# INDEX TO THE RECORD AND GUIDE.

VOL. XLV.

JANUARY—JUNE, INCLUSIVE.

1890.

The following semi-annual Index of the Conveyances and Projected Buildings in New York City, as published in THE RECORD AND GUIDE during the first half of 1890, will be found of great value to those of our subscribers who have preserved all the issues of this paper during that period. Great care has been taken to keep the Index up to the same perfect standard which has characterized it in the past. The pages are given on which all the transfers of realty published in Volume XLV. can be found, and the streets and avenues are so sub-divided that very few references are required. For instance, transfers of property on the Bowery appear in eighteen issues during the six months; Bowery, in the Index, is sub-divided into twelve parts, so that the least possible trouble need be incurred, provided it is known between what streets the property is located. In this volume we have attempted to go a little further than we have in the past, that is to say we have endeavored to arrange the transfers in such a manner, that every street affected

can be seen at a glance by turning to the pages upon which the Index calls for. We take for instance page 13 and find thereon:

University pl, No. 33 } begins University pl, n  
10th st, No. 25 E. } e cor 10th st, runs  
northeast 65.3 x east 99.9 x northeast 37.1 x  
east 47 x south 94.9 to st, x west 154 to begin-  
ning.

The above applies when a piece of property is on the corner of any street or avenue and runs in depth upon both streets more than 100 feet, or when a plot has buildings fronting on both streets, and also when the property begins on one street and runs to another. Although many of our subscribers have used the Index for years, some of them do not fully understand the completeness of the work. We are frequently told of errors that our readers think they have discovered, which, upon investigation, prove to be errors of the searcher—not of the Index. For instance, in the current number appears the following: Madison av, from 115th to 116th st, 159, 301, 338, 572, the latter being the pages on which

transfers on said street may be found. Now, turning to page 159, the average searcher would fail to find the item referred to, because it does not appear in the alphabetical order of streets. A close search shows the item under the head 115th st, n s, 335 e 5th av, where a plot, 85x100.11, is conveyed. The Index is, therefore, in some cases condemned for a supposed omission which is really the strongest evidence of the thoroughness with which it has been compiled. Where such an omission should occasionally seem apparent to the subscriber, he should search the whole page, and he will then find the item which is referred to. The Projected Buildings are indexed in a similar manner, so that it can readily be ascertained on what streets improvements have been made. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. A suitable binder can be obtained at the office of THE RECORD AND GUIDE, 191 Broadway, corner Dey street; price, one dollar.

## CONVEYANCES.

NOTE.—The figures in extra black type—for instance, pages 657 and 893 under the head of Ann street—denote that the transaction on the pages given is Leasehold, or a lease running for a long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the page mentioned.
