard dealers report little or no variation on the general situation. Demand is not very quick, but keeps taking out small lots to a fair extent on a basis of former rates, and business is about all that could be expected.

Among the recent business changes we notice that Mr. John H. Cannon, late of the firm of Simpson, Clapp & Co., has become a member of the firm of Watrous & Wilson and takes entire charge of their shipping department. To his new position Mr. Cannon carries experience, ability and popularity, and his partners are to be congratulated upon the acquisition to their firm. Messrs. W. R. Grace & Co. announce that they have purchased the stock of lumber lately held by Simpson, Clapp & Co., and have placed the same in the hands of Mr. Wilson Godfrey for disposal. Mr. Godfrey is well known to the trade and to shippers, and can offer special inducements on South American and West India orders.

GENERAL LUMBER NOTES.

THE WEST.

From the *Lumberman's Gazette* the following:

Bay City, Friday, Feb. 15, 1878.

The uncertainty which prevails as to what the coming log crop is going to be, has the effect of causing a considerable difference of views as to the value of lumber now on hand in this Valley. Buyers' views and those of seller represent different shades of opinion, the former thinking that the amount which may yet be got in will furnish sufficient stock for a fair cut of lumber at the mills during the next sawing season, and the latter holding that as the season is now so far advanced, it will be impossible to get in anything like a fair supply for next summer's work. The effect of this difference in opinion is to prevent sales. Manufacturers during the past week have refused offers of \$6, \$12 and \$28 for good fair stocks, preferring to wait and take chances on a rise in the market. The weather for the next thirty days will have a very important effect in settling this question.

More or less snow has fallen during the past week in some of the Michigan lumbering regions, but in none of them has it fell to any great depth, or in sufficient quantities to make good hauling. In other places there has been scarcely any snow, and the prospect, as far as loggers are concerned, is not a cheerful one. From the various reports to be found in this issue of the *Gazette* it will be seen that the lumbermen are not very hopeful of getting in all the logs now skidded, and unless there should be a very radical change in the weather no doubt many of those cut will lay over for another season.

The following quotations cover the range of prices at which stocks are held:

Three uppers.....	\$26 00@30 00
Common.....	11 00@12 00
Shipping culls.....	5 50@6 00
Lath.....	1 15@1 25
Shingles, river mills.....	2 75
Shingles, country mills.....	2 40@2 60

The *Gazette's* Chicago correspondent says:-

There is little difference to note in the market or the demand from last week, save possibly the growing feeling of faith in the future. The demand is still steady and heavy west of the Mississippi and from distant points that have not been in the habit of buying in this market largely heretofore.

A great deal of snow has fallen during the past week in many parts of the country, but the generally mild weather prevailing all over the lumbering districts and the lateness of the season dispels the thought of much benefit from it, unless we should have from this on an exceedingly cold and backward season. Operations are being pushed in the woods to the utmost, and in many camps work is continued day and night and every expedient resorted to in order to facilitate work, even to the hauling of ice and pounding it in the road, the dumping of snow on the bare places, &c., &c. The lumberman as a community is mighty hard to head off. There is no such thing in the book as fail, and, if a possible thing, he will get in his work. You bet!

In some grades stocks are getting quite low here, but we have every indication of an exceedingly early opening of operations and navigation, and if so stocks will hold out pretty well, notwithstanding the strong and continuing demand from near and remote points. I think there are few holders of merchandise in the country who feel better to day than the lumberman who has a large stock of dry lumber on hand, for it is far better than gold or government bonds, with the present prospects of devaluation and appreciation of prices.

Editorially the *Gas* says:

There is no longer any doubt in the minds of the best informed lumbermen that the stock of logs which will be put in the Northwest during this winter will not be a full one. The most sanguine loggers do not expect over a two-thirds crop, and the estimates vary from that down to much lower figures. With a short supply of logs for next seasons' sawing, and stocks at most lumber markets less than they were a year ago, there can be no reason to doubt that prices of lumber will rule considerably higher on the opening of busi-

ness in the spring of 1878 than they did in 1877. Stocks at all points on the Mississippi river are short, compared with which deficiency the excess at Chicago at the close of navigation was a mere bagatelle. In the Eastern lumber markets there is about the same state of affairs, excepting perhaps at Albany, although the deficiency is not so marked as at the West. The sources of supply in this State have a somewhat larger amount held over than a year ago, but as compared with the usual amount of lumber handled during a season it is not enough to have much weight upon the market. As the country generally is in a more prosperous condition than it has been for some time past, there will be an increased demand for lumber this year. Coupling this with the probability that the amount to be manufactured this coming season, will not be as large as last year, the manufacturers can very safely figure upon a larger margin of profit upon the product of their mills than they have netted for years past.

