REAL ESTATE RECORD

AND BUILDERS' GUIDE.

Vol. XXVIII.

NEW YORK, SATURDAY, DECEMBER 10, 1881.

No. 717

Published Weekly by The

REAL ESTATE RECORD ASSOCIATION

TERMS:

ONE YEAR, in advance - - - - \$6.00

Communications should be addressed to

C. W. SWEET, 137 Broadway.

J. T. LINDSEY'Business Manager.

The conveyances show quite an increase this week in numbers and the amounts involved. There is also a large increase in the recorded mortgages. It is noticeable also that the annexed district, that is the Twenty-third and Twenty-fourth wards, shows more activity in the way of transfers than for some time past. This is due in a great measure, doubtless, to the talk of new parks and other improvements on the other side of the Harlem. The annexed table is a kind of thermometer to tell the temperature of the real estate market from week to week.

New York presents every indication of prosperity. Its hotels are crowded, all its places of public amusement thronged, the wholesale houses were never so busy, and the retail demand never so active. The large additions to our permanent population is shown by the impossibility of accommodating the children in our public schools. We want more hotels, several new theatres, and at least half a dozen additional schools. The growth of business, both on the street cars and the elevated roads, tells the story of the increasing population, and the more active business of the metropolis. There is no surplus of houses in New York, all are needed for its present population, and there is no fear of overdoing the business of supplying additional houses for the accommodation of those who wish to live on Manhattan Island.

There is some talk of the Stewart property on Broadway and Chambers street being rented for a long term of years by the city, to accommodate city offices which are now scattered in various quarters because of the limitations of room in the building situated in the City Hall Park. The Stewart building is a large one, and, if properly arranged inside, would afford ample accommodation for the various bureaus and city departments which now find shelter in out of the way localities. It is understood that Judge Hilton wants to sell the property, but private bidders demur at the price he asks, which is said to be \$1,750,000. Should the building be rented by the city, there would soon be an active demand for bar rooms in the vicinity.

MANUFACTURING ACTIVITY.

The exchanges again show that there is a manufacturing boom under way. It is St. Louis, Cleveland, Pittsburg, Lowell, Columbus, and other iron and cotton factory centres, which show the great advance. ing points like New York, New Orleans, Milwaukee and Memphis, show a falling off. This city, however, advantages somewhat by the manufacturing activity. Thousands of small industries have their headquarters in or near the metropolis, and there is no reason why New York might not become, in time, a greater manufacturing centre than Cleveland or Pittsburg. All our suburbs are open to the establishment of factories, and our rail and water communication is better and cheaper than that of any other large city in the world. Cheap land is needed, of course, to erect dwellings for working people at low cost. This can be secured in the annexed district on or near tidewater, and within easy reach of railroads already built or projected.

It is not likely that New York will ever again be a point at which wooden ships can be economically constructed. But why may not iron and steel vessels be made here? We have the most direct communication to the greatest coal and iron beds in the world. It is an axiom that, wherever coal and iron can be laid down the cheapest, that point of necessity must become a great manufacturing centre. New York cannot compete with Pittsburg or Cleveland in bulky iron and steel structures intended for the West, but in a little while, if not now, it will be found that in, or near this city, is the cheapest place in which to build iron or steel steam vessels. Mere commerce is not so potent an agent in increasing population, as is the building of great factories. Birmingham and Manchester will always hold their own with Liverpool. All the old roads as well as the new ones from the coal and iron region are making New York their headquarters. When the bridge over the Hudson at Peekskill is built, the Pennsylvania, the Erie, the Delaware & Lackawanna, will bring coal and iron as cheaply to this city as it is now

ought to advertise New York as the best place in which to start new manufactories.

THE STOCK MARKET.

The stock market looks strong. It seems very difficult to get prices down, though quite a number of things has been helping the bears, especially tight money. There are those who say there are several surprises for the street, one being the cutting of a melon in Northwest, by which the common and preferred stocks would advantage largely. There is no doubt but what this company is in excellent condition. If the Indian Territory should be opened, as is not unlikely from President Arthur's message, the M., K. & T., the San Francisco and the Atcheson & Santa Fe would all go booming. Denver & Rio Grande is also believed to be a purchase, for although the road is now being built through unproductive territory, yet the time is coming when two powerful corporations will be competing for it, as it will give either of them a potentially valuable Western connection. The Chicago, Burlington & Quincy will soon reach Denver. The Atchison & Santa Fe joins the Denver & Rio Grande at Puebla, and these two great Boston corporations will be competitors for the Denzer & Rio Grande. This stock will have a great many ups and downs, but insiders think it a purchase now. The statements made in connection with the New York & New England road, which is now a Gould property, show that our elevated system is destined to become a part of the general railway system of the country. The Gould system of roads will have connections north, west, east and south entirely independent of the Vanderbilt system, with the great advantage of reaching every part of New York island for the collection and distribution of passengers and freight. December is an uncertain month, however, to speculate in stocks. There are apt to be severe pinches in money previous to the first of January. Congress, too, this winter will be discussing a number of disquieting questions, as for instance the tariff, internal revenues, the reorganization of the banking system, a 3 per cent. refunding bill and the silver question. But, then, the country is prosperous and the business of the railroads verv large.

The long article in the He ald about real estate this week is somewhat misleading. It conveys the impression that a great many new building plans are being filed by capitalists and others, which is not exactly true of the immediate present. The totals for the past year figure up largely, but there is a dearth of new plans just at present, due to the season as well as to the unpleasant fact that the new houses built on speculation did not sell as readily as it was expected they would do. There is a large number of surplus houses still on hand; they will be sold sometime, as they cannot be duplicated taken to Philadelphia. The newspapers at the prices asked for them. But the demand for medium priced new houses for purchase is very light.

It now seems that the proposed new rapid transit route up Third avenue in the annexed district is already a fiasco. There was great fuss about it in the papers, but the money is not forthcoming, and the old suburban rapid transit company is unostentatiously proceeding with its work. It will take time, but the residents of the Twenty-third and Twenty-fourth wards may be assured that they will get a splendid system when the road is built. It will be real rapid transit and will benefit all the property in the two wards, as well as Westchester County beyond.

It seems the Broadway Underground Company have only \$2,000 subscribed for building the work between City Hall Park and Fourteenth street. The organizers of the company modestly ask the right to own the entire core of Broadway, and to have the right to occupy the middle of the street for from eight to twelve years. The property holders have submitted some very cogent reasons to the Mayor why the authority should not be granted. They may be right as regards this particular company, but if ever we are to have real rapid transit, it must be on terra firma, and the route must be under Broadway and up the backbone of the island.

