REAL ESTATE RECORD

AND BUILDERS' GUIDE.

Vol. XXVIII.

NEW YORK, SATURDAY, OCTOBER 29, 1881.

No. 711

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - \$6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY, Business Manager.

The diagram in THE REAL ESTATE RECORD of last week, showing the outlines of the proposed "Ten Mile Park," naturally excites a good deal of interest in real estate circles. especially in the regions north of the Harlem River. The Herald of last Sunday promptly followed up the hint it found in THE RECORD. and devoted a whole page with a map to an article setting forth the advantages of not only one but several parks in the annexed district. The statements of a number of leading real estate authorities were given, all favorable to improvements of this kind in the Twenty-third and Twenty-fourth Wards. There is naturally some division of opinion as to where the parks should be situated and what is to be their size; some favoring two large parks, and others a series of small ones. This is a matter which should be left to some competent authority. The land ought to be secured while real estate is vet cheap.

There is a curious story floating about Wall street to the following effect. A relative of Cyrus W. Field gave a lunch one day last summer, at which were present Jay Gould, Russell Sage and Cyrus W. Field. On that occasion the elevated road matters were discussed, and at the close there was a private conference between Sage and Field. Suspicion was excited and a watch was kept on the doings of the triumvirate so far as they effected elevated road matters. It is stated that in the litigation about to take place, every broker who dealt in elevated stocks will be compelled to testify and to give up his principal. It is believed it will be shown conclusively that there was a deliberate conspiracy to plunder the public and the stockholders, and that it can be traced to the lunch party of last summer. The evidence is said to be conclusive.

Investors who know what they are about are quietly picking up warehouse property or land which will be needed for warehousing purposes. During the hard times this kind of realty was seriously depreciated. The destruction of the shipping trade of New York and the opposition of Jersey City and the Atlantic docks cut off the revenues of the New York warehouses. But the increased commerce of New York, the railroad war, and other causes have made store and warehouses again very valuable. Capitalists who are wise enough to pick up this useful but uninviting-looking kind of property have found themselves well rewarded.

New York is destined to do five times the business it is transacting to-day; it will be a

wholesale business and will involve the use of large warehouses. The completion of the tunnel under the North River will make an immediate demand for vast warehouses in the very centre of this island. When the coal of New York reaches here by way of the projected bridge between Newburg and Fishkill, a still further demand will be made for storage room on this island. According to the figures recently published nearly 70 per cent. of the entire foreign commerce of the United States is transacted at the port of New York. This being the case, it is plain to see that he cannot make a mistake who purchases warehousing property.

NEW YORK BENEFITED.

The railway war has been a good thing for this city, temporarily at least. It has brought a great influx of travelers to this city, and has also induced thousands of Western and Southern merchants to make their purchases in the metropolis, who if high rates had prevailed, would have gone elsewhere. The statistics show, since the war commenced, that New York has profited, especially in the grain trade, at the expense of Philadelphia and Baltimore. Instead of sending their grain to Philadelphia, the Pennsvlvania Central now brings it to New York, and the further effect of the war will be to force the Baltimore & Ohio to have an outlet into the metropolis. Since the elevators of the Erie and Pennsylvania Central have been established on the opposite shores of the Hudson, the increase of our grain and other Western business has been very large. The two roads named have profited far more than the New York Central in the amount of tonnage brought to this city. According to the Railroad Gazette, since the low rates were established the New York Central has delivered nearly 16 per cent. more than last year, but the Erie gained 41 per cent., and the Pennsylvania Central 110 per cent. This was brought about by the cheaper handling at the Jersey City elevators and by bringing the grain to New York instead of Philadelphia.

The large increase in business and the enhancement in the price of seats in the Produce Exchange, tells the story of the present great importance of New York as a grain and provision market. The Baltimore & Ohio system will be forced to secure an outlet here, and this will also tend to give the metropolis the advantage over every other city on the seaboard. At one time all the roads of the world led to Rome, and the same fact is becoming true of all the railway and transportation lines in this country. They must find their natural entrepot in this great and growing city. If Congress will only rearrange our tariff and navigation laws so as to re-create our merchant marine, the growth of New York within the next ten years will be phenomenal, and this is very likely to take place.

The spurt in the stock market is due to a belief that the railway war is coming to an

end. The bulls argue that the close of navigation will find such vast stores of grain to be forwarded that there will not be sufficient cars to do the business. This will not hurt New York if Mr. Vanderbilt declines to give Baltimore and Philadelphia the benefit of preferential rates. Should there be a moderate bull movement on the Stock Exchange it would react favorably upon our real estate market.

METROPOLITAN [STOCK.

The Metropolitan stockholders might, if they combined, still get very good terms out of Gould, Sage and Field. Their desire to possess our elevated road system is really part of a scheme for the enhancement of the value of a trunk line western connection with New York. The Metropolitan road is of more value than any of the others, because of its running arrangements with the New York & Northern, which gives it access to all parts of the country north, east and west. The surveys and plans for a bridge over the Hudson river, from Fishkill to the opposite shore, are now under way. The president of the company is Vincent C. King, late fire commissioner. Whenbuilt, it will connect the Erie road with the New York and New England. When this is accomplished, which will be within two years time, the Metropolitan road will be a prize worth fighting for. A great deal of the coal which is now landed at Rondout, Jersey City, Elizabethport and Perth Amboy, will come direct to New York over the bridge, and by way of Brewsters Station. There will be no need of boats, for by the elevated system the coal can be dumped directly in the yards from which it will be sold at retail. Naturally, all the out-of-town connections, which in time will be very lucrative, will be by way of the Metropolitan. Then, the time is coming when the whole west side, from Yonkers down to Seventy-second street, will be densely populated, and the local business per mile will be as great as on the east side, with many more miles on which freight and passage money will be paid.