Our correspondent at Albany sends us the following statement of lumber on hand in that city and Troy, N. Y.:

	Albany.	Troy.
Pine.....	69,517,000	26,000,000
Hardwood.....	3,615,000	1,250,000
Spruce.....	16,975,000	3,000,000
Hemlock.....	5,457,000	2,500,000
Total.....	95,621,000	32,750,000

The excess at Albany over last season amounts to \$221,000 feet.

The *Marinette Eagle* says:

Notwithstanding what might be termed the unfavorable conditions, the Peshtigo Company are making good progress in their logging operations. Including the stock left over from last summer, they had 20,000,000 feet of logs on the banks last Saturday, and by the end of this week would have 3,000,000 feet more added to those figures. This would only leave 12,000,000 feet more to get out, to reach the amount they want—35,000,000 feet—and with cold weather this will be accomplished by the middle of March. Wherever practicable the Company are changing their crews from long hauls to short ones, so as to put in every stroke of work to the best advantage. Many of the small jobbers, who have long hauls, are unable to do anything at length their roads on account of the expense, and will have to trust to snow for any chance to get them out to the banks. The outlook for them is anything but cheerful.

The *Muskegon News and Reporter* says that the lack of snow has lessened the calculations of the mill men there so that they will be satisfied with three-fourths of the quantity they originally calculated on. This amount is probably cut in the woods and most of it skidded, consequently, if there is any show for putting in what is cut the mills will be comfortably stocked.

From the *Eau Claire News*, Feb. 9th.

Up to the present writing the weather continues mild and beautiful. It is even more spring-like than it has been any time during the winter. The channel of the Chippewa is open, the roads are dry and dusty, no snow is visible, and the general appearance of things would lead one to suppose that we had entered on the last half of April; in fact, the weather is really pleasanter than we usually get in that month.

Of course, this interferes very materially with the work of the loggers in the woods. So far they have worked in the face of great discouragements with the determination and pluck which would give them success if they only had a half a chance. They have made roads to some extent by hauling snow and using sprinklers at night, which have enabled them to work on short hauls with drays, or "go-devils," as some call them, so that most of the camps with timber on the banks of the streams, or very near them, have been enabled to do something in the way of banking, notwithstanding all drawbacks.

A good many men have come down out of the woods, but enough remain to make it lively if snow should come. In any event the supply of new logs for the coming season will fall far short of the usual crop.

The *Lumberman and Manufacturer* as follows:

MINNEAPOLIS, Minn., February 14, 1878.

The condition of trade is interesting to all parties concerned, not so much on account of any changes as in the fact that it is new in the history of the lumber business. The probable possibility of the making the Reciprocity Treaty with Canada, by which lumber would be admitted free of duty, and the fact that they can supply an unlimited quantity, makes holders nervous and buyers timid with the conceded fact that there will be but half a crop got out in the Northwest. The fact that six hundred million feet of old logs are hung up on the waters of the Mississippi liable to be floated out by spring rains, also has a tendency to make all hands weak. Chicago is stiff at \$12.50 and manufacturers hopeful of better prices as the late advance has barely covered the additional cost of getting out logs this winter without snow.

It is not unreasonable to set down the cost of logs at the mills as \$2 per M more than last year's crop cost.

Clinton made an advance last week, as will be noted in the market reports, and Stillwater price lists now are the same as Minneapolis, where some discussion is being made as to the propriety of another dollar rise. Stocks are reported diminishing more rapidly than has ever been known in February at all principal points. We predict a rise of common to \$15 soon.

THE EAST.

A correspondent of the *Lumberman's Gazette* writes from Oldtown, Me., as follows.

The weather in this vicinity continues very unfavorable for business, such as hauling bark and wood.

There is but very little snow, and warm weather.

Up the river, where they are cutting logs, there is

from twelve to fifteen inches of snow, and they are putting in logs very fast. Nearly all that are lumbering will get more logs than they started for last fall, and if they have a good drive there will be a good stock of logs for this river next season.

From the Lewiston (Me.) *Journal*.