MINING INFORMATION.

The Engineering and Mining Journal says of the Robinson dear than, if it took place out West, it would result in "a tree, a rope and a man attached," and certainly on its face it seems to have been a most villainous deal. The mine is, it seems, really a good one. Expert Ashburner's report is on that point all that could be desired. But the stock was manipulated and forced to too high a figure. There seems to have been a settled purpose, on the part of one or more insiders, to work the stock up to a certain point and then to unload upon the investing public. After it was washed up to \$14.50 on the regular Mining Board, it was listed upon the regular Board through the efforts of Brayton Ives, the president of Robinson, and S. V. White, its treasurer. A double dividend was declared, and then commenced the unloading. The stock went down to the neighborhood of \$5. Then it was announced that the superintendent had resigned, the company had borrowed money to pay its last dividend and that the dividend for the current month would be passed. All this shows that a deliberate attempt was made to swindle, and that somebody ought to be punished. The friends of Brayton Ives, a former President of the Stock Exchange, say that he was the victim and that he has lost the profits of his last two years business. Mr. S. V. White declares that he lost money, which is a very surprising circumstance to happen to an intimate friend of Mr. George D. Roberts. Ives and White say that Ewing, the late superintendent, was the real culprit, that it was he who misled them; while Ewing, in an interview with the reporter of a Denver paper, calls Ives and White very hard names. It is to be seen whether these latter gentlemen will not only sue Ewing for libel, but try and punish him for borrowing money unknown to them. Ewing has since come to New York and has published a letter denying that he used the language attributed to him in Denver, and gives a certificate of character to Ives and White. Somebody profited by this gross swindle on the public. The President, Ives, Treasurer White and Superintendent Ewing all declare that they are heavy sufferers by the decline. Who then was the rascal in the case? The Stock Exchange very promptly punishes brokers who take less than the usual commission

has it no punishment to inflict upon the manipulators of this Robinson deal?

Silver Cliff is a good property to avoid. It is managed a la California style, the public every time being the victims. The difficulty with this mine is that the ore on an average runs very thin in mineral. Some pieces give splendid results, but other portions of the rock, which look quite as well on the face, do not pay for the working. The Silver Cliff mine, therefore, is a vast quarry of barren stone, interspersed with rich streaks of chloride silver. James R. Keene and his friends have a great deal of the stock, and they will doubtless get up frequent deals to get rid of it. Holders would, perhaps, do well to sell every time the stock advances.

The break in Bodie and Mono is understood to be due to sales by James H. Banker who purchased the stock at very high figures. William M. Lent states that the Bodie-Mono shaft is now down 800 feet, and that a cross cut has been commenced running east. Outside of the Standard Mine the outlook is not promising in the immediate future of the Bodie district. Still the stocks are cheap and those who purchase them at present figures and can afford to pay assessments, will probably find their reward before the close of next year. Bulwer has now a surplus of over \$100,000, not derived from the mine, but from the working of its mill on Standard ore. It has declared a dividend of ten cents, which will doubtless be kept up for a year at least. Bulwer makes a profit of some \$8,000 a month from its mill, without any reference to the mine. There is no reason to believe that Bulwer has any value as a mine. The ore bodies which were near the surface when pay ore was found in Bulwer, pitch far to the east in the lower levels and out of Bulwer ground. Yet, Bulwer may be able to keep up ten cent dividends for several years to come, from the fact that it owns one of the finest mills on the Pacific coast, which can be constantly employed on custom work.

The Homestake mine has been consolidated with the Giant and Old Abe. The consolidation is a good thing for the Homestake and its stockholders, as a great deal of good territory is thereby obtained as well as a very valuable plant. The stock of the Homestake sold as low as 15, which looks cheap in view of the 20 cents a month on each share which is regularly paid on the stock.

Chrysolite and Iron Silver seem to be very well managed mines. Stockholders are honestly dealt with, a compliment which cannot be paid to more than one mine out of a hundred.

The Mining Exchange has been doing an enormous business lately. Mining shares are very attractive for small operators who can "swing" from \$50 to \$500. If our regular Stock Board was to deal in ten-share lots, as they do on the London Exchange, it would double the business of the Stock Board and would ruin the Mining Exchange: but the latter now monopolizes the small dealers, and, then, there seems to be again a growing interest in mines. Notwithstanding the heavy losses the gamble is an attractive one.

Bodie and Mono ought to be a purchase, if the one can be got for \$2 and the other for less than \$1. There have been heavy sales, due to disappointed insiders, but some day or other these two stocks will sell at high figures, as will Oro and the Noondays. An assessment of fifty cents has been put upon Bodie. Mr. W. M. Lent explains that this is due to two reasons, the mill wants to be repaired, and some \$30,000 is required for the settlement of the Jupiter ground dispute. Bodie is still producing about \$25,000 a mouth more than required for the running expenses and the work of development.

The Twenty-fourth street side of the Hoffman House has recently been converted into one of the finest bars and billiard saloons in the city.

Mr. Edward Stokes is the owner of the two houses on Twenty-fourth street, which are now a part of the Hoffman House, and it is said he has become a partner of Cassius H. Reed, formerly

the sole owner of that hostelry. Stokes is said to have made a good deal of money in California.

IMPORTANT DECISION ABOUT PARTY WALLS.

A decision has been rendered, in the case of Hupfel vs. Graham, by Judge Horace Russell, of the Superior Court. In this case the plaintiff was praying for a perpetual injunction restraining the defendant from completing an extension of a party wall on the property now being built on by the defendants, Messrs. C. Graham & Sons, in Thirty-seventh street near Lexington avenue. There was a question of veracity between the parties to the action in regard to whether a verbal agreement had or had not been made between them, by which the plaintiff was to permit the defendant to extend the party wall three feet in depth. The point was made, and fully argued by the defendants, that the Messrs. Graham had a right to extend the wall without any agreement. Judge Russell decided that the defendants could extend the party wall, but failed to hand down his opinion in writing. This is is somewhat unfortunate, but if he decided the case upon the broad question of the right of the defendants to extend the party wall, the decision is a very important one. The counsel for the defendants was Samuel Greenbaum.

NOTES AND ITEMS.

A dispatch from Toronto, Ont., dated the 7th inst., says: the Ontario Government sold, yesterday, timber limits in the Muskoka and Parry Sound districts, aggregating 1,270 square miles. The total amount realized was \$717,176.

The total amount realized was \$717,176.