It should be remembered that the Metropolitan stockholders never received any of the Manhatian stock. Field and the New York Elevated stockholders got their shares as a dividend; but the proportion allotted to the Metropolitan was manipulated by the Loan & Trust Company, which sold the stock without paying any dividend to the Metropolitan stockholders. The suit of the Manhattan company for the recovery of their \$13,000,000 does not at all affect them. There is no decision higher than the Supreme Court, which permits directors to change the terms of leases. They can modify or amend a bargain; but we believe that the Court of Appeals would promptly decide that the terms of the lease between the Manhattan and Metropolitan roads could not be altered unless with the consent of the stockholders.

Holders of Metropolitan stock should

16,000 27,000 40,000

notify their brokers that their certificates should not be lent to Jay Gould. Brokers have a habit of handling their customer's securities as if they were their own, and it is quite time that they were taught a lesson. The power of the great speculators over railway properties is due to the ease with which they can borrow great masses of stocks held by the brokers. We have faith in the elevated system, and have no doubt but what Sage and Gould regard the Metropolitan as the more valuable property of the two. A Metropolitan stockholder with means and energy, who understood the situation and could command capital, could soon bring the three manipulators of this dishonest elevated road deal to terms.

Since writing the above Vice-President Kneeland, with 20,000 shares at his back, has commenced a suit to break the bargain so far as the Metropolitan stock is concerned.

THE THREATENED WATER FAMINE.

Governor Cornell probably realizes by this time, how unwise was his veto of the bill providing another reservoir for the storage of water for this city. It is also to be regretted that the bill authorizing the Croton Aqueduct Department to put in meters that would prevent a waste of water, failed in the Legislature. The waste of water in this city is almost criminal. What is everybody's business is nobody's business, and now when a water famine threatens, exceptional measures must be taken to check This will bear very hard consumption. upon people who have legitimate uses for an abundant supply of water. Mr. Walters, of the London Times, says we might get water from Lake Erie, while the Tribune suggests procuring it from Lake George. But before building any such gigantic aqueducts as these two suggestions would involve, four things should be done. In the first place, the waste should be stopped by a meter system and an inspection of faucets. In the next place, measures should be taken to utilize the salt water of the rivers for street sprinkling and for putting out fires. In the third place numerous artesian wells should Underneath New York a few be dug. hundred feet there is an abundance of excellent water. This supply is now used by certain bathing establishments, breweries and apartment houses. Then the reservoirs which Governor Cornell has denied us, should be built to supply the future needs of the metropolis. There should be no stint of water, for domestic or manufacturing purposes, but all unnecessary leaks should be stopped. In the meantime the approaching water famine threatens to become a real calamity.

Some provision should be made whereby tax-payers would not lose so much time in meeting their annual obligations. The tax offices are througed by those eager to take advantage of the saving in interest by paying before the first of November. The time might be prolonged or some device adopted which would not only save the time of the tax-payer but the labor of the clerks in the tax office. The crush is especially large in the Twelfth, Nineteenth, Twenty-third and Twenty-fourth Wards. The officers do what they can, under the regulations, to make things pleasant for the tax-payers, but there is a good deal of grumbling among the latter.

READY FOR BUILDING.

The following is a list of all the vacant property transferred since July 1st of this year up to the present time. There have been other transactions not found on this list, but the consideration was not given on the official record and hence the omission. Some of this property has been sold and resold several times since the 1st of July, but we have given the very latest of the sales. This list is of great value to builders and capitalists thinking of building, also to brokers, as showing them the value of realty just ready for improvement, together with owner's name. In some few cases in this list the lots contain frame houses. Of course, in some instances the price recorded is excessive, due to a desire on the part of certain dealers to make their lots appear more valuable than they really are. F. in the list, indicates foreclosure price, and B. P. that a building plan has been filed; P. means partition, and Q. C. quit claim. The list is divided in two parts, one showing the transactions on the west side above Fifty-ninth street, and the other the vacant lots sold

The official record shows that there has been an increase in the number of transactions in real estate during the past week, as compared with previous week. The number of new mortgages and the amounts show an increase over other weeks this season All the indications are that the activity will become greater as the season progresses,

The sale of three fine marble front fourstory houses on Seventy-second street, for less than \$19,000 each, will not give much comfort to builders with rows of houses upon their hands for which they are asking much higher figures. It is true this was at an auction sale, but it shows, as we have said all along, there are more houses than purchasers at present in New York. There is really an eager demand for houses to rent, and if people knew how cheap houses could be purchased, many more would be bought. Builders will not advertise, but wait supinely until a customer comes along. If they do spend any money, it is in a morning paper, which is not read by wealthy people or those who have money to invest. It would pay the owners of unsold new houses to combine and notify the country that in this rapidly growing city there are plenty of cheap houses for sale. The argument for purchasing them is the large and growing rents. New houses at present prices will bring in from 8 to 11 per cent.

Brooklyn property is really looking up. There were some quite important sales during the past week, as will be seen by our official record, and the coming sales are still more notable. The disposal of the 1,000 lots near Prospect Park by the City Government will naturally attract a great deal of attention to Brooklyn real estate and its future possibilities. Then, the bridge should be completed within the coming two years, the elevated road can be constructed and utilized. Far-seeing operators will purchase now, rather than wait until the boom comes. People who want cheap homes or lots which are certain to advance in the not distant future would do well to pay some attention to Brooklyn property.

When the land was bought for the Brooklyn Park, bonds were issued to raise money, based upon the possession of the lands. These had forty years to run. The thousand lots to be sold shortly are a part of these lands, and the question has been raised as to the validity of the title, in view of the issuance of these bonds. As the city of Brooklyn, however, will guarantee the title, there does not seem to be much danger of other claimants coming in. True, Brooklyn might become bankrupt like Elizabeth; but that is a contingency so unlikely that it will not militate against the sale of the lots.

MINING INFORMATION.