A Fort Fairchild correspondent writes: Our lumbermen are doing a fine business, there being just snow enough for good hauling. I doubt if there was ever before as much lumber put into the Aroostook waters in the same time as has been within the last two weeks. The woods are fairly alive with men and teams. Our streets present quite a lively appearance with the many teams from all directions, loaded with starch, potatoes, shingles, knees, sleepers, and various other articles for transportation over the railroad.—Our correspondent at Kingfield writes: The good sleighing makes business quite lively in Kingfield, as every one improves it to haul his timber to the mills. S. & C. W. French's mill yard is being rapidly filled with logs to be sawed into all kinds of lumber. The Frenches have a crew in the woods cutting cedar and spruce which will be sawed at their mills next spring.—E. S. Winter thinks of putting from two to three hundred thousand of spruce and pine into river in Jerusalem, to run to Kingfield when the stream opens.—The forest lumbering for the Androscoggin Water Power Company of Lisbon, are now doing well at Andover. West Surplus, about 60 miles north of here on the Ellis. They will probably get out two millions of spruce. About 35 horses and 60 men are employed.

FOREIGN.

The *Timber Trade Journal* (London), contains the following, which may prove of interest to some of our deal shippers.

LIVERPOOL, January, 30th, 1878.

The feeling of depression which has so long continued still continues to be felt, and business is confined to retail orders only, and no alteration in prices seems to be made except in spruce deals, which continue to advance, especially for good dimensions, which are now becoming very scarce.

There is nothing new to report in reference to other kinds of timber and deals, the current prices of which may be gathered from the list of auction sales.

On the 25th instant, Messrs. A. F. & D. Mackay held an auction sale in their sale sheds.

There was a fair attendance of buyers, but the bidding lacked spirit, and a large quantity of the goods offered was withdrawn, including all the square pine timber.

Quebec Oak timber 6/2 28, 31 1/2, to 28, 70, per foot.

" Ash " 28, 0 1/2, to 28, 1 1/2, "

Quebec Waney Pine timber—

30 in. & up, 6/2 28, 0 1/2, to 28, 2 1/2, per foot.

Buctouche Birch 186 logs 6/2 12 1/2, to 130, per foot.

Michigan Oak planks 16 to 19 feet 5X12 " 28, 8d. per ft.

Spruce deals, St. John, N. B.—

16 to 23 feet, 3X11.....	29 0 0 p std.
16 " 23 " 3X9 ".....	9 0 0 "
10 " 15 " 3X12 to 11.....	8 5 0 "

3rd quality, 10 to 16 " 3X13 ".....	8 17 6 "
4th " 14 " 16 " 3X11.....	7 2 6 "
13 " 16 " 3X7 " 10.....	6 12 6 "

The latest mails from Rio Janeiro, report:

Pitch Pine Deals—Last sales as 36 000 and 35 500 per doz. (14 by 3 by 9) to net G. \$36.04 @ 37.25 per 1000 feet. Market steady.

One-Inch Lumber—Worth 75@ 95 rs. per foot, according to quality, to net G. \$22.70 @ 28.75 per 1000 feet. Market very dull.

A letter received by a Quebec firm from one of the principal timber brokers of Liverpool is as follows:

"We are glad to see that there is likely to be some curtailment in the production of wood, and we only hope that the quantity getting out will be small indeed. We fear on your side you are still far too sanguine, for when you see the enormous stocks held in the Clyde and of your goods in Liverpool, it will be quite evident to all that the trade has been sadly overdone; but in addition to this, it must be taken into consideration that prospects for consumption are very much worse; through all the bad business the consumption of wood has been large; but as our trade is usually one or two years later than others in feeling any depression we are now only entering upon the time of reduced consumption; the building trade has been unduly stimulated by cheap money, but a reaction now appears to be setting in and unless our supplies are very greatly curtailed we must look for even lower prices. We do not think that really first-class oak is over abundant, but you will see from our circular enclosed that the stock is something like eleven months' consumption. Pine timber is also greatly in excess of last year, and the stock last year was far more than was required. Pine deals are also absurdly heavy, indeed taking timber in the log in the aggregate, and Quebec pine deals, our stocks are something

like 60 p. c. more than we should hold at this time of the year, and the failure of the firm to which we have already referred indicates that the dealers here cannot have made money."