The Board of Estimate and Apportionment have authorized the issue of \$340,532 consolidated stock of the city, and \$374,692 assessment fund stock for the payment of awards for property taken for the opening of streets and avenues uptown under the decision of the Commissioners of Estimates. It also covers the opening of various streets and avenues in the Twenty-third Ward. In additon the sum of \$48,942 assessment fund stock, and the same amount of consolidated city stock were authorized to be issued for the payment of awards for the opening of Sedgwick avenue in the Twenty-fourth Ward.

OUT AMONG THE BUILDERS.

Ground has been broken for a handsome residence near the main entrance to Llewellen Park for Mrs. Plummer. Mr. George Lethbridge will also commence the erection of a new residence in the park at an early date. The plans for both of these are from designs by Augustus Eichhorn.

The old Reformed Church on Java street, near Franklin, in Greenpoint, is being torn down, the property having been purchased by G. J. Roberts, the builder, who proposes to erect a row of three-story dwellings thereon.

Mr. J. B. Nutt broke ground on Tuesday last on the east side of Tenth avenue, between Seventy-third and Seventy-fourth streets, preparatory to the erection of four four-story brown stone houses.

The company of capitalists, of which Austin Corbin is said to be the head, that recently purchased the Litchfield estate, near Babylon, L. I., have purchased the Brown farm, now occupied by the Westminster Kennel Club. It adjoins the Litchfield property and extends to the farm of August Belmont. The company, it is said, propose to erect a hotel and a number of cottages.

Surveyors are at work on Shinnecock Hills locating sites for a hotel and cottages, to be erected in time for occupancy next summer.

H. J. Schwarzmann & Co. are at work on the plans for a new cigar manufactory for Belvin & Sieber, to be erected on Sixty-third street, between Second and Third avenues. It will be 50x90, six stories high, and built of brick at-an outlay of about \$30,000.

Mr. E. L. Ludlow, a son of the well-known real estate broker and auctioneer E. H. Ludlow, is erecting a residence near Tivoli, Dutchess County. The house is in Columbia County, and when completed, will be a double three-story brick, with a slate roof, 40x40, and will cost, including the stable, about \$20,000. The plans for this house were drawn by Mr. John Rogers.

William J. Merritt proposes to erect two flat houses on the north side of One Hundred and Twenty-seventh street, 100 feet east of Eighth avenue.

Ten flat houses are to be erected on the east side of Lincoln avenue, 50 feet north of One Hundred and Thirty-fifth street, by Charles C. Schildwachter. Architect. William Kusche. William Jose is at work on the plans for a flat house to be erected on the west side of Tenth avenue, 50 feet north of Fifty-second street, by L. C. Sanford.

Two apartment houses, with accommodations for seventeen families, are to be erected on what will be known as Nos. 442 and 444 East Seventy-sixth street. Architect, P. H. McManus.

Geo. B. Pelham has prepared the plans for a flat house to be built on the west side of First avenue, 25 feet north of One Hundred and Nineteenth street, by Robert J. Algie.

It is said that the plan most likely to be adopted by Henry Villard for the improvement of the plot of ground comprising the entire front on Madison avenue, between Fiftieth and Fifty first streets, and extending 175 feet in depth, will form a new feature in the style of New York's handsome residences. This plan includes the erection for himself of a magnificent mansion on the southeast corner of Fiftieth street, 61 x110x175, the placing of a magnificent fountain and garden with a frontage of eighty feet on Madison avenue directly in the centre of the block, and of a semicircular form, and in the rear of which will be a number of residences. The cost of this improvement will doubtless reach \$1,000,000.

Anthony Mowbray proposes to erect two handsome residences on the plot of ground just purchased by him on the north side of Sixty ninth street, 34 feet west of Madison avenue.

ATTRACTIVE HOMES ON A BOULEVARD STREET.

Of all the handsome residence streets lately improved, there is none more desirable than Seventysecond street, east of and adjacent to Central Park Being a Boulevard street, it has the advantage of be ing cleaned, sprinkled and kept in order by the Department of Public Works. The row of nine four-story brown stone dwellings on the north side of Seventy second street, 100 feet east of Madison avenue, that are just receiving the finishing touches from the hands of their owners and builders, the well-known Lynd Brothers, are an ornament to this aristocratic locality. These houses range in width from 20 to 27 feet, and are all on lots 102,2 in depth. They are trimmed and finished in different styles so as to please various tastes. The two houses nearest Madison avenue are 27 and 25 feet The cellars are paved with Port wide respectively. land cement, well lighted, and have a ventilating shaft extending to above the roof. The foundations are solidly constructed of brick and cut stone. In the basement is the billiard or breakfast room, which is tastefully trimmed in ash and cherry, as well as the kitchen and laundry, which are fitted with all the latest improvements. The hardware here and throughout all the houses is of hand-made bronze, by A. G. Newman. The main staircase is of mahogany, beautifully carved and will bear the closest inspection, the de sign being peculiarly unique. On the first floor will be found the parlor, finished in walnut, the diningroom, around which runs a high wainscoting of mahogany, also a buffet of fine workmanship with handsome beveled mirrors, and the library, a charming bright room in the extension. The second floor contains four bedrooms arranged in the saloon style, finished in satin wood and maple. The mantlepieces on this floor are exquisitely carved in artistic designs, and all the tiles are of the very latest æsthetic 'combina-The grates are of new and chaste designs. There is also a private staircase connecting this floor with the lower part of the house. The third floor contains three sleeping apartments, and the fourth, in addition to four bed-rooms, a large trunk room and linen closet. The more moderate sized houses show the same careful workmanship that characterizes the ones described, differing only from them in not having a third room on the first floor and in the style of the trim. Some of these houses are finished in the second story with butternut, root ash and cherry harmoniously blended, and producing a most charming effect. The writer was particularly struck with the great amount of attention that had evidently been paid to the plumbing work, every trap being specially ventilated by a pipe leading to the air above the roof. The bath-rooms, too, have a large ventilating shaft or window, opening in the clear. worthy of notice that all the timbers used in the con struction of these houses are extra heavy and wellseasoned, and that they are furnished throughout with electric bells. The fronts are of carefully selected brown stone of a purple shade, and are approached by substantial stoops, surmounted by handsome porticos. In the rear they have bay-windows reaching to the roof. One of them was sold sometime before completion, and is now occupied by its new owner. The excellent location of these houses, being so near Central Park, the Lenox Library, the magnificent res dence now being erected by Mr. C. L. Tiffany, rapid and surface transit and in an improv ing neighborhood, in connection with the well-known reputation of the Lynd Brothers as builders of houses not only for to-day but for all time, render it expedient for all persons looking for handsome, commodious homes to pay a visit to these houses without delay, as they doubtless will all soon passicto private hands.