Our local market drags. The business is principally confined to the brokers themselves. Another effort is making to get up a boom on the Comstock, but there have been so many attempts of that kind which resulted in failure, that the Eastern public seem reluctant to deal in Pacific Coast stocks. But while stock operations in mines cannot be said to be thriving, the search for the precious metals was never more active. Railroads are now traversing the most promising mineral regions of the great West, and we are on the eve of very important developments in mining industries. Our copper mines are already the largest and most productive in the world, and our silver and gold mines, which now produce half of the bullion of the world, will soon be taking out fully two-thirds of the entire product of the globe. It is not to be disguised that a new bonanza on the Comstock would give a vast stimulus to mine stock gambling in New York as well as in San Francisco. It does seem as though Sutro Tunnel stock was cheap at present figures.

There has been some activity in Silver Cliff, due to a report that rich ore has been struck and that the mill is working 120 tons of high grade ore a day. The brokers in the Board are generally short of this stock, as they have no confidence in the management. There have been so many disappointments that confidence is pretty well gone.

Robinson Consolidated has been placed upon the regular stock board through the influence of S. V. White and Brayton Ives. It is strange why Mr. White, who is the President of the New York Mining Board, should be so anxious to take desirable stocks away from his own board, leaving it to deal with the cats and rattle traps. object doubtless is to saddle investors with Robinson Consolidated at high figures. The Stock Exchange brokers do not want to deal in mining shares; it confuses their accounts. They cannot borrow money on mining stocks and they cannot very well tell their customers this fact, and they do not like to disoblige them. Mr. White and Mr. Ives are abusing their positions on the Securities Committee in putting mining properties on the regular stock list. Their aim should be to build up a responsible mining board which would deal as well in good as in doubtful securities. There has been much irregularity in the report of the San Francisco prices, which is all the more suspicious as it is known a deal is under way. The telegraph system of the country is owned by Mr. Jay Gould, and it is in the power of his employees to delay quotations, thus opening the door to private speculations for those who know the prices before they are announced to the public. The telegraph system of the country ought to be in the hards of the Government, so that investors may be protected against unscrupulous operators.

A HINT TO UP-TOWN BUILDERS.

The supply of houses to rent is practically exhausted in Harlem, and so great is the demand from desirable tenants that it seems strange that some of the builders who have rows of dwellings on hand do not rent them, giving the tenant the privilege of purchasing at the expiration of one, two or three years. Many people would gladly avail themselves of such an opportunity, as there are many families who do not know the desirability of Harlem as a place of residence, and who are not willing to purchase a house in a strange locality. It is true, as urged by builders, that when a house is once occupied, no matter for how short a time, it is no longer, in one sense, a new house, and that many tenants leave houses in such a condition that renders it necessary for the owner to expend all, or nearly all, of the rent money in making his house attractive for a new tenant, or the still more sought after buyer. But if a good tenant is secured, and one who is really desirous of purchasing, the owner may rest assured that his house will be properly taken care of, and, if well located, the chances are largely in favor of his having secured an ultimate purchaser.

THE BLOCKING OF DOWN TOWN.

Editor Real Estate Record:
The blocking of Broadway and other streets is
the old story revived. Ever since the bridge
over Broadway, at the intersection of Fulton
street, was erected and even previous, the street
has been a source of annoyance on account of
this blockade. this blockade.

The bridge over Broadway was too great a nuisance to be tolerated, while the elevated roads running the length of the island through several streets, was too great a steal to the prospectors

It is needless to enumerate the many hindran-It is needless to enumerate the many hindrances and vexatious delays caused to the business community on this street. The facts are so apparent that it needs no argument to convince the public of the necessity for a remedy. Your article on this subject, in a late edition, was timely, and, as you say, "the steady increase of business of the city is making matters worse day by day." calls for some action in the matter. I do not agree with you, "that it is idle at present to discuss remedies," but, on the contrary, until the evil is remedied the question should be ventilated, and the fullest scope be given to discussion.

It has been argued by some that an elevated railroad around the bulkhead line, connecting the shipping and railroad terminal would be a remedy. While this has its advantages it would not afford an effectual relief to the great block-

remedy. While this has its advantages it would not afford an effectual relief to the great block ade referred to.

and referred to.

The blockade on the streets is caused by goods being shipped from the different firms doing business in various sections of the city, and the great market business in the lower part of the city, therefore, the elevated road would not relieve this branch of business, as it would be impracticable for the road to reach the different places of business. Goods arriving in the city by rail or vessel are either delivered direct in cars alongside, or by lighters, thus relieving the streets from these incumbrances.

There is a vast amount of business done that has no connection with railroad or shipping, I mean the inland and coasting traffic; this branch of commerce requires a large amount of street room, as most of their goods are distributed to almost every part of the city, and forms the principle source of annoyance. An elevated road would be rather an impediment to this business than otherwise.

business than otherwise.

business than otherwise.

As to warehouses on piers, it would divert the piers from their original design and be the means of lessening the room already inadequate for the pressing demands made upon them; it is easier to widen streets and make room than make more pier room. Let us do nothing to lessen our pier accommodations, already too much encumbered. Storehouses on piers should not be allowed under any circumstances.

The Arcade Road under Broadway, spoken of, has its disadvantages, as the outlet where it intersects with the surface would cause the same block to occur that now exists. Where a succession of streets diverged to one point, as for instance at West Broadway and Chambers street, the difficulty in entering and leaving by heavily-

stone of streets diverged to one point, as for instance at West Broadway and Chambers street, the difficulty in entering and leaving by heavily-loaded trucks would be a serious objection, as the grade naturally would be steep, frequent blocks would occur, causing a detention almost equal to the blockade now on the streets. In order, to make it available several openings would be necessary, occupying so much of the streets as to destroy the advantages of the tunnel.