METALS.—**COPPER**—Ingots has met with rather a moderate demand, holders are becoming somewhat more anxious to sell and under slight pressure rates shaded a trifle. We quote at 173@173½c. for Lake. Manufactured is jobbing out to a fair extent, and former rates are quite generally adhered to, on all kinds. We quote as follows : "Brazier's Copper, ordinary sizes, over 16 oz., per square foot, 2c. per lb.; do., do., do., 16 oz. and over 12 oz., per square foot, 3c. per lb.; do., do., 10 and 12 oz., per square foot, 3c. per lb.; do., do., lighter than 10 oz., per square foot, 3c. per lb.; circles, less than 84 inches in diameter, 3c. per lb.; do., 84 inches diameter and over, 3c. per lb.; segment and pattern sheets, 3c. per lb.; locomotive fire box sheets, 2c. per lb.; Sheathing Copper, over 12 oz., per square foot, 2c. per lb., and Bolt Copper 2c. per lb. Inos—Scotch Pig is only wanted on a few small onlets, and moves slowly. Stock is not large, and prices remain about as before. We quote at \$23@26.50 per ton, according to brand and quantity. American Pig is under neglect, and the market has a very dull tone, on every grade. Holders' ideas remain about as before on values. We quote at \$186@20 for No. 1 per ton, \$176@19 for No. 2 do., and \$166@18 for Forge. Rails selling moderately on new orders, and no new features of interest to advise at the moment. We quote at \$31@35 for new iron, and \$40@43 for Steel at the mills. Old Rails, \$18@19.50 per ton; scrap, \$22@23; the latter slow. Manufactured iron is without much life, but remains steady. Common Merchant Bar can be had in round lots at 1.7c. and Refined at 1.9c., but for ten-ton lots from store, 1.9c. and 2.1c. are respectively insisted upon. Common sheet, 3c., and best R. G. American, 4c. from store. **LEAD**—Domestic pig in liberal supply with holders offering quite freely, and prices weak at a further decline since our last report. We quote at about 46@47c. currency. The manufacturers of lead are quoted: Bar, 6c.; Pipe, 6c., and Sheet, 6½c.—less the usual discount to the trade; and Tin-lined Pipe, 15c. Block Tin Pipe, 15c., on same terms. Tin—Pig shows a continuation of the old weak tone and has only a moderate demand with more than enough stock for all calls. We quote at 173@173½c. for Banco, 173@173½c. for Straits, 173@173½c. for English Refined, and 173@173½c. for do. common. Tin Plates find a fair average demand for small parcels, and do greatly change on value. Spelter is dull, and to some extent nominal, but as a rule, holders are asking former figures. We quote at 53@55½c. Sheet Zinc is dull and unpromising and prices easy as a rule. We quote at 7½@7¾c. gold for foreign and 63@7c. currency for domestic.

NAILS.—About an ordinary demand is reported from most regular sources, with orders occasionally swelling into encouraging proportions. The movement, however, is by no means free or full, and it is only by a careful gauge of the production, that a surplus accumulation can be prevented. Rates remain on a basis of 2.50@2.60 per keg for 10d to 60d with the usual allowance to the trade.

OILS.—Buyers continue to move slowly and carefully, and pretty much all calls are based solely on the wants of the hour. Supplies and assortments are equal to the requirements of the market, but under fair control, and not pressed to a sale. Linseed oil worth about 63@65c from crushers' hands.

PAINTS.—Care appears to be shown on most orders received, both as regards quantity of stock handled and assortment called for, while prices undergo more or less crowding. Business, however, is fair and growing, and when buyers are satisfied that only a just valuation is placed upon goods, they close quickly to the extent of their wants.

PITCH.—Demand as a rule has been confined to small trade orders, and the market did not often reach a point of much animation. There has been little change in cost, as the stock was under fair control, and owners not pressing. We quote at \$2.00@\$2.25 for City delivered.

SPIRITS TURPENTINE.—Easy terms are looked for by most customers, and they constantly crowd values, even on the small lots called for. Stocks, however, remain under speculative control, and are offered somewhat indifferently. As we close, the tone is pretty steady at 33@35, according to quantity of stock handled.

TAR.—For the usual small jobbing parcels, there has been an average call on a basis of about summer rates. There does not appear to be much inclination to invest freely however, and holders secure little opportunity to increase the value of their stocks. We quote at \$2.12@2.37½c. for Newberne and Washington, and \$2.25@2.50 for Wilmington.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Wherever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

REAL ESTATE.

NEW YORK CITY.

16 O'Neill, Ambrose — Bowery Nat. Bank.....	5,816 50	21 the same—J. B. Bowden.....	317 04	15 NOTE.—There appeared in our last issue the record of a judgment amounting to \$50,584 in favor of N. L. Jeffries against Fernando Wood. We are informed that this judgement was obtained by default, and that proceedings have been instituted to vacate and set aside the same on the ground that Mr. Wood has a valid defence to the action in which the judgement aforesaid was recovered.	165 35

MISCELLANEOUS.