SPECIAL NOTICES.

All who have occasion to use belting for operating sewing machines or other light machinery, would do well to inspect what is known as the Perpetual Ten sion Propelling Belt, which can be seen at 370 Seventh avenue, New York. The belt is made of coiled wire, is not affected by water, oil, heat or air, and onethird more work can be done with it than with any other belting. A sewing machine belt costs only fifty cents. At the same establishment can be found the Climax Sash Cord, made of coiled steel wire, and it is highly recommended by James Renwick, archi tect, as being far cheaper than the hempen sash cord for windows and equal to any metallic co.d. In the same factory, they have a door-spring costing only 25 cents, which is one of the most simple and durable in tne market. It is marvelous what new uses iron and steel is being put to. The above articles are at once cheap, durable and exceedingly useful. would do well to inquire into this sash cord, also the door-spring. All who use sewing machines, lathes and saws, should not be without the tension propelling belt.

Attention is called to the advertisement in another column of the handsome new residence, No. 1 East Sixty-fourth street, a full description of which was given in our last issue.

Attention is called to the card of the Atlantic and Gulf Coast Canal and Okerchobee Land Company (of Florida), which appears in another column. company has a contract to reclaim 8,000,000 acres of the best producing lands of Florida, and proposes to expend \$1,000,000 within twelve months, one-half of these lands are to become the property of the company. This is one of the most gigantic enterprises of the age. Parties having an interest in or going to Florida will readily see by the advertisement that this undertaking, as far as the individual stockholders is concerned, is placed beyond any risk of loss. He at once gets the worth of his money in the best selected orange lands and whose value will be increased by the improvements of the company. This company was formed by the well known Philadelphian, Hamilton Disston. The Hon, A. P. K. Safford, ex-Governor of Arizona (under Gen. Grants administration), is the managing director and William Harlan Page is the general agent in New York City.

ANSWERS TO CORRESPONDENTS.

Subscriber.-The route of the Suburban Rapid Tran sit has appeared so often in print that we take it for granted that you desire to know the route of the new proposed rapid transit route recently approved by the Mayor, which is as follows: Commencing on the southerly side of the Harlem River at Second avenue, across the Harlem River to Lincoln avenue: thence up the same to One Hundred and Thirty-eighth street and Third or Fordham avenue, thence up Third avenue to College place, Fordham; thence northerly up College place to the southerly boundary of the lands of St. John's College; thence through said lands easterly from the Harlem Railroad lands, and distant not less than twenty-five or more than seventy-five feet therefrom, and through other lands and streets contiguous to the Harlem Railroad Company's lands, at a like distance therefrom to the southerly side of the Bronx River. There is also a branch road proposed, commencing at One Hundred and Thirty-eighth street and Third avenue, and running westerly over One Hundred and Thirty-eighth to the Harlem River.

It is more than likely that the project will have to be abandoned, one of the largest subscribers to the stock of the company having expressed the opinion within a few days that it would be impossible to raise enough funds to complete the road.

The following associations heve been formed, all being parts of the Central Park Apartment House Clubs, or. as they are more generally known, the De Navarro Apartment Houses. The Barcelona, with a capital of \$240,000; the Madrid, capital \$280,000; the Lisbon, capital \$280,000, and the Cordova, capital \$240,000. The following names appear as incorporators in one or more of the above named associations: Jose F. De Navarro, J. Clyne, Geo. S. Lespinasse, T. A. Vyse, Jr., T. S. Clark, F. B. Dixon, J. Del Calvo Ashbel Green, M. E. De Rivas, J. A. Hyland, and A. Arango.

MARKET REVIEW.

REAL ESTATE.

For list of lots and houses for sale see pages it and iil of advertisements.

A rather dull week this at the Exchange. There was a large attendance whenever a sale was announced, but the property offered was not enough to "make a market." On Tuesday the five lots co ner On Tuesday the five lots co: ner Fifty-eighth street and Madison avenue sold for \$121,-000, which is not considered to be their full value. They were knocked down to Mr. Charles Duggin, who expects to build first-class residences upon them, but not immediately. When the name was announced, the auction er. Mr. Ludlow, asked inquiringly "Duggin & Crossman?" "No," was the reply, "Duggin & Mr. Crossman is in a better place than the Real Estate Exchange," whereat there was a smile among the operators. On Thursday, the Knickerbocker Club property, on the corner of Fifth avenue and Twentyeighth street, was put up for sale, but the highest bid was \$152,500, which not being deemed sufficient by the parties in interest the sale was adjourned. mediate prospect is not brilliant for the real estate auctioneers. Transactions at private sale are light, but there are some very large ones. under way. The undertone is remarkably strong The readiness with which houses are rented in the annexed district, the talk about new parks and the cer:ainty of new railroads being constructed, is attracting a good deal of quiet attention to the Twentythird and Twenty-fourth wards. When the time comes it will be found that the knowing ones are generally absorbing desirable property. There are plenty of landowners who are willing to put in their property if capitalists will build houses thereupon, the rofits to be divided. The new bridges over the Harlem, which are soon to be constructed, will have a marked effect in raising the price of property on the north bank of the Harlem River. None of the experts in real estate believe there will be any activity before the early spring; the market for the next three months will probably be a dull one.

At the Exchange Salesrooms next week several valuable properties will be offered at public sale pursuant to orders of court.

On Monday A. H. Muller & Son will sell the fourstory brick store No. 439 Broadway, west side, 16.6x15; and C. S. Brown will put up five lots on the south side of One Hundred and Twenty-fifth street, commencing 235 east of Sixth avenue, to satisfy mortgages amounting to about \$42,650.

On Tuesday several parcels of store and dwelling property on Sixth avenue, Eighth avenue and Fourteenth street will be offered by Wm. Kennelly, and on Wednesday seven lots on the southwest corner of Avenue B and Seventy-third street will be sold by J. T. Boyd to satisfy mortgage of about \$14,600.

On Thursday next Adrian H. Muller & Son will sell some potentially valuable property in Pearl, Jay, Canal, Washington, William, Chrystie and East Eleventh streets. The advertisement will show the character of the property.

Gossip of the Week.

Messrs. Scott & Myers have sold the plot of ground, on the north side of Sixty-ninth street, 34 west of Madison av, 61x100.5, for \$90,000, to Anthony Mowbray,

J. D. Crimmins has sold a plot of ground on the east side of Tenth avenue, between Seventy-third and Seventy-fourth streets, 80.8x100, to J. B. Nutt, for \$26,000.