Your correspondent, "An owner," suggested the advisability of widening several streets on the east side, running parallel with Broadway, as a remedy. While this might have a tendency to relieve Broadway, it does not strike at the root of the evil. Where the great inconvenience arises is on the west side, and any move made to relieve Broadway.

lieve this portion, would have a tendency to relieve Broadway.

While all these different suggestions have their advantages and disadvantages, it might not be out of place to make some other suggestion. You ask, "why not adopt the London ordinance, which provides that trucks and wagons shall enter the streets from one way?" While there might be some merit in this, I would ask, "why not adopt the London plan of locating buriness? The plan of doing business in New York, is, in doing the greatest amount on the smallest space of ground. The London plan is by spreading business centres, certain classes of business have doing the greatest amount on the smallest space of ground. The London plan is by spreading business centres, certain classes of business have certain locations, thus avoiding concentration of all branches of trade in one locality. Here is where all our trouble arises, we mix kinds of business in one centre, and that on the smallest part of the island.

The true remody for all are the smallest part of the true remody for all are the smallest part of the small small

part of the island.

The true remedy for all our ills, it seems, would be by spreading out, taking in more space. If the business men would follow after the plan of the shipping merchant (when East River dock became inadequate for their accommodation removed around to the North River), and remove further up-town, the complaints for the want of room in the streets would in a measure subside. This seems to be the only effectual remedy that can be devised.

You suggest the removing of the University place cars from Church street. "Call them a nuisance to that locality." In this, I think, you commit an error. It seems to be as necessary to

have conveyances for the transmission of passengers from the lower part of the city, as it is to transport goods through the city.

The great lever used for the building of the elevated roads was the necessity for more and better facilities for the transportation of passengers. By the property of the series o better facilities for the transportation of passengers. By the removal of these cars, you would work a great injustice to the people doing business down town. It does not appear to be just to destroy one kind of business in order to build up another. What we want is, more means of exit from the city than less. Therefore give us more pa senger accommodations and let our business men migrate a little further up-town, and down-town streets will be relieved, and business receive that impetus that it has heretofore been laboring under for the want of more street accommodation. In this connection it might be well if the proper authorities would remove the incumbrances on the streets and bulkheads, this would be one step taken in the right direction.

G. B. LAWTON,

5:9 West street.

The consumption of building material of all kinds continues with unabated volume at well sustained prices, and, with dealers now seeking an accumulation for winter stock, the market secures an additional support. The only noticeable advance this week is on brick, and this is partially due to an attempt on the part of manufacturers to fix the rate for good hards at \$9.00 and draw the market up to it. Success is not permanently assured, and some of the trade think the movement rather premature to be lasting. Supplies dependent upon coastwise and distant inland transportation are stiffened in value by the gradually increasing cost of transportation. No new features developed upon the labor question except that the supply of some kinds is a trifle more plenty.

One of the most curious buildings in this country is being erected at South Atlantic City. It represents an elephant in the act of feeding, and it is intended for use as a restaurant. It is eightysix feet long, twenty-nine feet wide, and sixtyfive feethigh; the diameter of the legs is ten feet, and the distance from the platform on which the elephant stands, to the floor of the restaurant hall is twenty-two feet. The kitchen is inside the head; the entrance to the main saloon will be through one hind leg and the exit through the other, the staircase being seven feet in the clear. There are four side rooms, 6x8, which will be beautifully finished throughout. The box dah (or observatory) on the top or back is approached by concealed staircases, and offers a magnificent view of the surrounding country.

OUT AMONG THE BUILDERS.

L. H. Broome has completed the plans for six fourstory brick flats with stores, to be erected on Grove street, between Bay and First streets, Jersey City. They will be 25x60, and cost about \$40,000. The same architect is engaged on plans for a new dwelling for Mr Charles Thurston, to be erected on Garrison avenue, Jersey City Heights. It will be two and onehalf stories, frame, and will cost \$5,500.

Mr. J. J. Detwiller will erect a row of five two-story frame stores and houses on the old Bergen road, Greenville, at an expense of \$14,000. Architect, L. H. Broome.

Mr. Cornish proposes to erect a number of cottages on the Van Houton estate in Paterson. A portion of this property has been sold, in all about thirty lots, 50x100 each, and on which the new owners will erect improvements.

Mr. Broome is drawing plans for three frame cottages, to be erected at Clayton avenue, Thousand Isles, one for Mr. Reed and one for Mr. Lines, both of the firm of Bates, Reed & Cooley, of this city, and the third for Mr. Wright, of Susquehanna, Penn.

The Standard Wood Turning Company, of Jersey City, are about to add another story to their threestory brick factory on Washington street, between Stueben and Morgan streets.

C. Graham & Sons will commence at once, the erection of six first class dwellings on the plot of ground on the south side of Thirty-seventh street, commencing eighty feet east of Lexington avenue, and opposite to the row of houses recently completed by them. The cost of this improvement will reach \$175,000, including the price of the ground.

A new hospital building is to be built at Sailors' Snug Harbor. It will be three stories in height, 156 feet long and fifty-two feet high. On the south end

will be a sun bathroom, 12x10, and on the west end a smoking room, 16x18. It is expected that this building will be completed by next summer.

It is the intention of the Jersey City Board of Police Commissioners to erect a new city hospital on the property just purchased by them on Baldwin avenue near Montgomery street.

G. W. Da Cunha is preparing the plans for a sixstory brick storehouse to be erected on Franklin street, between Hudson street and West Broadway, and running through to Leonard street. It will be 50x 110, cost \$40,000, and the owner is Mr. F. Bechstein.

Mr. Da Cunha is also at work on plans for a stone building to be built in Harrison street, between Hudson and Greenwich streets, for Henry Heide. It will be of brick with stone trimmings, 40x100, and will cost \$30,000.