MINING INTERESTS.

The interest in the mining business seems to be growing and capitalists are beginning to investigate some of the properties on the market with a view to investments. There is still, however, a strong feeling of distrust in regard to some of the mines that are dealt in on the Mining Exchange, and it behoves the members of the Examining Committee to give the closest attention to the mines that come before them for investigation, before they can be listed on the Board. There is evidently a desire on the part of capital to invest in mining properties that can pay a good fair dividend, and owners of mining properties desirous of raising working capital should be careful not to make a ridiculously high capitalization on their mines, as dividend paying mines in California offer such magnificent inducements that the contrast will prove to their disadvantage. No new properties have been dealt in during the past week.

The Idaho Silver Mining Company, which was incorporated under the mining laws of the State of New York, is now being worked by contract under the management of W. E. Hall, Mining Engineer of Utah. It is reported that samples of ore from this mine, recently assayed, run 82 oz, 76 oz, 81 oz, and 67 oz. of silver to the ton. The company has been capitalized at \$250,000, in 50,000 shares of \$5 each, and a limited amount of stock for working capital is now being offered. The full particulars regarding the mine can be obtained at the office of the company, 52 Broadway, room 4.

The market has been very active during the past week and very large blocks of Lacrosse and Bertha and Edith have changed hands. Lacrosse has been the most active stock on the list. At

the commencement of the week it was rather weak, declining to 63c., on Monday morning; it opened at 64c., and closed at 70c., and during the rest of the week it has ranged between 65c. and that figure. Of Bertha and Edith some considerable quantity of the stock has been purchased at prices varying between 12c. and 16c. American flag has been pretty steady at from 18c. to 20c., and there has been some activity in Moose, as its brokers forced it up as high as 85c. on the strength of a rumor that another large body of ore had been opened up.

SPECIAL NOTICE.

Insure your Plate Glass at the "Lloyd's," No. 113 Broadway. The underwriters have combined assets of over \$750,000. They insure Plate Glass Windows and Doors against breakage by accident. Good security. Prompt payment of losses. Low rates.

LOCAL ITEMS.

The Municipal Society held a meeting on Monday evening last, at which was discussed the important question touching the exemption of Church property from taxation. It appears that there are about 400 pieces of untaxed property, consisting of churches, schools, hospitals, &c., estimated at \$80,000,000. Messrs. Schultz and Toucey advocated taxation on the ground of the protection received from the Government, and that the plan of exemption from taxation conflicted with the constitution of the State, which prohibits the loan of money to sectarian institutions. Mr. Toucey considering the remission of the tax in the light of a loan. Mr. G. H. Andrews argued in favor of the present system, claiming, *first*, that no income was derived from this class of property; *second*, that the capital invested therein was non-productive; *third*, that real estate had been benefitted to an amount equal to any sum which could possibly be derived from taxation.

A resolution was introduced and referred to the Executive Committee, providing that no more than 40,000 square feet in cities, or more than five acres outside of them shall be used free of taxation for church purposes.

BROOKLYN.

The bill in relation to taxes and assessments, introduced by Senator Pierce, provides that "o all taxes and assessments which shall be paid to the collector before the expiration of sixty days after the warrant for the collection of the same shall have been delivered to him, an allowance shall be made to the person or persons making such payments at the rate of 7-3/4 per cent. for the unexpired portion thereof, and the amount of such allowances shall be credited to the account of the collector and charged to the account of the revenue funds. On all taxes and assessments paid to him after the expiration of sixty days and within ninety days from the delivery of such warrants, no allowances shall be made or interest charged. On all taxes and assessments paid to the collector after the expiration of ninety days from the day of the delivery of such warrants 1 per cent. per month shall be added for the ten months next ensuing, and thereafter 7 per cent. per annum shall be added to said taxes and assessments until the same are paid." The act is to take effect immediately.

Another bill has been introduced, providing that the assessment heretofore laid for the repavement with granite pavement of Atlantic avenue, between Flatbush and Classon avenues be vacated, and providing that "the Board of Assessors of the City of Brooklyn shall forthwith ascertain and report to the Board of Estimate the amount of bonds of said city outstanding for the repavement of said Atlantic avenue, for the redemption of which no provision of law has been made, including the amount of the assessment mentioned, together with interest, and said Board of Estimate shall insert the same in equal proportion in the annual taxes upon said city of Brooklyn during the next ten years."