H. W. Shipman has sold the three-story brick dwelling, No. 336 West Twenty-second street, 24.6x123, for \$15,000.

Mr. B. F. Small has sold, for Dr. W. H. Dwinelle, the Bishop Jayne place, on the brow of Orange Mountain, to Marcellus Hartley, for \$18,000.

Messrs. Riker & Co. sold, on Saturday last, a fourstory brown stone dwelling, 17.6x60x100.2, on Fiftyfifth street, between Fifth and Sixth avenues, for \$25,000, and rented the same for \$187.50 per month.

F. Zittel has sold eight lots on the north side of Fifty-seventh street, 100 east of Second avenue, for \$9,000 each, and they have been resold at an advance.

The same broker has sold, for Moritz Bauer, the dwelling No. 168 East Sixty-fourth street, 15x6 x100, with an extension, to Mr. Chatterton, for \$15,500 cash.

Two plots of ground, comprising together fourteen city lots, on either side Seventy-third street, between First and Second avenues, have been sold for \$55,000. A lot on the south side of Seventy-first street cont

A lot on the south side of Seventy-first street, east of First avenue, has been sold for \$4,000.

William S. Wright has sold the four-story brown

William S. Wright has sold the four-story brown stone dwelling, No. 697 Madison avenue, 19.4x44x50, to Gen. Daniel D. Wylie, for \$30.000.

J. V. D. Wyckoff has sold the southeast corner of Eighty-third street and Fourth avenue, 27.2x100, for

BUILDING MATERIAL MARKET.

BRICKS.-In all essential particulars the market remains just about the same as last week, and we are really without new features of interest to advise. Supply has been quite full, but so has the demand, ard a balance is struck which preserves a steady line of values all around. As yet the bulk of the stock changing hands may be consilered as moving pretty cirectly toward consumption, and this is another strengthening feature; but dealers are by no means as indifferent as they were a week or two ago, and when they find a cargo to suit them are quite sure to give it a place as an aid toward completing accumulations, in most cases now showing only a limited aggregate. The general line of prices named is placed at just about the same as last week, at say \$7.25 and \$8.25@36236 per M for Haverstraw. Pale brick receive good full attention and sell quite as close to supply as the better qualities, while on prices the tone is firm with \$4.50@4.75 per M still quoted. Advices from along the Hudson indicate a continuation of shipments to the full extent of the transportation facilities presented, with every reason to believe that manufacturers will let their stocks come forward as long as the river remains open, and especially if present rates continue. Fronts are quite scarce and the cost remains full and firm.

CEMENT.—Of domestic the amount available is really without new features of interest to advise

CEMENT .- Of domestic the amount available is very small, and the demand continues good which in connection with reduced facilities for getting supplies forward leads to a steady strengthening of values. About \$1.25 is now inside. Foreign grades do not show much activity, but this is mainly owing to a want of stock and agents say they could place a large quantity if they had it here.

HARDWARE.—Business has fallen away in a few cases, and the chances are thought to be in favor of a still further shrinkage, yet dealers all assert that they still further shrinkage, yet dealers all assert that they are surprised to find the movement even as full as it, and reports upon the condition of the market are universally cheerful. A great many manufacturers are still behind with their contracts, and it is a question with a number about being able to get through before the close of the year. In some cases preparations are already making to take inventories, but it is too early for this movement to become general. Prices remain firm, and both individual and combination price lists as now under revision, take the upward turn.

Pretty much all the manufactures of Button.

Pretty much all the manufacturers of Builders' Hardware have agreed upon an adv: nee of 5@10-15 per cent., and are now issuing their new price lists and discount sheets to conform to that basis.

LATH.-Some few arrivals have taken place, but they all appeared to be wanted, and at the present writing we hear of no stock offering while the general tone is quite steady at full former rates. In some quarters the demand has fallen away a trifle from consumers, but this is not as a rule the case, and with dealers still on the lookout for stock, receivers have no fears but that all cargoes coming to hand can be placed.

LIME.-Demand good, the available supply small, and prices still very firm at full former rates on all classes of stock. On the last week of canal naviga-State stock, but what there is left of this after meeting contracts holders are willing and determined to carry on the boats and peddle out on winter orders.

LUMBER.-There is not much of int-rest passing on the general market at the moment, the demand showing no unusual volume or animation, but still proving full enough to exhaust about all the supply as it comes to hand, and apparently always room for just a little more provided it be good enough. On coastwise there is a slightly unsettled tone owing to the uncertainty regarding the amount of stock afloat an t the manner in which it may come to hand, some buyers rather holding off in hopes that recent winds may have bunched up cargoes in such a way as to bring many in together and place sellers somewhat at a disadvantage. Receivers, however, assert that nothing of this kind is likely to take place to any serious extent, and generally seem to consider that a firm position is very well assured for the balance of the year. The yards show very fair stocks, and in some cases the accumulation is full, but dealers do not object to further negotiations on a basis of current cost. Building operations consume a large amount of stock still but contractors do not move much for future wants. For manufacturing purposes there is also a slight luil, though no more than usual at this season. Exporters show more or less interest and the foreign trade is certainly on the mend. showing no unusual volume or animation, but still

Prom November 23d to November 30, 1881, the state canals carried 23,600 tons boards and scautlings, 107 tons shingles, 3,601 tons timber, 460 tons staves, 546 tons stayes, 3,601 tons tone of the control of th

From among the lumber charters and engagements

No. 1.