J. B. Snook has completed the plans for the Fourth Avenue Car Stables, which are to be erected on the same site as those that were recently burned, viz. Fourth avenue to Lexington avenue, and Thirty-second to Thirty-third streets. They are to be materially the same as those destroyed and will be built of brick. two stories in height on Fourth avenue and three stories on Lexington avenue. They will contain stalls for 1,100 horses and a blacksmith shop 28x70.

Messrs. Babcock & McAvoy are drawing the plans for an enamel works for the J. L. Mott Iron Works. The building will be erected on One Hundred and Thirty-seventh street, west of Third avenue, and will be two stories in height, built of brick, 60x100, and cost about \$10,000. The building will be built upon a pile foundation.

Frank Work, the well-known Wall street broker, proposes to erect a handsome private residence and stable on the south side of Sixty-third street, 100 west of Eighth avenue.

SPECIAL NOTICE.

We note the single instance of Messrs. Duffy Brothers, whose card we publish, as tending to show the great development of the building trade here of late, and also as an evidence of the enterprise and energy of that firm. They have constructed, within the last two years, in the upper part of the city, one hundred and twenty houses.

MARKET REVIEW.

REAL ESTATE.

For list of lots and houses for sale see pages it and til of advertisements,

The attendance during the past week at the Exchange was very large. The old faces were reinforced by many new ones, and every available piece of property was eagerly bid for. All the dealers are confident that the market from this time forth will be an active one, and that higher prices will rule. Some of the builders with large blocks of unsold houses on their hands would do well to see what luck they would have on the Exchange. Should some property be sacrificed, and the idea get abroad that the new houses were a purchase, plenty of buyers would come forward. So far the REAL ESTATE RECORD is the only agency for notifying the public that there is an abundance of cheap unsold new houses on the market. During the week there has been a good deal of Fordham property sold, and the prices obtained were considered fair.
Public attention is being slowly but surely attracted to the Twenty-third and Twenty-fourth Wards. rapid transit scheme, the proposals for new parks, the demand for houses to rent, all help to direct the attention of far-seeing operators to the region above The Harlem River improvement the Harlem River. itself cannot be long delayed, and when accomplished it will add twenty per cent. to the value of Twenty-third and Twenty-fourth Ward realty. An important sale of unimproved property was that of the lots on the east side of Tenth avenue, from One Hundred and Fifteenth street down. Twelve lots were disposed of and the purchasers got bargains. These were situated on the same, block which fronts on the pro-jected Morningside Drive. There can be no mistake about the future of property in this neighborhood.

A number of out-of-town properties were offered at the Salesroom during the present week. On Wednesday R. V. Harnett sold about twenty-two acres known as the Young estate, and located at Edgewater, New Jersey, with a frontage of 577.8 on the Hudson River, to Samuel Louis, for \$24,000. On Thursday an attempt was made to sell a large number of lots located in Metuchen, N. J., but no interest being manifested, the auctioneer had to withdraw them.

Of course every one interested in real estate will be present at the sale of lots by Richard V. Harnett next Wednesday, at the Real Estate Exchange. A glance at the advertisement will show how exceptionally

2,000

interesting this sale is. It embraces unimproved property literally in all parts of the city this side of the Harlem River. Those who desire to bid should be on hand early, for the room will be thronged. On Tuesday the same auctioneer will sell four lots on the corner of One Hundred and Second street and Tenth avenue. The property is in an improving neighbor-

Martin T. McMahon, Receiver of Taxes, gives notice that the assessment rolls on real estate, personal property and bank stock in the County of New York have been delivered to him and that the taxes therein are now payable. In case of payment before November 1st a reduction at the rate of 7 per cent. per annum from the time of payment until December 1st will be

Notice is given that 10 per cent. additional will be added on November 1st on all unpaid Croton water rates for 1881.

Gossip of the Week.

Reports have been current on Pine street that Mr. Isaac Honig had sold lots on Eighty-fifth and Eightysixth streets, between Fifth and Madison avenues, to Mr. Vanderbilt. While Mr. Honig positively says that he has not made any sale whatever to Mr. Vanderbilt, he does not contradict the reports that he has made sales in the above-mentioned streets, including the entire front on tho west side of Madison avenue.

Mr. Honig declines to give any further information on the subject, as he is under obligations of secrecy, but he says the bulk of the transactions will be found in the Conveyances in The Real Estate Record of Saturday next.

Messrs. Benner & Zeller have sold the five-story brick tenement house, No. 436 Houston street, 20x65x 106, to B. Schultz, for \$11,000.

Jacob Cohen has purchased the four-story brick house, No. 334 Third avenue, 21x84, for \$20,000.

R. W. Parkinson has sold the three four-story brick flat houses, Nos. 131, 133 and 135 East One Hundred and Fourteenth street, 26.4x72x100 each, to W. S. Jarvis, for \$60,000.

Alvin Hall has sold the plot of ground on the north east corner of Fourth avenue and Eighty-second street, 100x100, for \$50,000. The same gentleman has purchased the four-story, high stoop, brown stone dwelling, No. 5 East Fifty-sixth street, for \$80,000.

Messrs, L. & H. G. Cassidy have sold the five-story tenement house, No. 426 East Thirty-ninth street, 25x 66.6x100, for \$14,000.

The purchaser of the fourteen lots on One Hundred and Thirty-first and One Hundred and Thirty-second streets, 200 feet east of Eighth avenue, the sale of which was reported last week, was Henry J. Burchell and the price \$60,200.

The four-story brown stone flat, No. 114 East Fiftyninth street, 25.6x80x100, has been sold for about \$32,000.

Messrs. Lespinasse & Friedman have sold two lots on the south side of Sixty-third street, 100 west of Eighth avenue, for John D. Crimmins to Frank Work for \$26,000, and four lots on the north side of Nintieth street, between Ninth and Tenth avenues, for \$14,000.

