The following semi-annual Index of the Conveyances and Projected Buildings in New York City, as published in THE RECORD AND GUIDE during the last half of 1894, will be found of great value to those of our subscribers who have preserved all the issues of this paper during that period. Care has been taken to keep the Index up to the same standard which has characterized it in the past. The pages are given on which all the transfers of realty published in Volume LIV. can be found, and the streets and avenues are so subdivided that few references are required. For instance, transfers of property on Bank street appear in four issues during the six months. Bank street in the Index is subdivided into three parts, so that the least possible trouble need be incurred, provided it is known between what streets the property is located. In this volume we have continued to arrange the transfers in such a manner that almost every street affected (below the Harlem.) can be seen at a glance by turning to the pages which the Index calls for. Take for instance page 11 and find thereon:

Beaver st. No 22 } begins Beaver st. s s,  
Marketfield st } 140.11 w Broad st, 21.4  
x61.7 to Marketfield st, x22.3x58.11, 4-  
sty brk store.

The above applies when a piece of property is on the corner of any street or avenue below the Harlem River and runs in depth upon both streets more than 100 feet, or when a plot has buildings fronting on both streets, and also when the property begins on one street and runs to another. Although many of our subscribers have used the Index for years, some of them do not fully understand the completeness of the work. We are frequently told of errors that our readers think they have dis-

covered, which, upon investigation, prove to be errors of the searcher—not of the Index. For instance, in the current number appears the following: Armand place (23d and 24th Wards), 15, the latter being the page on which a transfer on said street may be found. Now, turning to page 15, the average searcher would fail to find the item referred to, because it does not appear in the alphabetical order of streets. A close search shows the item under the head of

Sedgwick av, n w s, 175 s w Perot st, runs n w 99 x s w 50 x n w 85 to s e s Armand pl, x s w 73.4 x s e 184 to Sedgwick av, x n e 122 to beginning.

The Index is, therefore, in some cases condemned for a supposed error which is really the strongest evidence of the thoroughness with which it has been compiled. Where such an omission should occasionally seem apparent to the subscriber, he should search the whole page, and he will then find the item which is referred to. The Projected Buildings are indexed in a similar manner, so that it can readily be ascertained on what streets improvements have been made. Those wishing to keep a file for permanent reference should see that all the numbers are complete and have them bound. Cost of binding, \$2.00 per volume. A suitable temporary binder, holding one volume, can be obtained at the office of THE RECORD AND GUIDE, 14 and 16 Vesey street; price, one dollar.

Annexed will be found a table showing the boundary lines, also the number of blocks contained in each of the thirteen Sections, and under which all property is now indexed in the Register's office by locality on new land maps of New York City, according to law, which went into effect Jan. 1, 1891. The tax maps are also arranged in a corresponding manner.

### CONVEYANCES.

NOTE.—The figures in parenthesis—for instance, page (970) under the head of Allen street, from Delancey to Stanton street—denote that the transaction on the page given is Leasehold, an assignment of lease or a lease running for a long term of years. This explanation is made so that subscribers searching for transfers in fee can at once distinguish between the former and the latter without referring to the pages mentioned.