From among the lumber charters and engagements recently reported, we select the following:
A Br. barque, 398 tons, from Prunswick to Buenos Ayres, lumber, \$18 net; a Br. ship, 1.135 tons, from Prunswick to Buenos Ayres, lumber, \$18 net; a Br. ship, 1.135 tons, from Prunswick to Buenos Ayres, lumber, \$20 to Antwerp, timber, supposed \$5 178, 60, for sawn and 368 for hewn; a Br. ship, 1.100 tons, from Mobile Bay to the United Kingdom or Continent, one-third cargo sawn timber, £6, balance hewn, 378, 61; a Br. barque, 432 tons, from Fernandina to Buenos Ayres, lumber, \$19 net; a Ger. barque, 328 tons, from Satilla River to Rio Janeiro, lumber, \$20 net; a barque, 481 tons, from St. Marys to Port *pain, lumber, private terms; a brig, 242 tons, from Bucksville, S. C., to Guadaloupe, lumber, \$11; a barque, 300 M lumber, from Pensacola to Matanzas, lumber, \$75 spanish gold; a schr., 173 tons, from Pensacola or Pascagouta to a Mexican Gulf port, lumber, \$2; a Br. barque, 756 tons, from St. John, N. B., to the North Side of Cuba, box shooks, 21c., and lumber, \$650; a barque, 434 tons, from Mobile to Black River Jam., lumber, \$11 tons, from Mobile to Jamaica, lumber \$10; a schr., 260 tons, from Mobile to Black River Jam., lumber, \$11; a brig, 306 tons, from Pensacola to Havana, lumber, \$950, spanish gold; a s srh, 300 M lumber and timber, from Savannah to New York, \$725 and \$825; a schr., 275 M lumber, from Brunswick to Richmond, \$750–20 M per day; a schr., 325 M resawed lumber and boards, from Union Island to Wilmington, N. C., \$8–20 M per day; tons, hence to Fernandina, stone, \$163, and back with lumber, \$97; a schr., 201 tons, from Jacksonville, lumber, from Jacksonville, lumber, \$10; a schr., 260 tons, from Mobile to New York, \$7 and \$8; a schr., 118 tons, hence to Mayport, Fla., stone, \$165, and back from Javannah to New York, \$7 and \$8; a schr., 118 tons, hence to Mayport, Fla., stone, \$165, and back from Javannah to New York, \$7 and \$8; a schr., 118 tons, hence to Mayport, Fla., stone, \$10, a schr., 260 tons,

GENERAL LUMBER NOTES. STATE.

Albany Lumber Market, as reported by the Argus.

FOR THE WEEK ENDED DEC. 6, 1881,

Boats from the Erie and Champlain canals are about all in; the lumber to go forward has been shipped, only a few boats, and those about half loaded, remaining huntin; freight to fill up. It is seddom a season closes with the movement of lumber in so satisfactory as a pe. Since our lest report further purhases of round lots of hox lumber have been made by the Export Lumber Company and others, and today that company is in market as a buyer, and pretty largely too. Prices are steady at quotations.

Hardwoods are quoted steady.

Coarse lumber boats have come forward freely since our last report, and the season of canal navigation is considered closed. Stocks held over are fair and are in good assortment at quotations.

Chicago reports receipts of lumber, since January 1st, at 1,810,816,000 feet, against 1,503,600,000 feet in 1880.

1880.

The receipts of lumber by lake at Buffalo for the week ending December 5th were 2,0 0,000 feet, and by rail, 73 cars. The receipts by lake at Oswego for the week, were 2,300,000 feet.

The receipts by canal at Albany from the opening of navigation to December 1st were:

Bds &Sctl..ft. Sligles,m. Timber.c.ft. Staves,lbs 1881... 459.359,000 9,592 1,000 6,975,000 1580... 882,087,000 6,439 10,685 038,030

THE WEST.

The Northwestern Lumberman reports:

THE WEST.

The Northwestern Lumberman reports:

The dealers at nearly every point have nothing to reasonably complain of regarding trade. It is doubtful if the lumber trade ever gave evidence of more prosperity at this season of the year. The retail dealers throughout the country who have laid in large stocks are to be congratulated on their good fortune, for they will not likely be able, for some time to come to duplicate them except at higher prices than they paid. Before us is a letter from a mill owner in Michigan, quoting prices to a wholesale house in this city, several of which are higher than the grades mentioned are sold at in this market. This case is by no means exceptional. It is difficult to find an owner of a sawmill, who has lumber unsold, whose ideas regarding the value of it are not pretty high.

At Mississippi River points, Burlington, Iowa, is the only market that reports trade as quiet. Prices at Muscatine are firm, and stocks are so small that t' ey will necessarilly be broken soon after the shutting down of the mills. At Clinton there is no weakness and a good trade, that is confidently expected to continue. The Hannibal, Mo., dealers have advanced on several grades, and some of them are not at all anxious to sell at the figures that are now given.

Winona, Minn., reports firm prices with an upward tendency. Several grades at Milwaukee are higher. Trade is decidedly good for the time of year, and the dealers are wishing that they had heavier stocks on hand with which to meet the demand. At Duluth, Minn., there is an advance on about everything below finishing of from \$\forall \text{ to official for humber will not cease. The Oshkosh, Wis., list is marked up generally. A streak of good luck, if it can be called so, has struck the Pennsylvania dealers. All the fall the droubt has held the logs and lumber up stream, but the rise in the rivers of late has brought them down to such an extent that the streams are cleaner than they have been for years.

From our Saginaw correspondent's letter may

CHICAGO.

Chicago.

We note among the transactions at the Franklin street market, since our last report, sales of Muskegon dimension sizes, ordinary length, at \$12, and of Manistee at \$12, \$12.50 and \$12.25. One or more cargoes of long length have brought \$16 and \$16.50. Muskegon boards have sold at \$14.25, and a cargo of Ludington mili run, nea by all one inch, sold at \$19.25. These quotations all show a material advance over a week ago. Shingles are firm at advanced quotations. We hear of actual sales at \$2.85. with \$2.90 asked for a cargo to arrive. During the month of November the receipts at Chicago were 102.017.000 feet of lumber as against 164,208,000 for the same month of 1883. The shipments were 2116.50,000 feet, as compared with 166,939,000 for November, 1880. Shingles for the same time 75.019,000 against 08.309,000 in November, 1880. The shipments of shingles were 81.957,000 against 84,572,000 in 1883. These figures would show that the stock of November 1 has been somewhat reduced, the snipments of the month exceeding the receipts by nearly 20,000,000 feet of lumber and 10,000,000 shingles. The volume of trade for the month compares favorably with the trade of November, 1880, the receipts of the current month exceeding the receipts of the current month exceeding the receipts of the current month exceeding those of last year by 27,809,000 feet of lumber, while the shipments were greater by 41.717.600 feet. The difference was not as great in shingles, the receipts being but 6.620,000 greater, while the shipments were during hovember were as follows: 7,988,000 lath; 153,700 pos*s; 150,919 railroad ties; 1,243 cords of wood; 626 cords of bark; 2,885 cords of slabs; 4,305 telegraph poles.

The receipts which more nearly represent the forest smally for 1881 to Nov 1 were 1 \$62.761.000 feet of

620 cords of bark; 2,885 cords of slabs; 4,305 telegraph poles.