H. H. Cammann has sold a plot of ground, containing about three and one-half city lots, on the south side of Eighty-third street, 300 west of Ninth avenue, 64.81/2x133.9x64.11x138.11, for \$12,000.

Messrs. Mordecai & Bellamy have sold the lot on the north side of Eighty-fourth street, 100 east of Ninth avenue, for \$6,000. This lot immediately adjoins the two lots sold by the same firm reported last week.

The New York, New Haven & Hartford Railroad Company were the purchasers of the thirty-four acres of land in the Twenty-third Ward known as the Ar nold estate, which were sold at auction by E. H. Ludlow & Co. on Tuesday last.

It is the intention of the purchasers to use the above property for terminal purposes, and they will probably erect an extensive freight depot on a portion of the premises.

The three-story high stoop brown stone house, No. 31 East One Hundred and Thirty-first street, 17.6x50x 99.11, which was to have been sold at auction on Tuesday last, was disposed of at private sale for \$12,500.

The Jersey City Board of Police Commissioners have purchased twenty-eight lots on Baldwin avenue, near Montgomery street, known as the Rudderow property, for about \$30,000.

The fourth sale of lots at South Atlantic City took place last week and was very successful, the lots realizing from \$300 to \$600 each. The total amount will reach \$20,000. This place is being rapidly improved; streets are being graded and cottages erected.

The Aiken property, on Grymes' Hill, Staten Island, has been purchased by James H. Davies, of New Dorp, for \$16,000.

W. F. Corwith has sold the two-story frame dwelling house No. 78 Newell street for Sarah E. Self to Mary E. Lockwood for \$2,400.

Mayor Grace has taken title to the four-story brown stone house No, 29 East Seventy fourth street, being the northwest corner of Madison avenue, for \$37,000.

C. T. Barney has sold his 16.8 front four-story brown stone dwelling on the south side of Fifty-fifth street, between Fifth and Madison avenues, for \$60,000, to E. C. Homans, the banker.

Leonard J. Carpenter has sold the four-story brown stone dwelling, No. 104 East Sixty-first street, 20x67x 100, to Mr. Muir, for \$33,000, and the four-story brick dwelling, No. 313 East Thirteenth street, 23x50x103, to Mr. McQuade, for \$12,750.

The following are the sales at the Exchange Sales room for the week ending October 28:

* Indicates that the property described has been bid in for plaintiff's account:

BUILDING MATERIAL MARKET

BRICKS.-The strength of the market on Common Hards is unimpaired, indeed, gains force, with another addition made to values and the advantage apparaddition made to values and the advantage apparently entirely with the selling interest up to the close. A continuation of the previously noted good demand contributes largely to this result, especially as a full proportion of the stock taken goes directly into consumption, but an additional stimulus is found in the determined effort to force the cost. A great many cargoes have come here under a limit, with receivers instructed to carry, unless the bids were advanced, and while this policy met with resistence, numerous buyers were so placed that submission became almost a necessity. At the present writing some uncertainty prevails as to what may fairly be considered positive market values, but figures are named at \$7.50@7.75@8 for "Up Rivers," and \$8.50@8.75@0 for "Haverstraws, the inside figures said to represent bids only, and the outside about as low as sellers are willing to commence negotiations, with an intimation that in a quiet way customers have accepted the situation. Choice and fancy brands are held still higher, and quite indifferently offered. On Pales the feeling is also firm, and \$5.00 about as low as desirable stock can be reached. We find considerable stock can be reached. We find considerable to advance the cost of brick. The wants of the city are certainly large, and on some of the best jobs for the consumption of stock, contractors can scarcely afford to stop when material is to be obtained at any price within the bounds of reason, but there is a great deal of work that can be suspended, and this with the possible influence of extreme values upon plans for the future, is thought to be a consideration not safe to overlook. Dealers, too, are very cautious, and while ready to pile away a fair accumulation for winter use, hesitate to do so at a cost over which the consumer is already loudly complaining. It seems to be generally understood that the stock at primary points is large, but with few exceptions under very fair control.

HARDWARE.—Generally the reports are of a cheerful character and th ently entirely with the selling interest up to the close.

HARDWARE.—Generally the reports are of a cheerful character and the market evidently is looked upon as in good and promising shape. Distribution has been made to pretty much all points from which debeen made to pretty much all points from which de-mand could be expected at this season, with probably a larger percentage on local account than usual, and the supplies of standard goods are still in a great many cases behind the orders on file. Prices are firm all around, and still rather inclined to an npward turn on popular and standard goods, though, of late, no new announcements of advanced lists have been fixed.

LATH.-Arrivals have been fair, indeed somewhat larger than predicted, but the market appeared to absorb the supply about as fast as it came to hand and has not weakened in any respect. Some of the cargoes were at once delivered on contract and those offered for sale found buyers still willing to pay \$2 per M for good lots, and more is asked at the close. The actual consumption has been full and many dealers find it difficult to get a good start toward making an accumulation in yard against coming wants.

LIME.—Cost does not increase as yet, but the tendency appears to be more toward this result than any shading, and the market retains a strong tone throughout. Supplies somewhat irregular and not over large, with a demand of sufficiently large and quick proportions to exhaust every thing about as fast as offered. Transportation facilities continue scarce and high, with little prospect of any relief for shippers in this matter during the balance of the present season.

LUMBER.—The changes upon the general market during the period since our last, proved few and unimportant, but, such as they were, mostly favored the seller. Indeed, there is a tendency, apparently, to harden on values, for pretty much all kinds of lumber, where quality is in any way desirable, and receivers assert that a good proportion of the stock coming forward is already under engagement. So

far as the consumptive call is concerned, there is not much new as to its features, but some expansion of

far as the consumptive call is concerned, there is not much new as to its features, but some expansion of volume, with a tendency to still further growth, as a great deal of work is being pushed with great vigor in order to reach "cover" before cold weather. The export demand cannot be called satisfactory as yet. It has increased somewhat but scarcely from the quarters hoped for, and latest advices were not promising. The supply adapted to this outlet, however, does not lose in carrying for any reasonable time and holders refrain from any undue effort to realize and make no modification in the line of values. In some cases, especially at the North, a better supply of logs has reached the mills, but too late in the season to have any influence upon value, the more so that freight charges continue to increase.

