BRICK AND STONE WATER-PROOFING CO.
WATER-PROOFING
FOR BRICK, STONE, TERRA COTTA, STUCCO, &c.,
ALSO FOR INTERIOR WALLS.

The disintegration of stone, the weather-staining of brick work, the crumbling of mortar joints and the efflorescence of salts so very noticeable on most of the finest buildings, CAN BE PERMANENTLY PREVENTED, and the buildings kept fresh and clean in appearance, by treating them with the above named process.

This is the only process that will render brick and stone PERMANENTLY WATER-PROOF and which will be ABSOLUTELY COLORLESS AND INVISIBLE. Its PERMANENCY is due to its being a SOLID COMPOUND, BURNT IN BY HEAT and is NOT a fluid, such as oil or paint.

We are also prepared to clean stained and decayed buildings, or marble and stone in any other form, in a superior manner to any other process, and defy competition.

Brown stone fronts and stoops cleaned and permanently preserved from decay.

Catalogues will be sent or any information furnished, also estimates made on buildings now standing or to be erected, by applying to or addressing the above named Company at its offices.