The receipts which more nearly represent the forest supply for 1881 to Nov. 1, were 1,602;61,000 feet of lumber; 721,453,000 shingles; 103,833,000 lath; 2,823,153 cedar posts; 4,097,691 railroad ties; 32,723 cords of wood; 29,702 cords of bark; 22,419 cords of slabs; 84,877 telegraph poles and 25,118 pieces of piles. A large proportion of the sailing vessels are already laid up, and in all probability another week will see the balance in winter quarters. Steam craft may continue to run if the weather remains pleasant. Freights are not quotable, each separate charter being for all the vessel can get, with no modesty about asking enough. A large lumber fleet came in Wednesday

night, and on December 1 something over a dozen cargoes were at the Franklin street dock.

CARGO QUOTATIONS.

We have noted before that both whitewood and the lower grades of walnut a e cheaper in Tennessee than they were a couple of months ago, and the same statement still holds good. We also learn that the better grades of walnut have not the firmness that they had earlier in the season. Whitewood, that four week ago was held at \$31, has been bought since for \$28, and walnut from Nashville has been laid down here at the prices which awhile ago were demanded for it on track at that point. Nashville men who, a while since would not have thought of going away from home to sell their lumber, have recently been in this city for that purpose.

Ash, while not weak, is more plentiful than anyone expected to see it this fall, and it is doubtful if ever before, on December 1, there has been so much for sale in the Saginaw Valley. The manufacturers of this city are well stocked, having considerable more in their yards than they had last year at this time. Notwithstanding such a state of things we fair to find a man who feels at all bearish, but on the contrary all who are so fortunate as to have a good stock secured are heartily glad of it.

Lumberman and Manufacturers, (We have noted before that both whitewood and the

LUMBERMAN AND MANUFACTURER. (MINNEAPOLIS, MINN.,

We hazard the following prediction of the cut of 1882 on the waters of the Mississippi. We base the estimate on the intentions of the lumbermen, who, as a rule, get as many logs as they arrange to cut:

Upper Mississippi and Rum	275,000,000
St. Croix River	275,000,000
Chippewa River	600,000,000
Black River	
Wisconsin River	
Cedar River	
On Lumber Line R. R's	
On Duluth & N. P	
On Green Bay, Wisconsin Valley & Wiscon	
sin Central R. R	250,000,000
On old logs in streams and booms	375,000,900

Total supply...

THE EAST.

The Boston Journal of Commerce says:

The Boston Journal of Commerce says:

Business at most of the yards continues good, and everybody is satisfied with the past season's showing. Stocks in some cases are very much broken. In fact, it is the exception rather than the rule to find a dealer who is holding a good assortment of choice grades. This class of lumber has been receiving the lion's share of the demand, and the falling off in arrivals necessitated by the close of navigation will tend to further strengthen the situation. In view of these facts dealers are puzzled to devise means for getting stocks in readiness for the spring trade. Advices from the West show that producers have not given up their ideas of higher prices. Distributors at the East have come to the conclusion that consumers are paying high enough for their lumber, and that any material increase in prices would have a tendency to prevent many projected building operations. At any rate

they are determined not to advance prices so long as they can make a fair profit. Hard woods continue scarce and in good demand.

FOREIGN.

The Timber Trade's Journal reports:

At Messrs, Churchill & Sim's sale on Wednesday, out of some 650 lots offered, about a third of them were unreserved, exclusive of the supplemental sheet; and the following day about a similar proportion of the goods submitted were for absolute disposal.

At the sale in question, Pensacola and Darien pitch pine timber was quoted under 70s., without inducing business. Maueriatten, from Memel, obtainel 65s, and 75s. to 80s. was the queted price for 24 middling Why Southern pine in bulk should be so low just now it is not easy to understand; stocks are not inordinate. Wood of the kind seems to have its good years and its bad ones. The present may be st down amongst the last named. Anyhow, it does not seem to share in the general rise, so marked on other kinds of timber. In planks a slight improvement was noticeable at this week's sale, and that is the most we can say.

Some years since it was prognosticated that wood of this description would drive east country timber out of the market altogether; prices now tell a different story.

The business of the past week shows no diminution, and the statistics published at the end of the month will no doubt show very favorably, and give warrant for the firmer feeling now shown for nearly every

will no dollot show very favorably, and give warrant for the firmer feeling now shown for nearly every article.

Stocks are within a noderate compass, and, if we except pitch pine timber, are not far beyond the requirements of the trade up to the time of the next import season. The scant supply of Baltic timber is one of the most noticeable features, but, although this is very light in stock the prices demanded abroad are so high that this wood is virtually put out of this market, since it has to come into competition with pitch pine. This wood is rapidly losing the position it has so long held in the estimation of architects and builders, and is being superseded by pitch pine, which not only surpasses it in variety and extent of size, but at present rates heats it out of the market. In the race of competition this fact appears to be most prominent, at any rate so far as the west coast of England is concerned, viz., that either the price of Baltic timber is far too high, or that pitch pine is being sold far below its value.

Sornce deals continue to advance in price, and a further upward movement is improminent, as the prospects of a scant supply and the high cost abroad, together with increased rates of freight and insurance, become every day more evident. There is a marked inquiry for birch timber, as the stocks are low and the quantity available for shipment is very moderate, so that it is very unlikely consumers will be able to buy now unless at a considerable advance.

GLASGOW.

GLASGOW.

During the past week there has been a very light import of wood to Clyde ports, viz, a small cargo of teak, one of greenheart, and some small lots of staves, a.c., per steamer. No public sales have been held by wood brokers here. Trade is steady, and meantime gives no indication of any sharp change for the winter months. As to expected consumption the outlook generally is favorable, and, especially as regards shipbunding, likely to continue so for some time. The sale, however, of Canadian pine deals (best qualities), which used to go largely into consumption, has been slow throughout the season, and at present time gives no sign of a decided change for the better. But it is sooservable that for some time past there has been a marked restriction of the import of Quebec deals to Clyde.

marked restriction of the import of Quebec deals to Clyde.

The arrivals since the beginning of this month amount to only some 16,0.0 pieces, whereas the corresponding period last year shows 180,000 pieces imported.

responding period last year shows 180,000 pieces imported.

As regards sprace deals, a small cargo from New Brunswack has just been discharged here, but apart from this and imports that have gone direct into consumers' nands there has been no other arrival of lower port sprace deals at Clyde ports for about six weeks. The stock of this article being very light at present should have a hardening effect on prices.

Of bren timber there is at a present a very moderate supply on hand, but the demand is quiet. American wainut is still in demand, especially of large sizes and good quality. The import of mahogany up to date has been about equal to that of last year, the aggregate tonnage employed in conveyance being 3,200 tons. There has been no arrival of pitch pine since the beginning of October, so that stocks have been considerably reduced of late.