Eastern Spruce has gone from yard with some liberality this month and the general stock is reduced, but a great deal still remains, and retailers are not under the necessity of buying freely. Neither are they altogether indifferent to the fact that the season of the year is a precarious one, and delays may shut off the opportunity of securing such additions as are desired. Arrivals, therefore, receive attention as they come to hand, and any really attractive offering of random found to be available secures bids up to at least the former line of valuation. About \$13@15 would probably cover the rauge of extreme figures on random, and from this the cost may be graded up to \$18 on specials, the latter for extra difficult.

White Pine receives fair attention from home sources and some from exporters, but the latter does not develop quite as nicely as hoped for. South America has sent in some orders, and also the West India shipping boards; \$20.0024.00 for future use. We quote \$18@21.00 per M for West India shipping boards; \$20.0024.00 for South America, and the west Indies. The cargo market, as a whole, however, is not active, and any important addition to the offering must lead to a shading on the line of valu

From among the lumber charters and engagements recently reported, we select the following:

From among the lumber charters and engagements recently reported, we select the following:

A Br. barque, 193 tons, from St. John, N. B., to a Spanish or Italian Mediterranean port, deals, 70s.; a Br. steamer, 1,310 tons, from St. John, N. GENERAL LUMBER NOTES.

STATE.

Albany Lumber Market, as reported by the Argus. FOR THE WEEK ENDED OCT. 25, 1881.

The market here for lumber is in good shape; the The market here for lumber is in good shape; the receipts continue very free, keeping up our ample and well-assorted stock. The free receipts are accompanied by a relatively large demand from the principal purchasing points South and East, and shipments nence have been large, but are checked by want of vessels, which are in good demand, and are taken on arrival. Notwithstanding the low rate of freights on lumber from Saginaw and other shipping points at the West to the seaboard and the East, Philadelphia buyers were in the district to-day. Prices of Pine lumber are steadily held.

Hardwoods are selling steadily at unchanged prices. The receivers of coarse lumber report a good supply of water at the Northern mills, and that a good deal of lumber is being made; the demand therefore is large; the supply is good, and prices unchanged and firm.

The rise of water in the Ottawa enables shippers to send forward larger cargoes; shipments, it is expected, will continue thence until about 15th November.

Our receipts now are about 52,000,000 feet in excess of 1880; it is estimated that with favorable navigation we shall get at least 70,000,000 feet more; if so, the aggregate for the canal year delivered at Albany will be 410,000,000 feet, and at tide-water 760,000,000 feet. We think these figures will be exceded.

Chicazo reports receipts of lumber since January 1st at 1,531,000,000 feet, against 1,272,000,000 feet, against 509,300,000 feet on October 1st, 1880, and 415,000,000 feet, and by rail 93 cars. The receipts by lake at Oswego for the week, were 8,536,000 feet.

THE WEST.

THE WEST.

Lumberman and Manufacturer, \ Minneapolis, Minn. \
The nearly impassable condition of the roads in the West and Northwest ought under ordinary circumstances to nearly suspend the lumber business, but such is the necessities of consumers that all obstacles are to be overcome and lumber dragged through the mud and mire to satisfy the demand. There is no perceptible falling off in shipments at any of the river cities, and St. Louis and Hannibal, although bothered with high water, are increasing rather than diminishing their operations—the former going as high as 2,700,000 feet shipments in a day last week. Minneapolis got off 4,600,000 feet last week under the worst circumstances that ever surrounded them.

The floods on the rivers are at this time (Thursday) gradually subsiding after doing much harm to all classes, but distributing its favors over all the north half of the Mississippi. Exciting reports are in circulation concerning the damage to crops in Illinois, lowa, Wisconsin, Minnesota and Dakota, and there is too much evidence that the rumors are well founded. All the saw mills of the Northwest are running again. A few are shutting down, but generally the log supply is abundant to run a month yet.

Prices seem to be upward continually. There will be a new list issued by some of the leading houses (and perhaps all) in Minneapolis next week, which put from fifty cents to one dollar on common and medium grades, but the figures are not yet fixed. The general opinion at other points seems to be that the heavy damage done to hay and grain together with the increased value of labor and supplies will make it impossible to duplicate the present lumber stock at its present selling price. This gives to holders a feeling of independence and to the market a firmness which it has not had in our day.

FOREIGN.

FOREIGN.

The following are from Timber Trades Journal of Oct. 15, 1881:

LONDON.

A large buyer secured the parcel, and it is evident among small consumers that goods of this mark have no special attraction. Amongst the lowest prices obtained on Wednesday may be counted the St. John's spruce ex Lady Dufferin, a small lot of 11 in. being knocked down at £7 15s., Quebec 3d regulars being quoted at £7 10s. Apart from the St. John lot the pitch pine ex John Ritson, from Pensacola, went as loved as anything in the sale, only realizing £8 10s. per standard. 2x9 Gefle of the KHB mark were put to the room at £16 5s., and £13 15s. for 2½x11 3d quality, but buyers were not forthcoming at these high prices.

feet.
28,960,232
19,818,914
7,035,670
727,816
2,958,515
59,501,147

Due buyers were not to Quebec goods, of which there was a large assortment submitted, we may sum the position up as unaltered, and, as on previous occasions, yellow pine goods, unless without reserve, were not noticed. The upset price of 1st bright was the normal one of £31 to £32 10s., which seems to be the standing quotation for goods of the kind.