METALS- COPPER.-Ingot continued in good demand for some time following our last report, and, mand for some time following our last report, and, while the movement has of late been somewhat smaller, it is still very fair for the season and the position strong. The general belief seens to favor a large consumption during the winter and holders express much confidence. We quote at 1956/2019/26 per M cash for Lake. Manfactured Copper is firmer generally, and in good demand at the advance. We quote as follows: Brazier's Copper ordinary size, over 16 cz. per sq. foot, 30c. per lb.; do. do. do., 16 oz. and over 12 oz. per sq. foot, 33c. per lb.; do. do. do., 16 oz. and over 12 oz. per sq. foot, 33c. per lb.; do. do., lighter than 10 oz., per sq. foot, 36c. per lb.; do. do., lighter than 10 oz., per sq. foot, 36c. per lb.; do. do., lighter than 10 over, 36c. per lb.; segment and pattern sheets, 33c. per lb.; locomotive fire box sheets 39c. per lb.; Sheathing Copper, over 12 oz., per square foot, 27c. per lb., and Boit Copper, 30c. per lb. 1anx—Scotch 12g has not met with much demand for large blocks of stock and a great many of the recent arrivals wer t into store to add to the accumulation. There has, however, been a fair call for jobbing parcers on orders for immediate use and holders views remain about firm. We quote at \$23626.50 per ton according to brand and quantity. American pig is said to be handled only to the extent of immediate wants, but these appear to be taking out a considerable amount of stock, and there is no heavy or excessive offering from any source. Under the circumstances the advanage 1e mains with sellers and full former rates are asked or while the movement has of late been somewhat all grades with a considerable degree of firmness. For deliveries soon after the first of the year, however, sales have been made at lower figures and the offerings were very fair. We quote at \$25@22 per ton for No. 1 X foundry: \$23.00 223.50 do. do. for No. 2 X do. do. and \$22.00@22.50 do. for gray forge. Rails have remained quire firm on steel, with a good demand for future delivery, but iron still rather dull and the tone a little unsettled. Old Rails firmly held, but not very active at the moment. Scrap iron shows much firmness, and meets with a pretty good general demand. We quote rails at \$17.50488.50 for iron, and \$60@62 for steel, according to delivery. Old Rails, \$29@31.50 per ton; Scrap. \$31@32 50. Manufactured iron has secured continued full attention, and with the immediately available supply very moderate, extreme prices were secured readily, with an occasional lot in excess of quotations. On future deliveries sellers are a little easier. We quote: Common Mercha. Ear, ordinary sizes at 2.7@2.9c. from store, and Refined at 2.9@4.6; ryc. track bolt and nuts, 3%@4c; railway spikes, 34@33&c; tank, 3.5@3.6c; angle, 3.4c; best flange, 6c; and domestic sheet on the basis of 4@444c; for common Nos. 10@16. Other descriptions at corresponding prices, with 1.10c less on large lots from cars. Lean.—Domestic Pig has met with a good demand, principally from consumers, and, with the increased cost of laying stock down here from the West, the market is higher and firm. We quote at about 54@54c. The manufactures of lead are steady and quoted: Bar, 64c; Pipe. 74c., and Sheet, 8c. less the nsual discount to the Trade: and Tin-lined pipe, 15c.; block Tin Pipe, 35c., on same terms. Tin-Pipe has, as a rule, had an upward tendency on the favorable accounts from abroad and the confidence shown by holders here, but buyers are a little cautions, and do not invest freely at the cost. We quote 23@234c. for Australian 23@234c. for Straits, nominal for Enelish Refined, 23@2334c. for for do. Cummon. Tin Plates have not met with

NAILS.-Business at the West has been only fairly active, and espcially so on home account, as buyers are now confining themselves quite closely to the actual wants of the hour, and likely to continue this policy into the new year. Export orders do not afford much relief, and taken altogether the market is dull. There is supply enough for all calls.

We quote at 10d. to 60d., common fence and sheathing per keg. \$ -@3.40; 8d and 9d, common do. per keg. \$3.65; 6d and 7d, common do. per keg. \$3.90; 4d and 5d, common do, per keg, \$4.15; 3d, per keg, \$4.90; 3d, fine per keg, \$5.65; 2d, per keg, \$5.65.

Cut spikes, all sizes, \$3.65; floor, casing and box, \$4.15@4.90; finishing, \$4.40@5.15.

CLINCH NAILS

1½ inch, \$5.90; 1¾ inch, \$5.65; 2 inch, \$5.40; 2½@2¾ inch, \$5.15; 3 inch and longer, \$4.90.

PAINTS AND OILS.—As a rule, business continues in a quiet condition, and the market free from any exciting or particularly interesting features. Stocks are fair but not excessive, and there is an indisposition to add thereto until after inventories are taken and books written up. This supports prices very well, and in a few cases there is considerable firmness shown. Carmine, litharge, Venetian red and whiting are especially difficult to obtain for prompt delivery, and show a corresponding degree of firmness. Lin-seed oil is in very fair demand from most regular sources, but no large invoices at the moment wanted. Holders think well of their stock, however, and offer them only at former extreme rates. We quote about 657.67c for domestic and 68@70c for Calcutta from first hands.

PITCH .-- About the usual demand has prevailed, with the general tone of the market held steady. There was a fair supply for the orders, and a larger quantity could have been found if called for. We quote at \$2.50@2.62½ per bbl for city, delivered.

SPIRITS TURPENTINE.—The story has been about the same as for some time past. A moderately active jobbing trade doing and values ruling steady, but the wholesale market under manipulation, and showing more or less irregularity from day to day. Supplies are fair at the moment, with the advantage in buyer's favor. As this report is closed the quotations stand about 562,58c, per gallon, according to quantity handled.

TAR.—Business has shown a somewhat irregular tone, and was not at all times satisfactory. Still, as the general stock was under very good control, holders preserved a firm position and offered nothing except at full former rates. The arriva's were not extensive. We quote at \$2@3 3714 per bbl. for Newberne and Washington and \$3@3.50 for Wilmington, according to the size of invoice.

CONVEYANCES.

Wherever the letters Q. C. and C. a. G. occur. pre-ceded by the name of the grantee they mean as follows: 1st—Q. C. is an abbreviation, for Quit Claim deed i.e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or war-

ranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or incumbered.

MORTGAGES.

Note.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgage. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

dates used to meaning age vas handed into the Register's office to vere-corded.

Whenever the letters "P. M." occur, preceded by the name of a street in these lists of mortgages, they mean that it is a Furchase Money Mortgage, and for fuller particulars see the list of transfers under the correspondent date.