Owing to the sudden change of wind from a westerly direction, several vessels which have for some days past been beating about in the Channel have arrived in port, and next week will be well on with their discharge, when we shall see a more lively state of matters, although a large proportion of this part of the fall import has been already bought on contract for arrival, and the quantity unsold and available for the open market will be very moderate.

Prices continue irm, and are likely to continue so considering the firm attitude held by shippers and the increased rates of freight and insurance consequent upon the advance of the winter season.

The consumption of hewn pitch pine for the present month will be increased by the Mersey Docks and Harbor Board for about 35,00 cubic feet, all of which will be delivered within the current month. This, however, will still leave the stock in a fair condition to meet the requirements of the market for a few months to come.

In Ouebec goods, as in Bultic huvers are by no

will still leave the stock in a fair condition to meet the requirements of the market for a few months to come.

In Quebec goods, as in Bultic, buyers are by no means disposed to pay the prices asked by shippers, and are still inclined to wait the course of events, and purchase when necessity really compels them to do so, rather than buy in anticipation of a time, which seems yet distant, when a profit can be obtained upon the rates current abroad. In some cases the prices asked in the shipping ports are as high as those for which purchasers could be found in this country, after freight, insurance, and other charges are paid, without leaving any margin for profit.

Messrs. A. F. & D. Mackay offered to-day (Wednesday) one cargo spruce deals discharging at the Brunswick Dock. The prices realized did not vary greatly from those recently current, as will be seen from the following details:

Spruce deals, St. Johns, N. B.—16 to 21 ft 3x11, £7 175 64; 12 to 15ft 3x11, £7 15d; 9 to 11 ft 3x11, £ 10s; 16 to 24 ft 3x7, £7 10s; 12 to 15 ft 3x7, £7 to £7 28 6d; 9 to 21 ft 3x14, £7 5s; 9 to 21 ft 3x12 and 13, £7 28 6d; 9 to 21 ft 3x14, £7 5s; 9 to 24 ft 3x8, £6 185; 9 to 24 ft 3x6, £6 178 6d.

METALS.—Copper—Ingot has not met with a very heavy outlet, indeed the demand was undoubtedly disappointing to sellow and the control of the subject of the sellow of the subject of the s

heavy outlet, indeed the demand was undoubtedly heavy outlet, indeed the demand was undoubtedly disappointing to sellers, and while the position is under-too good control to permit of any decided downward turn, the slow movement has a weakening influence on values. We quote at about 18\(\text{2}\) 18\(\text{2}\) 48\(\text{2}\) 48 disappointing to sellers, and while the position is under too good control to permit of any decided downward turn, the slow movement has a weakening influCharcoal terne, \$5.25@5.50 for Allaway and Dean grade 14x20; \$11.25@11 501% for do. 20x28; Coke terne, \$5.00@5.121% for Glais grade 14x20, and \$10.50@10.75 for do. 20x28—all in round lots. Spelter a shade easier and not very active, though holders do not give way readily. We quote at 5%c@54/c., as to brand. etc. Sheet Zinc has a steady uniform sale, and is quoted firm at 71/2071/c. from store.

NAILS.-The demand has been good, indeed somewhat better than during the early portion of the month, and quite a large amount of stock in one way

month, and quite a large amount of stock in one way and another found an outlet. Supplies now appear to be reduced and concentrated with fewer "outside" lots offering, and holders correspondingly firm and confident in their views.

We quote at 10d. to 60d., common fence and sheathing per keg, \$-@3.40; 8d and 9d, common do, per keg, \$3.65; 6d and 7d, common do, per keg, \$3.90; 4d and 5d, common do, per keg, \$4.15; 3d, per keg, \$4.9; 3d, fine per keg, \$5.65; 2d, per keg, \$5.65. Cut spikes, all sizes, \$3.65; floor, casing and box, \$4.15@4.90; finishing, \$4.40@5.15.

CLINCH NAILS.

1½ inch, \$5.90; 1¾ inch, \$5.65; 2 inch, \$5.40; 2½@2¾ inch, \$5.15; 3 inch and longer, \$4.90.

PAINTS AND OILS.—There does not appear to have been much doing on this market and few features of special interest are developed since our last report. Most goods are ruling steady in price and report. Most goods are ruling steady in price and some quite firm, particularly so on vermillon and whiting, but no inclination to buoyancy shown; and good full bids in pretty much all cases receive due attention. Linseed oil secures a good steady demand from all regular sources, and as the desirable supply is under good control the owners naturally feel not only firm, but confident over the immediate prospect ahead. Most of the offering at present is domestic stock. We quote at about 60%63c, for city and 64%65c, for Calcutta from first hands.

PITCH .-- About the usual demand has prevailed with nothing really new on the market since our last. Stocks not very large, but fairly balance the outlet We quote at \$2.25@2.30 per bbl. for city, de-

SPIRITS TURPENTINE.—The consumption has been seasonable, and jobbers and retailers have put the stock out of their hands, at about a steady line of the stock out of their hands, at about a steady line of cost, the main variation being over quantity handled. On parcels from first hands, a variable tone was current, but the tend-ncy mainly in sellers favor on the stimulus of better primary markets and an improving tone abroad, which it is expected must eventually lead to increased exports. As this report is closed the quotations stand about 53 75c, per gallon, according to quantity of stock handled.

TAR.-Business only fairly active, as with the pretty good stock in sight buyers have been unwilling to hasten their movements, or to anticipate their wants. Holders, however, refrain from any great pressure, and are about steady in their views at current figures. We quote at \$3.00@3.25 per bbl. for Newberne and Washington, and \$3.00@3.37½ for Wilmington, according to the size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur, preceded by the name of the grantee they mean as follows:

1st—Q. C. is an abbreviation, for Quit Claim deed i e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

Stewart, James—John Flynn, ns Herriot st, lot letter B.

MORTGAGES.

Note.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgage. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date.

NEW YORK CITY.
